

SOS DOG HARNESS VEST

For the Professional Working Dog

SOS Marine is an Australian manufacturer of custom designed Professional Dog Harness Vests

The dog safety protection vests are designed to meet and defeat a variety of environmental, occupational and natural challenges that affect the performance of working service dogs.

The SOS Dog Harness protects and identifies professional service dogs for the Police Dog Squads, Customs, Military, Security and Fire Fighting Recovery teams

These harness-vests serve as a first layer of defence against potentially dangerous environments. They can be optionally equipped with ballistic armour to protect vital organs and designed in various colours. The protection vests are manufactured from the same types and quality of materials used for human protection.
