

AN ENVIRONMENTAL CERTIFICATION WITH A WORLDWIDE RECOGNITION

Since 2006, Ecocert has been certifying detergents for the professionals and institutions determined to reduce their environmental impact.

Ecocert guarantees consumers increased transparency on the certified products' content, fulfilling their expectations for sustainable purchasing.

THE CERTIFICATION PROCESS IN 4 STEPS

- 1
- 2
- 3
- 4

VALIDATIONS
of your ingredients, formulas, packaging and labels through our private and secured interface: the Greenportal.

AUDIT & AUDIT REPORT
Following the audit completed by an inspector, your dedicated certification officer sends you a report review.

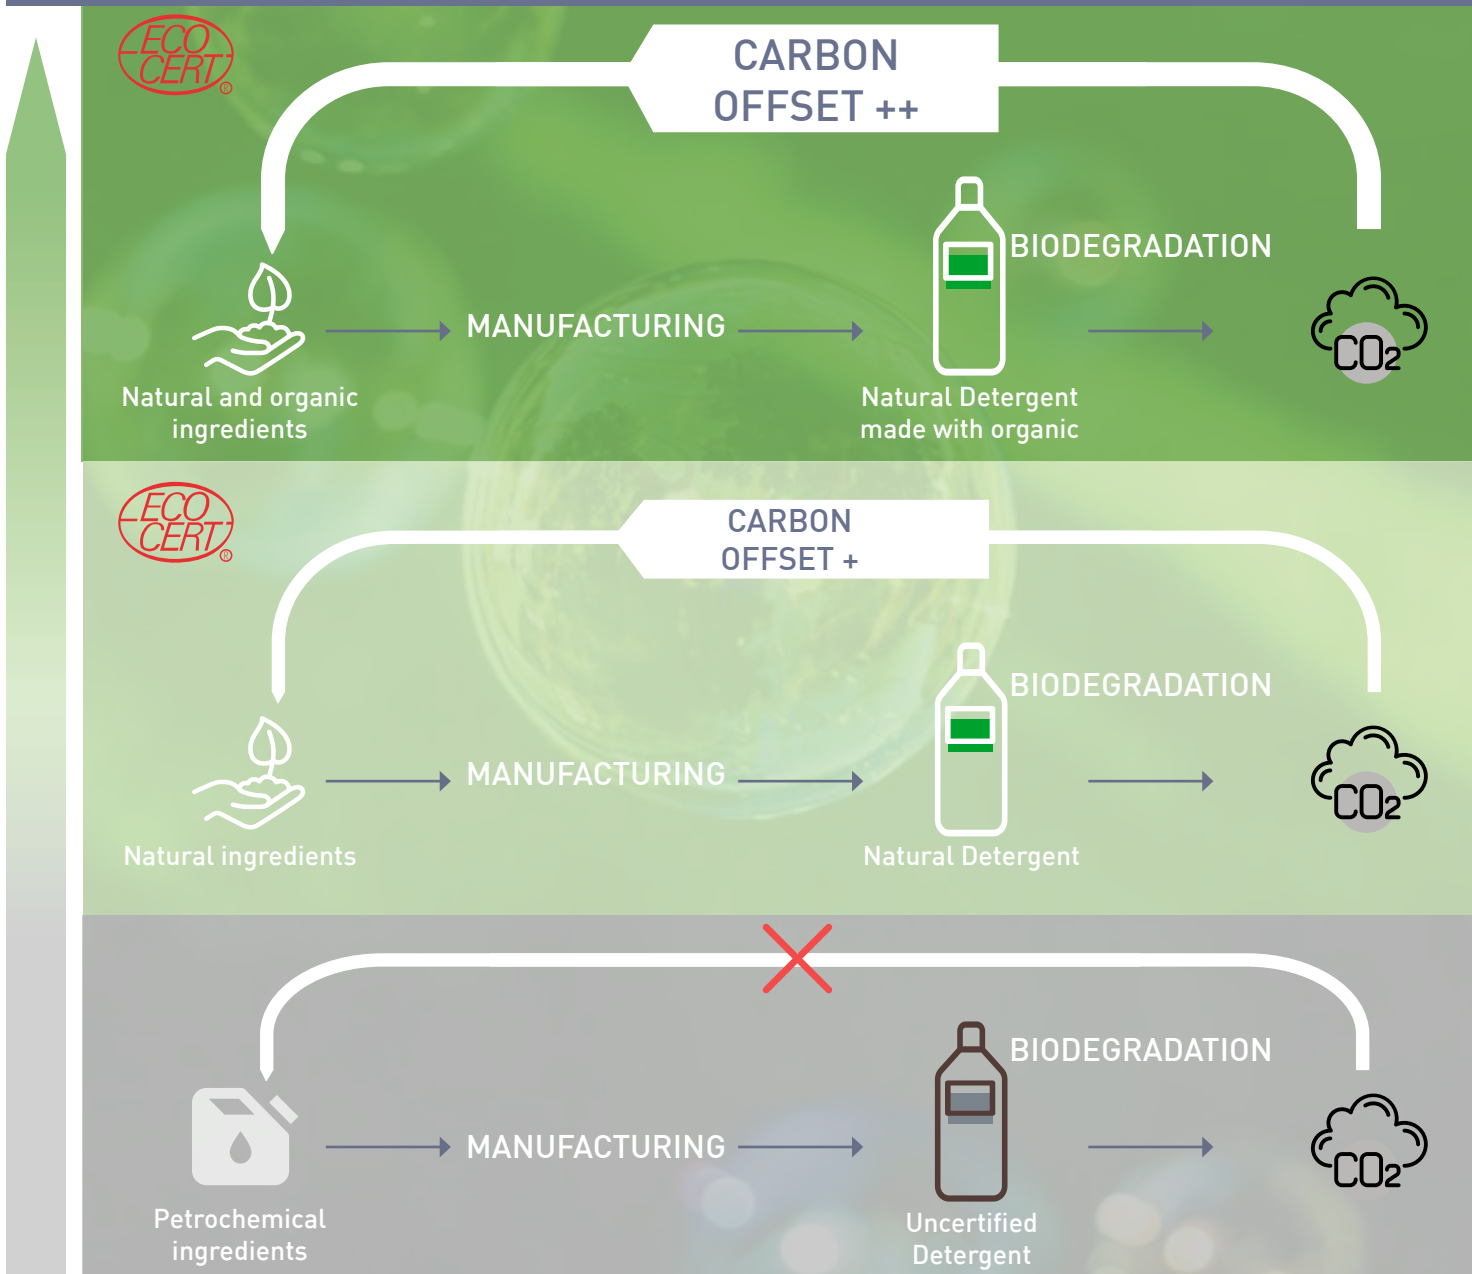

CERTIFICATION DECISION

DELIVERY OF THE CERTIFICATE
allowing you to commercialise your products with our guarantee.

Every year, to renew your certificate, a renewal audit must be carried out.

New products can be certified throughout the year.

By choosing our certification, you choose to act against global warming and involve your company in a strong sustainable development approach.

COMPARISON OF CO2 EMISSION FOR A DETERGENT MANUFACTURED WITH FOSSIL OR PLANT RESOURCES
