MAKE A LOT OF WATER HANDS-FREE

XTCII FULLY AUTOMATIC

SeaXchange WaterMaker

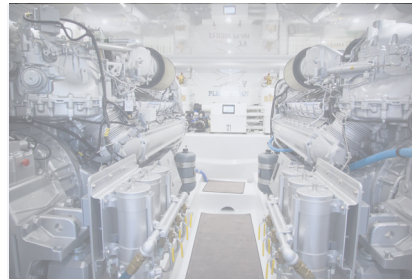

Spot Zero's SeaXchange XTCII Series is the most compact, fully automatic reverse-osmosis systems in it's class. With one-touch operation, XTCII WaterMakers keep your freshwater tanks full. Programmable logic control software monitors and regulates all system functions without operator intervention. With production capacities up to 2,200 GPD, XTCII is the perfect desalinator for mid-size to large vessels.

SEAWATER

230V/60 Hz
220V/50 Hz

KEY BENEFITS

- Effortlessly make freshwater
- Turn seawater into freshwater anytime, anywhere in the world
