

MAGLIA™

A new era in textile looking Coated Fabrics.

STYLE FOR THE SENSES

Inspired by the renown “Oxford” textile pattern, MAGLIA™ achieves the natural appearance of a thick thin yarn and provides a comforting sensation for interior, as well as exterior environments. With 21 delightful colours that will stimulate your senses, MAGLIA™ may be combined with Spradling’s most recognised collections: SILVERTEX® and VALENCIA™.

BEAUTIFUL & RESISTANT

While texture and colour make MAGLIA™ unique, its performance ensures both durability and resistance. Creating a barrier against the most common problems in open and public environments like germs, abrasion and stains. It guarantees an effective protection for all types of furniture by utilising Spradling’s PERMABLOK³® protective finish.

HIGH SPECIFICATION

The most stringent technical requirements are exceeded to make MAGLIA™ the perfect choice for both Contract and Marine applications. Fire Resistant Certified as EN 1021 (1&2), B2, IMO, MED, UNI 9175 and M2, featuring impermeable properties as well as being PHTHALATE-FREE, turn this Coated Fabric into a high-quality solution for covering the most demanding, sophisticated and innovative furniture solutions.
