SAILTEC A NEW STANDARD IN MOTOR YACHT PRODUCTS

Whatever differences there might be between Reckmann products, our goal with every single one of them is to achieve maximum functionality in all weather conditions and in all circumstances. Of course, this also makes life on board motor yachts easier, more comfortable and safer.

SAILTEC products are innovative, reliable and provide real benefits to the customer as a result of many years of sailing and super yacht know how – and the passion to create perfect solutions.

SUNFLIP

SunFLIP is the high end system for removable sun awnings on yachts. Continuously refined over more than ten years, it provides a trouble free package of strong carbon poles and beautifully finished awnings.

We use a comprehensive software package for 3D tensile structure design to engineer the perfect awning system for each individual project. Calculating rather than estimating loads ensures peace of mind for the guests and crew on board, especially when the awnings are used at the upper end of the specified wind range.

SUNFLIP - POLES AND LIGHTS

02 **You have the choice** between straight, curved or angled poles to perfectly complement the design of the specific yacht. With several sizes of poles and our engineering know how, we can realize unconventional sun awnings systems on large yacht projects.

The poles can be equipped with different types of spot lights and strip lights. We also develop custom lighting options in cooperation with the yacht's design team. The customer can decide whether the power should be supplied via a cable or via induction.

POWERED BY PASSION

CUSTOMIZED SUNFLIP

03 **Ambition and creativity** to make special wishes come true, lead to the quality that people have come to expect from Reckmann's products for more than 125 years. This is our standard: to develop the best product on the market for you. At Reckmann we have developed a quality system, which leads to systematic engineering, a very high production & service level and full customer satisfaction. In general, that means that in terms of reliability, function and safety of the design, we do not make any compromise at Reckmann.

CUSTOMIZED SUNFLIP PRODUCT EXAMPLES:

- Custom pole shape
- Custom light housing
- Entertainment pole
- Faux wood finish
- Telescope pole
- Integrated speaker & TV holders
- Integrated MIST spray system
- Removable heli hangar extension

PROSCREEN

04 **ProSCREENS are the perfect solution** for outside projection screens on yachts. Easy and quick to set up and remove, well engineered and beautifully finished. Front and rear projections are possible.

The frame version uses a structural frame of carbon tubes, which can be dismantled into compact pieces suitable for storage.

The roll down version of the proSCREEN is completely integrated in one carbon cross beam, which can be easily mounted between two sunFLIP poles. This enables dual use of poles for sun protection and screen support.

WINDSCREEN / PRIVACYSCREEN

05 **Keep your privacy.** We provide a range of solutions for wind protection and privacy screens. From vertical textile privacy screens which can be tensioned between carbon poles, to semi-automatic transparent windscreens which are integrated in the exterior ceiling and rolled down with the use of a power tool. Combined with removable stanchions, this system is ideally suited to fully enclose an exterior deck space which can then be heated or air-conditioned.

PARASOLS

06 **ParaSOLS** provide a compact and flexible solution for smaller shaded areas. We offer a variety of styles and sizes with center supports or side supports. The fabric and paint finish can be matched to the sunFLIP or slideSHADE system for a uniform appearance on board.

OUR PRODUCT BENEFITS:

- Easy to handle due to light weight carbon construction
- Can be painted according to customer requirements
- Wind resistant due to integrated wind stabilizer
- Quick lock fitting for easy connection of the shade
- Removable battery light for illumination
- Various on deck storage options

STORAGE OPTIONS

1. Foldable extension arm
2. Integrated & stowable wind stabilizer
3. Holder for on deck storage option
4. Quick rotation lock & release

EXTENDABLE SLIDESHADE SYSTEM

INTEGRATED SLIDESHADE SYSTEM

INTEGRATED SLIDESHADE SYSTEM

TELESCOPIC SLIDESHADE SYSTEM

SLIDESHADE

07 **Flexible sun protection** for private guest areas at the push of a button. The slideSHADE systems are integrated into the yacht's structure, and are deployed electrically without any need for crew disturbing the guests.

Fixed tracks in the superstructure or extendable beams support the awning, and the right tension is always ensured by an integrated PLC control system.

Large awnings can be installed in compact spaces by using telescopic beams. We develop and deliver the complete system and provide a world wide after sales service.

SUNDECK

08 **Permanent shade and weather protection** – the sunDECK awnings are designed to stay up in any conditions. No poles have to be set up and no awnings folded and stored when not in use. These permanent awnings can serve as an elegant way to extend deck overhangs for that precious shady space on deck, or create large sheltered areas with an open and light feeling.

We provide the complete system with the adequate support structure in high grade stainless steel or carbon tubes. Designed for wind conditions of up to 100 kn, the sunDECK awnings provide a hassle-free solution in any environment.

PROSPORT

09 **Custom solutions** for sport court arrangements on open deck areas such as heli decks. We engineer, build and install tailored systems for each specific project. From a net around a court to keep the ball on board, up to a full on paddle tennis court with hard side walls and integrated lighting, the possibilities are almost endless.

SAFETY TRACKS

10 **Dedicated safety tracks** for securing crew working aloft. Fully certified to European Standard EN795:2012

ARCHITECTURE

11 **By bringing solutions** which have been tried and tested in a marine environment to the architectural sector, we explore new possibilities for adjustable or permanent sun protection in cooperation with innovative architects and real estate developers.

POWERED BY PASSION

SPECTACULAR IMPRESSIONS. VISIONARY IDEAS. REVOLUTIONARY TECHNOLOGY.

All Reckmann products have one thing in common: Our need and desire to develop and offer you as our customer the best possible solution available on the market. It doesn't matter whether it's a standard product or a custom-made specialist solution. Whether it's designed for Regatta sailors, cruisers, super yacht customers or businesses in general. We want you to be satisfied. And it's been that way for more than 125 years ...

FOR SAILING YACHTS

- Headsail Furlers
- Boom Reef Systems
- Mast Roller Systems
- Rigging Hydraulics
- Mast Jack Systems
- Hydraulic Units
- Emergency Rig Cutters
- Accessories/Spare Parts
- Rigging/Hydraulics Service

FOR MOTOR YACHTS

- sunFLIP
- sunDECK
- slideSHADE & slideSHADE Frame
- sunHATCH
- windScreen & privacyScreen
- paraSOL
- proSCREEN
- proSPORT
- Safety Tracks

FOR ARCHITECTURE

- Shading Systems
