

Security and monitoring for your boat.

BRNKL is an award-winning security and monitoring system for your boat. Whether you're at the dock, at home, or half-way around the world you can check on your vessel from your smartphone, tablet, or computer.

Security

Capture photographs from your boat. Take photos on demand or automatically when a door opens, motion's detected, or other triggers.

Monitoring

Monitor your battery banks, shore power, bilge activity, and external sensors. Built-in sensors include temperature, humidity, barometric pressure, pitch, heel, and impact.

Global Coverage

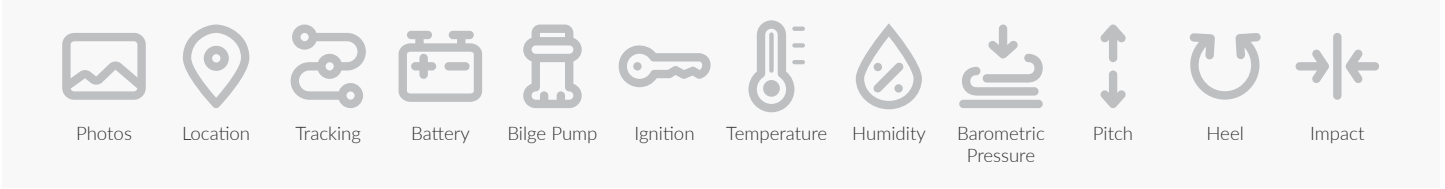

Cross borders without replacing SIM cards or other configuration hassles. BRNKL operates on a global cellular network.

Go to brnkl.io to explore the BRNKL line of security and monitoring products.
