

Esthec[®]
composite decking

Esthec®: a sophisticated composite shipdeck.

Esthec® is nature re-invented. A modern sophisticated composite shipdeck.

No limits in design; available in 10 colours with 5 different joint options, offering freedom in plank pattern and all thinkable drawings such as circles, a company logo and mosaic. In addition, Esthec® is durable, easy to maintain and install, anti slip and made from sustainable materials without any use of scarce raw materials: Esthec® owns all necessary properties to make a revolutionary difference to both architects and the yacht building industry.

Experience Esthec® yourself at METS 2008 by visiting us at stand **01.830**.

We would very much like to meet you this year to share the future with you!
