

# The ultimate protection for your investment.

**Among the top three reasons people quit boating is a fear of damaging their boat.** HydroHoist offers products to protect your boat and dock from entry to exit. Made of non-marring polyethylene resin, which will absorb the impacts between the boat and the dock.

#### BOW BUMPER

- Self-centering for boat or PWC
- Bull-nosed top to prevent "slamming" on the dock

#### CORNER BUMPER

- Longer life with rounded corners
- Push-out center to wrap around corner uprights on covered docks

#### ULTRAFENDER™

- Perfect for gas and premium docks
- Bull-nosed top to prevent "slamming" on docks

#### HYDROFENDER™

- Step-up edging alternative for traditional rub rail
- Designed to easily attach to a 2 x 6 header (5.5" flat back)
- Bull-nosed to prevent "slamming" on the dock
- Easily separates into two sections for sizing
