EMERGENCY MANUAL RELEASE

## 'BUYING THE BEST IS NEVER A CHALLENGE'

The Ultimate Anchoring System for Pontoon & Deck Boats is available now! Introducing the GX1-P, the First & Only High Quality drum style anchor winch & integrated bow sprit designed to mount in as little as 8 inches of deck space.

Australian Made from 316 stainless steel and 6061 machined and anodized aluminium (like our entire GX Series), the GX1-P is made for the elements & is at home in both fresh and saltwater environments.

The pivoting bow sprit design of the GX1-P drops on deployment & lifts the anchor upon full retrieval allowing the operator to clear the boat slip or trailer with ease.

The GX1-P is a compact unit but it can be mounted on just about anything!

Thanks to the ultra-powerful 600W motor (some competitors would call this a 1500w motor) and oversized Italian Made gearsets the GX1-P can

be used on pontoon, tritoon, and deck boats to over 30ft and pull our 40lb REC Anchors & chain with ease. These tough features in the small GX1-P make it virtually bulletproof.

The GX1-P is made to be used with our all new REC anchors, but will also accommodate mushroom and river style anchors.

(GX1-P & REC Anchors patent pending #2022901235).

## WHY CHOOSE THE GX1-P?

- ✓ Mounts in 8 inches of deck space
- ✓ Clears your boat slip and trailer when retracted
- ✓ Easy to see and access if needed
- ✓ Very fast 130ft per minute drop & retrieve
- ✓ Very powerful, can lift any anchor you like
- ✓ Holds rope & chain
- ✓ Includes wireless remote for ease of use
- ✓ Includes GP316 gland plate for a neat finish
- ✓ Variety of rope, chain, and anchor combinations available
- ✓ Never touch your rope or anchor again!
- ✓ Made in Australia (not China)
- ✓ Built For Life with a 5 + Life Warranty

# GX1-P STANDARD INCLUSIONS

# WIRING

- ✓ Solenoid
- ✓ Large Backing Plate
- ✓ Small Backing Plate
- ✓ Wireless Remote
- ✓ GP316 Gland Plate
- ✓ Switch Panel with Circuit Breaker
- ✓ All Bolts, Nuts and Washers
- ✓ Installation Instructions

We make that easy! Use tinned 3B&S cable or let us make a loom for you.

We can supply a custom loom made specifically for your boat. Check our website or speak to your nearest dealer for details.

The GX1-P is available as a stand alone Winch Kit or in a variety of Combo Kits.

Winch Kits include the GX1-P plus standard inclusions pictured above. You can use your existing anchor and chain if desired.

Combo Kits Include the GX1-P Winch Kit plus anchor swivel, rope, and REC anchor & chain in your choice of galvanized or stainless steel.

# REC ANCHORS

The REC has arrived! The all new REC (river, estuary, combination) anchors by Lone Star Marine are specifically made for inshore use and pair perfectly with our GX1-P pontoon and deck boat anchor winch. The REC anchors hold unique advantages over other similar styles on the market.

REC anchors cannot sit flat, as soon as they hit the bottom they are on their side and ready to dig in! The cupped design gathers more substrate & balances weight along the leading edge to avoid the anchor skipping across harder substrates. Fine entry along the flukes ensure a quick set.

REC anchors feature 3 holes in the base, allowing sediment to pass through as the anchor is being retrieved.

REC anchors are available in 15, 25, and 40lb in both hot dipped galvanized or stainless steel finish.

## WHO ARE LONE STAR MARINE? WHAT ELSE DOES LSM MAKE?

All kinds of cool stuff! LSM are known World Wide for their innovation & GX Series of drum anchor winches & accessories. We design and manufacture winches, anchors, electric fishing systems, pot haulers, and all related accessories. Basically if its boating related and needs to pull line, we make it. We take pride in originality, superior design, in house manufacturing, and provide the absolute best in

customer service. We manufacture anchor winches & fishing systems for recreational and commercial users across the globe.

LSM was founded in 2011 by a transplanted American, we live & manufacture in Australia. We believe no industry leader attains that position by letting someone else do all the work, which is why we manufacture the bulk of our products in Australia, not China.

**Do your research before buying!**
