FINALLY: a press fastener you can truly rely on

Probably nobody realizes that the press fasteners that are used in rough conditions like marine applications are not even resistant to sea water. Until now! About the smallest item on deck is now available in real 316 stainless steel: CAF-316®. True durability, because also the spring inside is made of Duplex stainless steel quality, making sure the fasteners performance is stable over time and use, no matter the conditions.

CAF-316 Cap (A)		product	code	package	
normal shaft ø 15mm	polished SS 316		210000-100	100 x caps	
			210000-1000	1000 x caps	
normal shaft colour ø 15mm	SS 316 BLACK	210001-100		100 x caps	
	SS 316 BLACK MATT	210002-100			
	SS 316 PEARL WHITE	210003-100			
	SS 316 GREY	210004-100			
	SS 316 KHAKI	210005-100			
	SS 316 NAVY BLUE	210006-100			
	SS 316 BORDEAUX RED	210007-100			
long shaft ø 15mm	polished SS 316	210100-100	210100-1000	100 x caps	1000 x caps

CAF-316 Socket (B)		product	code	package	
socket	SS 316 (incl. duplex-quality spring)		220000-100	100 x socket	
			220000-1000	1000 x socket	

CAF-316 Stud (C)		product	code	package	
eyelet	SS 316		230000-100	100 x post	
			230000-1000	1000 x post	

CAF-316 Fixing		product	code	package	
tapping screw	3,9 x 16 DIN7982 C-Z A4		140100-100	100 x screw	
			140100-1000	1000 x screw	
M4 bolt	M4 x 16 DIN965-Z		140200-100	100 x M4	
			140200-1000	1000 x M4	
self-drilling screw	3,9 x 16 DIN75040-Z A2		141400-100	100 x sd-screw	
			141400-1000	1000 x sd-screw	
blind rivet	4,0 x 10 DIN 7337B A2		141300-100	100 x blind rivet	
			141300-1000	1000 x blind rivet	
eyelet (D)	SS 316		140500-100	100 x post	
			140500-1000	1000 x post	

CAF-316® is delivered in smart, stackable packages even for do-it-yourself customers.

DO IT YOURSELF KIT
Code: 250000-10
Package: 10 sets
cap + socket + stud + screw,
incl. tools

sea water **RESISTANT**

CAF-316 is a press fastener, made of the high quality material 316 Stainless Steel

RELIABLE performance

Even the spring inside the socket is made of Duplex stainless steel quality, making sure the fasteners performance is stable over time and use, without deformation. No matter the conditions

easy to **INSTALL**

Installation is like a normal press fastener (self piercing shaft) using the same application tools, from hand punch to full automatic machines

variety of **COLOURS**

With caps being enamelled 316 stainless steel for a perfect match with your canvas

When it comes to quality and durability, it is all in the detail: Imagine arriving at your boat for an exciting or relaxing trip you discover some of the press fasteners of your important boat cover didn't seem to stand the rough weather of last weekend and popped loose. The damage is easily explained: When taking a closer look, the cause becomes clear by the rust they show. And soon you realize that the protection of your precious property is actually dependant on these little parts. Ever wondered why with nowadays technical developments this obvious problem is not solved? From now on you will only trust on the real durability of true stainless steel fasteners: CAF-316®, no compromise.

Tools

To apply stainless steel Q-SNAP items in fabric.

product	code	package
Pres'nSnap pliers Incl 4 dies	190500-1	1 x comp. set
Pres'nSnap pliers w/o dies	190501-1	1 plier
4 dies (A & B, C & D)	190502-1	4 dies
2 dies (A & B)	190503-1	2 dies
2 dies (C & D)	190504-1	2 dies
hand punch-set (A & B, C & D)	190600-1	1 set
hand punch-set (A & B)	190601-1	1 set
