

SOS MARINE

SOS 2 Person Life Raft Part # SOS-5550

SOS 2 Person Life raft packed in valise

This brand new concept provides a further safety alternative for coastal waterways.

- It weighs around 8 kilos
- Easy to handle and stow.
- The recommended service time is every 2 Years

The SOS 2 Person Life Raft caters for a large percentage of the marine market, the inshore and coastal boaters who usually travel solo or as a couple.

www.sosmarine.com

Australia's innovators of international marine safety & rescue equipment

For the 99% of people spend 99% of their boating time within sight of land.

520 gram cylinder is available at SOS Marine

- SOS 2 Person Life Raft is compact size
- Stowed in the smallest of spaces
- The ultra light life raft makes it easier to handle and thrown (by man, women and child) in an emergency situation.
- The life raft is packed in a high visibility orange valise.
- It is easier to maintain with much smaller servicing costs.
- The life raft gives you confidence in a man overboard situation, as it has an easy boarding platform as it is often easy to be semi-trapped when boarding in an emergency.
- The SOS 2 man life raft has a thermally insulated floor, which is also reflective for search and rescue teams.

The SOS 2 person life raft can improve the odds of recovery with the advantage of having survival assistance aids included

- SOS Marine has designed a 2 person life raft that 'bridges the gap' by offering all the boaters travelling alone or with one other person an easier system to use in a man overboard situation.
- Often, the existing 4 person rafts are **too heavy** and cumbersome for a couple to move into position when the need arises. The **2 Person Life Raft** weighs around 8 kilos answers that problem
- Packed 500x 350 x 110mm
- Compact, Ultra light, weighs around 8 Kilos
- Easy Maintenance with reduced servicing costs
- Self-contained disposable 520gram CO2 inflation system
- Durable 210 D Nylon Fabric PU Laminated and welded
- Easy boarding Manual/Auto-inflatable platform
- 3 Water pockets, a total 165 litres of ballast water
- Roomy 0.96 square metre interior
- Large Sea Anchor 400mm x 600mm
- SOLAS 750 sq centimetres reflective tape
- 2 SOLAS Lights

Survival Assistance Aids protected in waterproof bag:

- 2 Emergency space blankets
- Water (500ml)
- Mini Flare Kit
- Hand/Foot Pump in water proof bag
- Signalling Mirror & Floating Safety Knife
- Bailer
- Boarding ladder
- Life lines
- Rescue Quoit with floating line
