MAKE A LOT OF WATER SEMI AUTOMATIC OPERATION

SXIII SEMI AUTOMATIC

SeaXchange WaterMaker

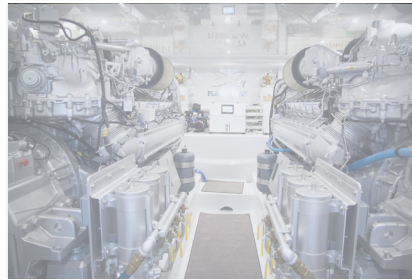

Spot Zero's SXIII SeaXchange WaterMaker provides compact, durable, industry leading performance. The SXIII series offers traditional, semi-automatic operation, featuring automated diversion valves and concentrate pressure valve for precise, hands-on control. A hi-def LCD screen displays critical performance readings, above a responsive keypad, for easy of system navigation and operation.

SEAWATER

230V/60 Hz
220V/50 Hz

KEY BENEFITS

- Traditional, hands-on operation
- Turn seawater into freshwater anytime, anywhere in the world
- Never run out of water
