Dutch Bins

Solutions designed with functionality in mind for all types of situations and which lift hygiene levels in the field of waste. Waste can be processed in the most hygienic way possible, thanks to a foot-operated lid. The majority of the models make changing the bag effortless. The Basic Bins further include an ingenious lid system, making it possible to change the bag without removing the lid. This prevents causing damage to any existing sanitary fittings.

Medical Quality

MediQo-line

This range of dispensers offers the best solution when the highest possible level of hygiene is required. This range is perfectly suited for the medical sector as well as for the food-processing industry. The universal 0,5 and 1 litre soap dispensers with elbow-operated mechanism guarantee an optimal and hygienic dose. The various models available include finishes in anodized aluminium, stainless steel and white. The soap dispensers are available with short, long and extra long operating handles. The towel dispensers which can be replenished universally and further accessories, contribute to a total solution in which hygiene levels are lifted even further. The product range furthermore includes various solutions for toilets for the disabled.

PlastiQline

This stylish line of plastic dispensers includes a complete range of soap- and paper dispensers which can be refilled universally. Add to this its accessories and this range is perfectly suited for all sanitary rooms, kitchens or public spaces. The PlastiQline dispensers can be used in offices, schools, hotels and catering establishments, the industry and the medical sector. The dispensers can be fitted with your company logo, creating your own exclusive range. This option is offered for orders of 10 or more per item. The possibility of using different coloured windows further enhances a personalised look. Thanks to the use of ABS plastics, this robust range of dispensers is suitable for many different types of applications.

Wings

Quality and a functional design form the basis for this comprehensive range, giving complete freedom for a total solution in terms of furnishings and fittings. The completely renewed Wings products with fully welded covers of 1 mm (satin) polished stainless steel and anti-fingerprint coating are suitable for universal replenishment. Thanks to its high quality, this range offers the solution for furnishings and fittings of an unparalleled design. Various ingenious solutions, including a system in which the lid continues to form part of the bin when changing the bag, as well as the various easy-to-change pumps for the soap dispenser and the toilet roll holder suitable for universal replenishing, give this line an unique and, moreover, a practical character.

MATERIALS

The material determines the appearance of the product. One aspect of our customised production is that you can choose from a range of different materials. The available materials are shown below.

COATING

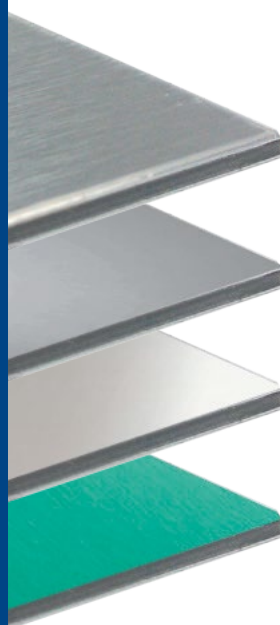

Dispensers that always look clean?
Our AFP coating makes fingerprints invisible
– so your interior always looks hygienic!

CHOOSE YOUR COLOUR

If you choose your own colour, you give even the interior of your sanitary facilities its own recognisable atmosphere and character. If you decide in favour of our newly developed Glass-Colour coating, the unique brushed structure of stainless steel remains visible. Or do you prefer a powder coating? We can do that for you, too.

**Production takes
place at our own
factory in Germany**

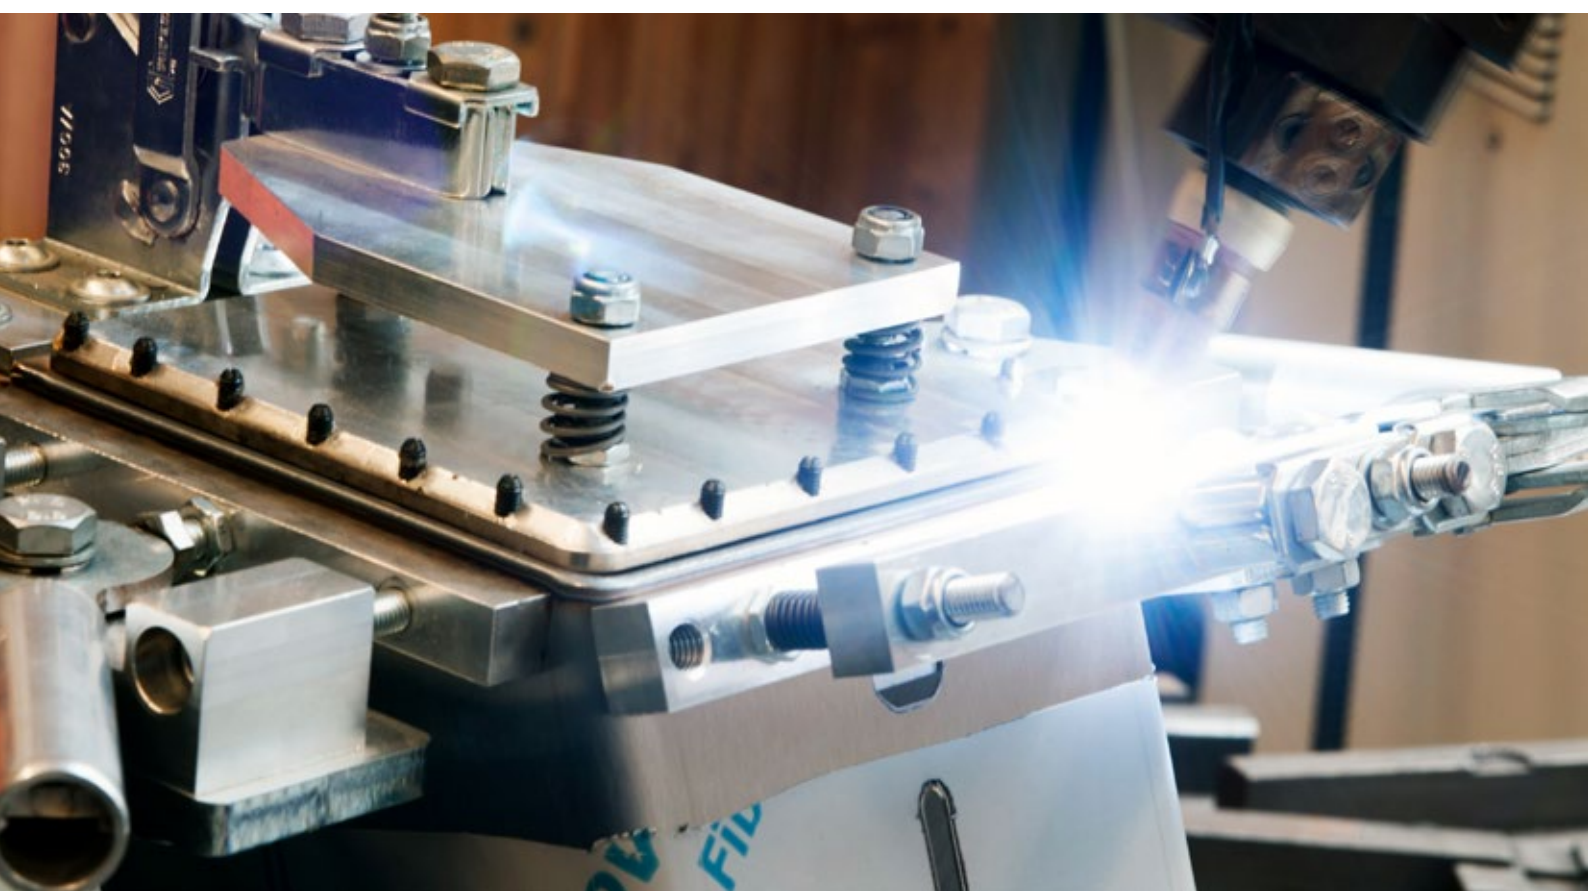

Choose your colour

If you choose your own colour, you give even the interior of your sanitary facilities its own recognisable atmosphere and character.

If you decide in favour of our newly developed Glass-Colour coating, the unique brushed structure of stainless steel remains visible.

Or do you prefer a powder coating?

We can do that for you, too.

**You also want to stay
informed of our most
important developments?**

We will keep you informed of:

- Trade fair news
- Trade fair invitations
- Product development
- Product characteristics
- Developments and trends

The newsletter is published once
every two months.
