

MARINE LIGHTING
PRODUCT GUIDE

Excellence in LED Lighting

SHADOW-CASTER™ LED LIGHTING

Shadow-Caster™ specializes in the design and manufacture of a complete range of innovative marine LED lighting products, controls and accessories. All products are manufactured at our facility in Clearwater, Florida USA. We pride ourselves on our superior customer support, making us the clear choice for lighting products that are exceptionally bright, robust and efficient.

We have relationships with major marine electronic manufacturers, including Garmin, Raymarine, Furuno, Simrad, Lowrance, B&G, and Humminbird to offer integrated solutions to provide seamless and easy to use marine lighting control interfaces.

OUR STORY

The founders of Shadow-Caster™ are driven to bring products to the marketplace that deliver high performance and reliability. Their devotion to the boating community drives constant evolution and improvements to the Shadow-Caster™ product line. This continual improvement sets Shadow-Caster™ Lighting above the rest.

At Shadow-Caster™ we strive to innovate beyond the standard LED light. Over the last few years, our Shadow-NET™ technology has continuously evolved and today you will find products utilizing our unique lighting protocol integrated across many boat manufacturers. Shadow-NET™ delivers on our vision to provide customers with integrated lighting control for an entire boat.

UNDERWATER LIGHTS

SCR SERIES

Bronze housing and borosilicate glass window make this light a great all round choice.

- Best in class for brightness, ease of operation and quality
- Ideal for 'Live In The Water' boats
- Proprietary clear-gel-filled design
- Scratch resistant, tempered glass lens
- Bronze housing
- IP68 fully submersible waterproof design
- Transient surge and reverse polarity protection
- Thermal throttling technology
- 10-40V input range

SC3 SERIES

Our newest underwater light series for smaller and more cost sensitive applications.

- Bronze housing with 3.4" diameter and tempered glass window
- Ideal for 'Live In The Water' boats
- Clear gel filled design
- 24 watts, 3000 lumen output
- IP68 fully submersible waterproof design

SC3 PONTON

A light designed specifically for bracket mounting on pontoon boats.

- Rear bolt design provides a sleek mounting profile
- Hard anodized aluminum housing with glass window
- 3 color options including RGB
- IP68 fully submersible waterproof design

SCR-24

- Up to 10,000 lumens
- 120° beam angle
- 90 watts power draw
- 12 built-in colors (CC model only)
- Unlimited colors enabled with Shadow-NET™ (RGB-CC model only)

LED colors:
RGB
CC

SC3-BZSM

- Economical cost option
- Bronze housing
- Up to 3,000 lumens
- Surface mount
- Passive RGB design
- 2A current draw at 12V
- 10-30V input range
- Unlimited colors enabled with Shadow-NET™ (RGB-CC model only)

LED colors:
RGB
CC

SCR-16

- Up to 7,000 lumens
- 120° beam angle
- 60 watts power draw
- Built-in color control (BW model)
- Built-in dimming (single color models)

LED colors:

SC3-ALTB PONTON LIGHT

- Use with RGB controller
- Hard anodized aluminum housing
- Up to 3,000 lumens
- Bracket mount
- Passive RGB design
- 1A current draw (RGB)
- 1.4A current draw (single color)
- 12V input only

LED colors:

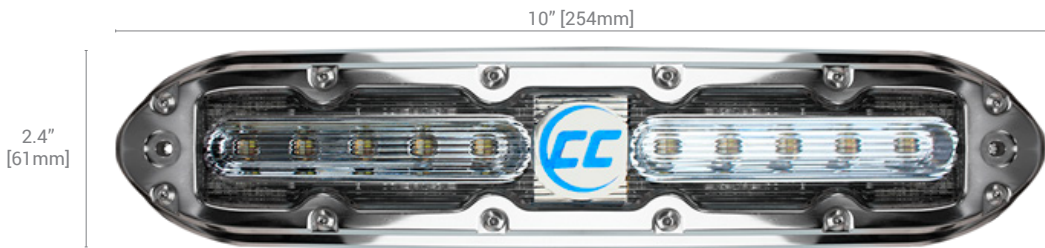

UNDERWATER LIGHTS

SCM SERIES

Low profile design, high brightness and stainless steel housing make this light a great choice for trailer and lift kept boats.

- Proprietary clear-gel-filled design
- Tough, polycarbonate lens
- Corrosion resistant passivated stainless steel 316 housing
- IP68 fully submersible waterproof design
- Transient surge and reverse polarity protection
- Thermal throttling technology
- 10-40V input range

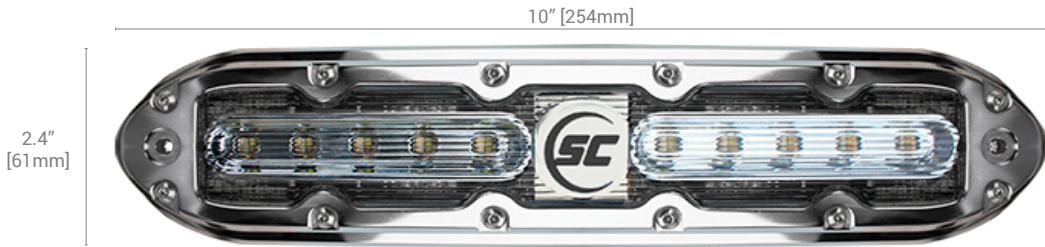

SCM-10-EXT-CC

- 10 RGBW LEDs
- Up to 4,000 lumens
- 120° beam angle
- 42W power draw

LED colors:

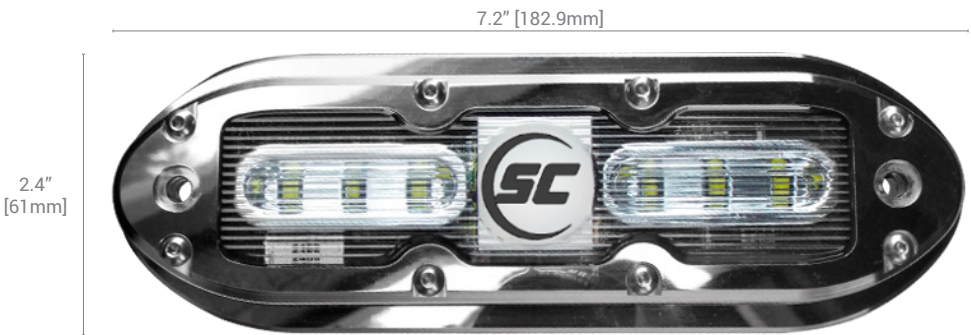

RGBW
CC

SCM-10

- 10 single color LEDs
- Up to 4,000 lumens
- 120° beam angle
- 42W power draw

LED colors:

SCM-6

- 6 single color LEDs
- Up to 2,400 lumens
- 120° beam angle
- 24W power draw

LED colors:

SCM-4

- 4 single color LEDs
- Up to 1,600 lumens
- 120° beam angle
- 16W power draw

LED colors:

SCM SERIES ULTRA-LOW PROFILE DESIGN

ABOVE WATER LIGHTS

SPREADER LIGHTS

Ideal choice for lighting large deck areas of your vessel.

- Flush mount version ideal for mounting in T-Tops
- Bracket mount version is ideal for retrofit in existing installations
- White or black finish available
- Durable glass lens
- IP67 waterproof design
- 10-30V input range

DOWN LIGHTS

Overhead lighting for your vessel. Ideal for T-tops and interior areas.

- White, black or chrome finish to match your boat aesthetics
- DLX version is 3 inch outside diameter with all glass reveal
- DL version is 2 inch outside diameter
- 10-30V input range

SCM-SL SERIES

- Low-profile aluminum housing
- 2,200 lumens
- 60° beam angle
- 24W power draw
- IP67 waterproof design
- 1.6" mounting depth (flush mount)
- 2.8" mounting depth (bracket mount)
- Shadow-NET™ Enabled (RGBW-CC model)

SCM-DLX

- Supports dimming
- 300 lumens
- 120° beam angle
- 3W power draw
- IP67 waterproof design
- Shadow-NET™ Enabled (RGBW-CC model)

- 3" [76.2mm] outside diameter
- 0.175" [4.5mm] mounting height
- 2" [50.8mm] mounting hole

SCM-DLXS

- A simple lower cost Down Light option
- 300 lumens
- 120° beam angle
- 3W power draw
- IP67 waterproof design

- 3" [76.2mm] outside diameter
- 0.175" [4.5mm] mounting height
- 2" [50.8mm] mounting hole

SCM-DL

- Supports dimming
- 300 lumens
- 120° beam angle
- 3W power draw
- IP67 waterproof design
- Shadow-NET™ Enabled (RGBW-CC model)

- 2" [50.8mm] outside diameter
- 0.175" [4.5mm] mounting height
- 2" [50.8mm] mounting hole

ABOVE WATER LIGHTS

ACCENT STRIP LIGHTS

Shadow-Caster™ Accent Strip Lights provide color changing RGB lighting for accent areas, hatches, steps, coves, shelves and compartments.

The SCM-AL-LED marine LED light strip is ideal for mounting out of direct view while the SCM-AL-NEON & SCM-AL-MINI-NEON versions are recommended where the strip will be directly visible, as they have an integrated light diffuser to create a pleasant, continuous lighting look.

	SCM-AL-NEON	SCM-AL-MINI-NEON	SCM-AL-SV-MINI-NEON	SCM-AL-LED
Type	Neon RGB	Neon RGB (smaller bend radius than SCM-AL-NEON)	Side Illuminated Neon RGB (smaller bend radius than SCM-AL-NEON)	LED RGB
Installation	Ideal for installing where strip will be visible			Ideal for installing out of 'line-of-sight'
Illumination	Diffuse RGB color			RGB Color
Lengths Available	8ft & 16ft [2.44m & 4.88m]		8ft, 16ft & 30ft [2.44m, 4.88m & 9.14m]	8ft & 16ft [2.44m & 4.88m]
Cut Lengths	Cut to length in ¼" (31.25 mm) increments	Cut to length in 1" (2.5cm) increments	Cut to length in 1" (2.5cm) increments	Cut to length in 2" (5cm) increments
Waterproof	IP67 waterproof design			
Cross Section	0.5" x 0.8" [12.7 x 20.3mm]	0.4" x 0.4" [10.2 x 10.2mm]	0.2" x 0.5" [5.1mm x 12.7mm]	0.2" x 0.5" [5.1mm x 12.7mm]
Bend Direction				
Mounting Track	See Accessories on page 19 for available Mounting Track			

COURTESY LIGHTS

Low profile design great for lighting accent areas, hatches, steps and baitwells.

Available in two finishes: polished stainless steel, or UV resistant ABS with a black and white cover included.

SCM-CL / SCM-CL-SS

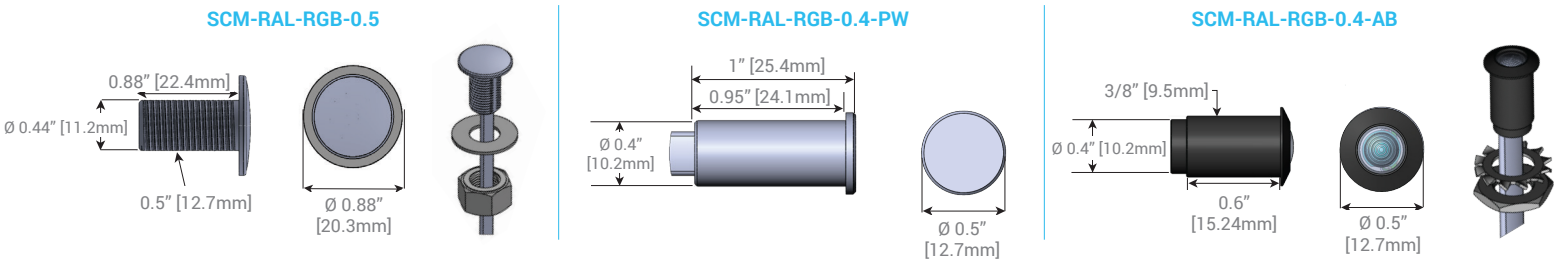

- Up to 26,000 mcd light output
- 40,000 hour LED lifetime
- 12/24V compatible
- 60mA (single color)
- 120mA max (RGB)
- IP67 waterproof design
- 3" x 0.78" x 0.2" [76.2 x 19.8 x 5.1mm]
- Edge emitting LED lights with 110° viewing angle for single lights and 130° for color changing lights

ROUND ACCENT LIGHTS

The SCM-RAL series offer bright accent lighting in a compact and low power draw design.

The RAL series are IP68 rated making them great for illuminating baitwells, hatches, cupholders, toe kicks and highlighting smaller areas of your vessel.

	SCM-RAL-RGB-0.5	SCM-RAL-RGB-0.4-PW	SCM-RAL-RGB-0.4-AB
Description	Clear plastic bright light	Diffused plastic low profile	Black aluminum with clear lens
Recommended Use	Baitwells, hatches and courtesy lighting	Hatches, map lighting and small spaces	Great for cup holders and panel mount instrument lighting
IP Rating	IP68	IP67	IP65
Voltage/Current	12V/30ma	12V/20ma	12V/20ma
Opening	1/2" [12.7mm]	3/8" [9.5mm]	3/8" [9.5mm]

CONTROLLERS

SCM LIGHT COMMANDER MULTI-ZONE LIGHTING CONTROLLER

LIGHT COMMANDER N2K
NMEA 2000 Light Controller and
Expansion Module

LIGHT COMMANDER N2K PLUS
NMEA 2000 'PLUS' built-in connectivity
to Ethernet

SCM LIGHT COMMANDER

The Shadow-Caster™ Light Commander is an NMEA 2000 connected lighting controller based on the newly published NMEA 2000 lighting control standards.

Utilization of NMEA 2000 lighting standards enable “next level” implementation of lighting control and marine system integration and system interoperability.

The expandable Light Commander multi-zone lighting controller supports up to 6 zones of lighting per module with native support for 4 zones of RGB or RGBW lights and unlimited Shadow-NET™ devices.

The lighting controller supports programs including multiple color fade, music sync and color rotation.

- NMEA 2000 backbone or MFD network port connectivity
- IP67 water resistant rated housing with Deutsch connections
- All in one design, no need for a separate MFD communication bridge (SCM-LC-PLUS)
- Up to 6 separate zones of lighting control - expandable to 18 zones by connecting multiple units
- 6 “Instant ON” switch inputs for enabling lights without MFD control
- Support for RGB and RGBW lighting

COMPATIBLE WITH LEADING MFD BRANDS

INTERFACING TO THE SCM LIGHT COMMANDER

NMEA 2000

Direct NMEA 2000 connectivity.
Check with your MFD manufacturer to verify support.
SCM-LC-N2K or SCM-LC-PLUS

NETWORK INTERFACE

Direct network connectivity, supported by most MFD manufacturers.
SCM-LC-PLUS

PUSH BUTTON CONTROL FOR 6 ZONES

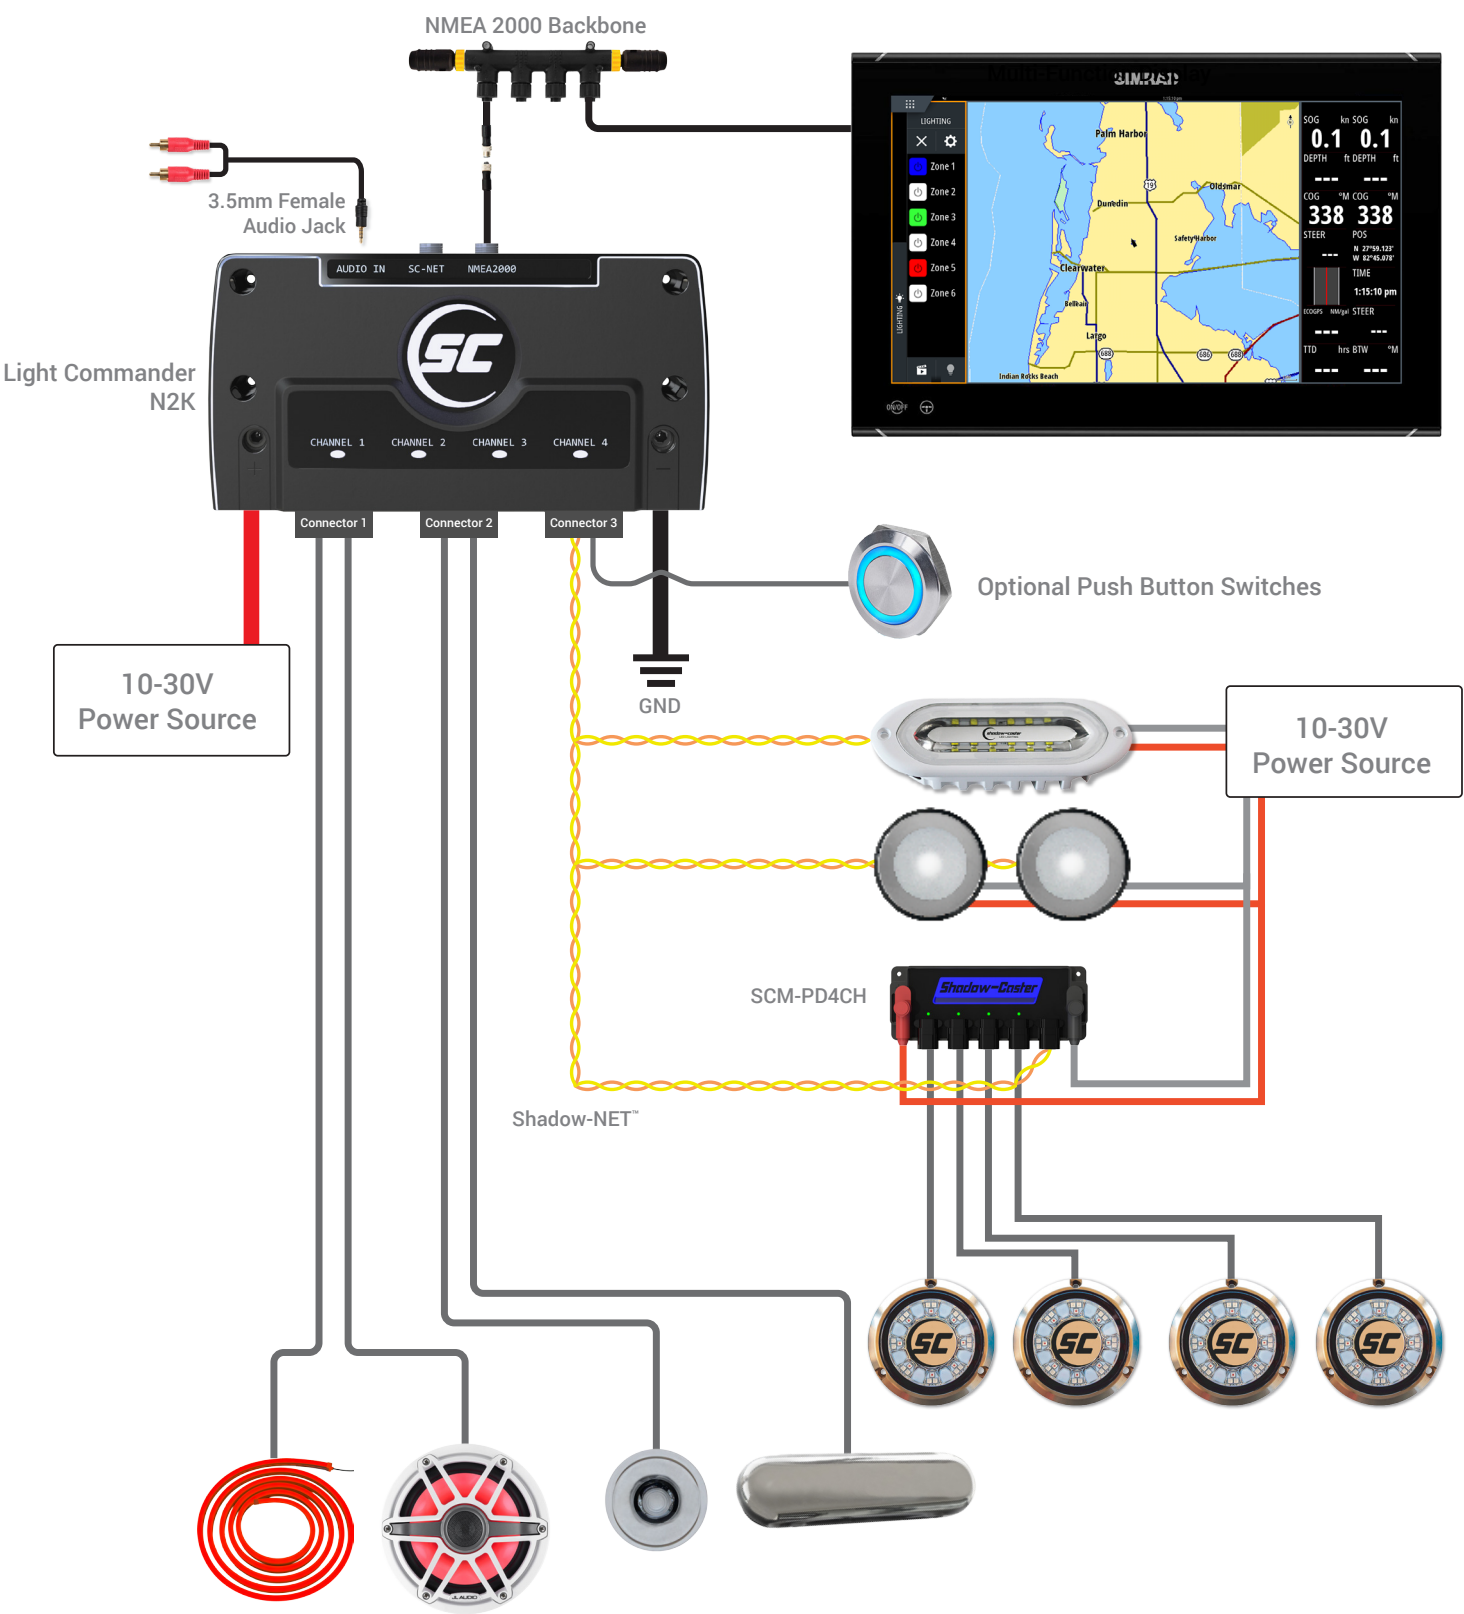

Push button control for 6 zones via momentary switch.

- Press for ON/OFF
- Press and hold to dim

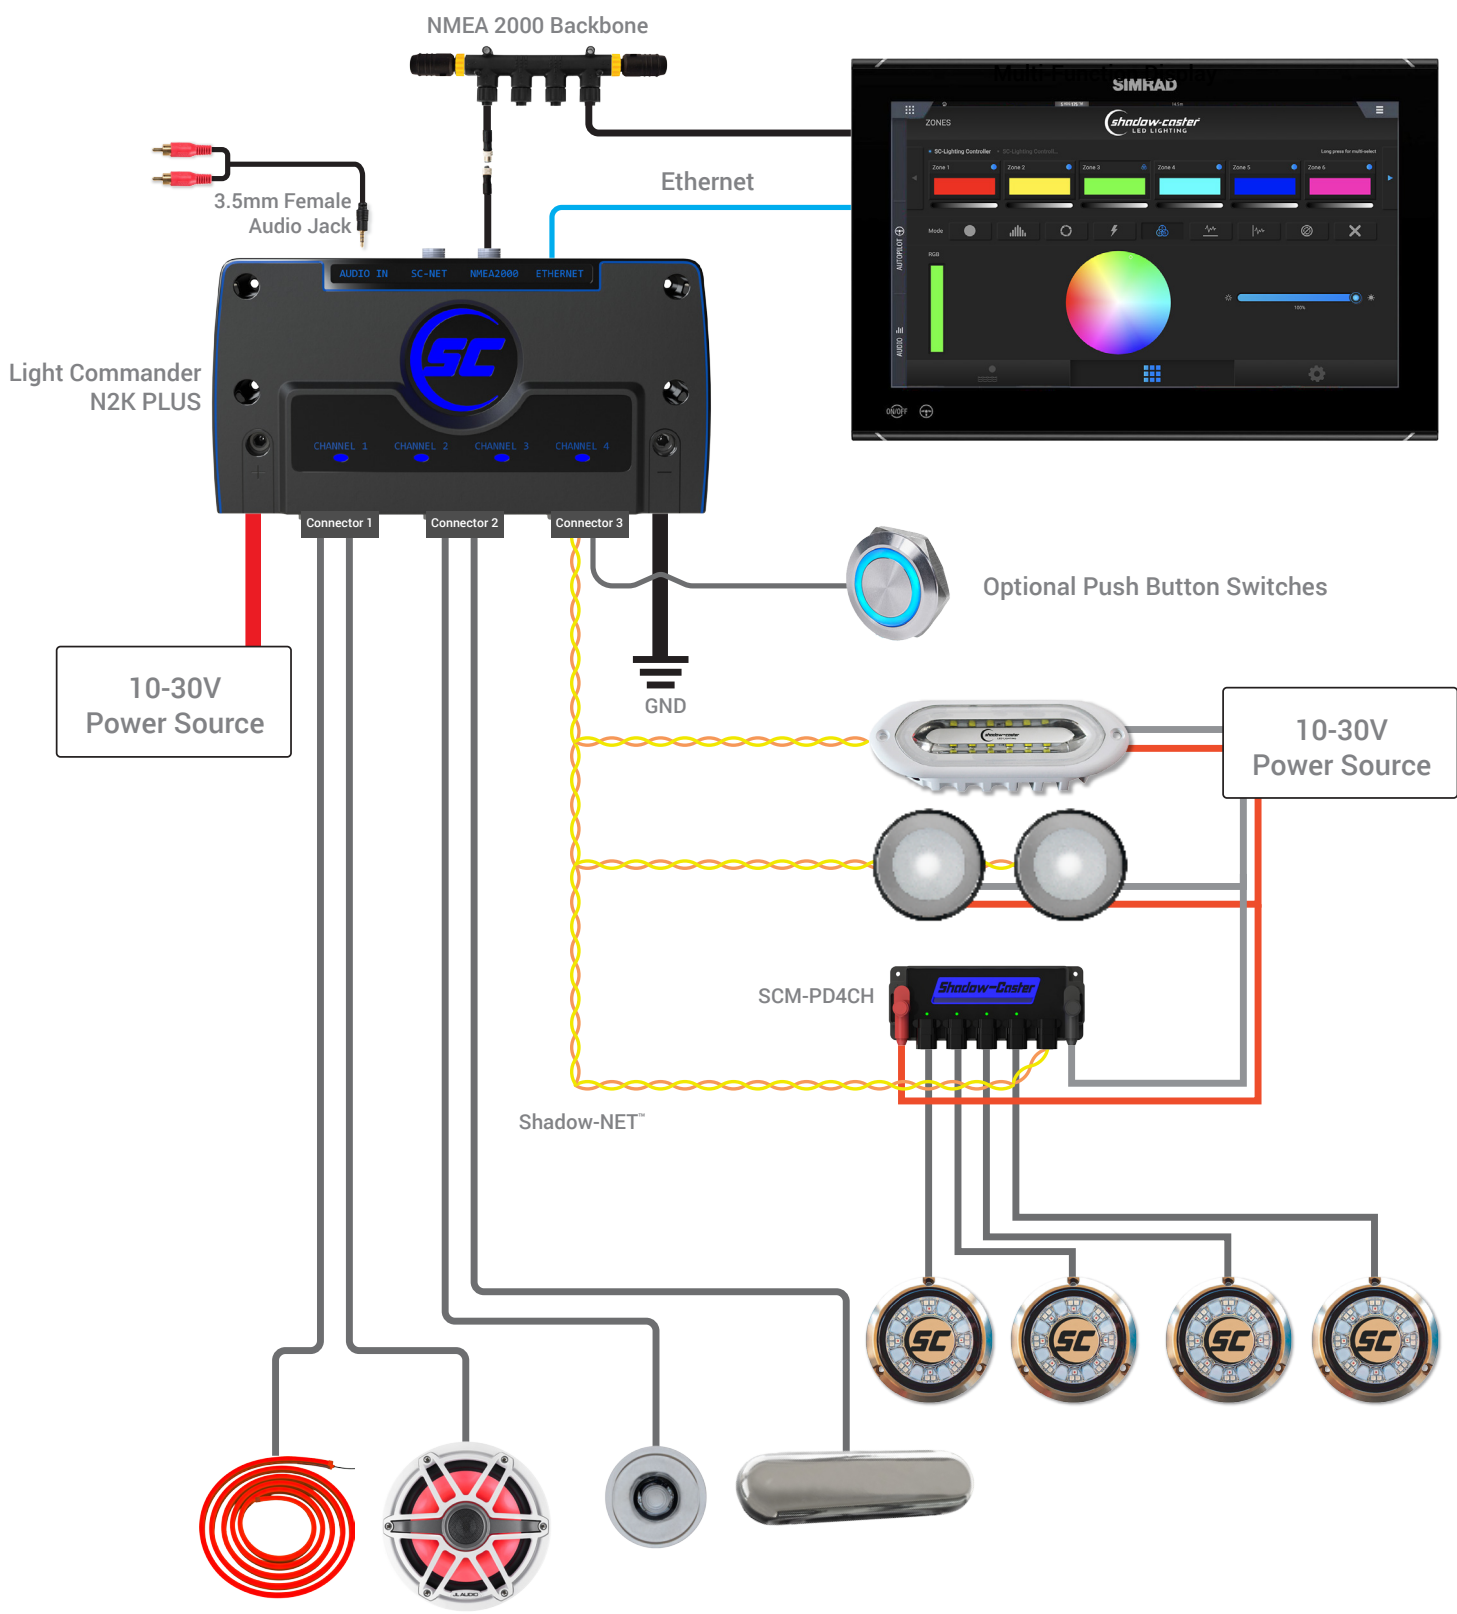

CONTROLLERS

SCM-MFD-LC-KIT

The Shadow-Caster™ MFD Lighting Control Kit is compatible with most major MFD manufacturers including Garmin™, Simrad, Lowrance®, B&G, Raymarine®, Furuno and Humminbird.

Simply plug into your system's network interface and step through the on-screen setup. There is no additional software to install or complex configuration required.

- RGB, RGBW, 2 color and single color lighting
- Zone control (for multi-zone applications only)
- Multiple fade mode changes
- Control color and brightness
- 4 versions of music sync
- Endless lighting scenes can be configured and recalled
- Control transition speed, colour sequence for multiple fade and strobe modes

SCM-ZC-KIT

The Multi-Zone Lighting Control Kit SCM-ZC-KIT provides easy control with full Shadow-NET™ lighting control functionality.

The kit includes the SCM-ZC-REMOTE and the SCM-MZ-LC.

- RGB, RGBW, 2 color and single color lighting
- Zone control (for multi-zone applications only)
- Multiple fade mode changes
- Brightness in each zone
- 3 versions of music sync
- Control transition speed, color sequence for multiple fade and strobe modes

SCM-MFD-LC-KIT INCLUDES:

SCM-MFD-BRIDGE

- Provides ethernet connectivity interface for Shadow-Caster™ lighting controllers
- Comes with standard ethernet cable (adapter might be required from screen manufacturer)
- Shadow-Caster™ IP67 cables available for Garmin and Navico brands Simrad, Lowrance, and B&G models.
- Supports 6 zones of lighting control
- Recommended for use with SCM-MZ-LC (explore SCM-LC-PLUS version for newer systems)

SCM-MZ-LC

- 4 individually fused 15 amp RGBW lighting connections
- Compatible with 12/24 volt systems
- 3.5mm female audio connection for music sync input
- IP65 washdown rated enclosure
- Shadow-NET™ Enabled

SCM-ZC-KIT INCLUDES:

SCM-ZC-REMOTE

- Easy to connect 4-conductor wiring harness
- 16 back-lit tactile push buttons
- Mounting hole 3.625" (9.2cm)
- IP65 water resistant

SCM-MZ-LC

- 4 individually fused 15 amp RGBW lighting connections
- Compatible with 12/24 volt systems
- 3.5mm female audio connection for music sync input
- IP65 washdown rated enclosure
- Shadow-NET™ Enabled

SCM-SNLC

The Shadow-Caster™ Single Zone Lighting Controller SCM-SNLC can be used to control a single zone of standard RGB or RGBW lighting.

When the SCM-SNLC is combined with our SCM-SWITCH-O/O/MOMENTARY a wider range of control options are accessible. Simply toggle power to set color and brightness and to select multiple fade modes.

SCM-SNLC

- Brightness control
- 12 pre-programmed colors
- Fade and color change modes
- Small compact IP67 waterproof housing
- Outputs Shadow-NET™ commands to synchronize
- Underwater lights with above water RGB lights
- Selectable to be compatible with RGB and RGBW lights
- RGBW+ LEDs and strips
- Control up to 250 watts of LED strip
- Shadow-NET™ Enabled

POWER DISTRIBUTION

SCM-PD4CH & SCM-PWR6

The SCM-PD4CH is a 4-position power distribution module that provides a convenient way to connect and power up to four Shadow-Caster™ underwater lights.

The SCM-PWR6 MODULE is a 6 channel digital switch module to interface any standard light with the Shadow-Caster™ Shadow-NET™ interface.

SCM-PD4CH

The SCM-PD4CH provides a convenient way to power and protect up to 4 Shadow-Caster™ underwater lights.

- Compact remote power control box
- Green/red LED indicates the status of each output channel
- Individual digital overcurrent protection for each channel
- Compatible with Shadow-Caster™ single and multi-color lights
- Recommended when installing two or more underwater lights
- Use with a helm mounted switch or with no switch when using compatible Shadow-Caster™ controller
- Blue back light Shadow-Caster™ logo panel indicates power state
- IP67 Deutsch connections

SCM-PWR6

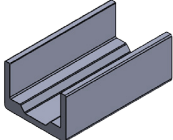

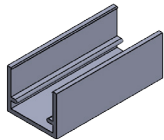

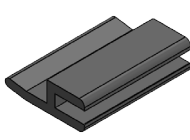

The SCM-PWR6 is designed to allow control of simple ON/OFF and other 3rd party Lights as part of a “Lighting Scene” through the Shadow-Caster™ interface.

- 6 independent digital switches
- Control 3rd party lighting
- Digital over current protection
- Manual switch override
- Full integration with Shadow-NET™ interface
- Blue back light Shadow-Caster™ logo panel indicates power state
