Moving With Style

2014-2015 Collection

About BW

An innovative and fashionable collection
for new outdoor experiences.

We are always trying to find ways to escape the city and explore the world through our adventures with nature and the natural environment. Our natural water complex as humans drives us to interact closely with lakes, rivers, and oceans. But we know all too well that while nature can be mild, it can also be wild! Keeping yourself dry and water resistant is the key factor to fully enjoying outdoor activities. Because of this, it is BW's ambition to keep water sports enthusiasts dry and stylish no matter what the conditions!

BW is a French outdoor sports brand that offers a wide range of waterproof bags and accessories. Since the early 1990's, our founders Francois De Lambert, Emmanuel Delarue, and Didier Hedreul, all active sailors and outdoor enthusiasts, began the journey to manufacture the best waterproof bags in the outdoor sports industry. In 2010, they successfully established BW, to better satisfy water sports enthusiasts. Through optimizing design and innovation, the BW brand offers outstanding and reliable outdoor waterproof products that continue to satisfy customers all over the globe.

If you're passionate about traveling and exploring unique destinations, all while keeping dry and looking great, then look no further than BW.

Let's "move with style"!

Your BW Team

SPOT BW IN YOUR COUNTRY!

BW is getting on the stage of every corner around the world!

Koh Samui, Thailand

Empuria Brava, Spain

Dubai, U.A.E

Shenzhen, China

Sanya, China

Bali, Indonesia

Amsterdam, Netherland

Cape Town, South Africa

BW, sponsor of "Team Whitewave" during the China Cup in 2013

Official sponsorship for China Cup 2014

Official sponsor for "Votre Nom Autour du Monde" 2014

BW SPONSORSHIP

For the second time since 2013, BW is sailing around the world with Captain Bertrand de Broc. With « Votre Nom Autour Du Monde », BW supports and witnesses all the fabulous experiences the Captain goes and will go through.

BE WATERPROOF!

Our Core Competitiveness

Keep yourself water resistant is the key factor for a successful outdoor experience. The high frequency technology and the unique roll seal system enable a reliable waterproof character for our products. Insisting on superior design and superior quality, BW offers a perfect combination of high-performance and good look.

Innovation In Design

BW products are waterproof, they are also more than waterproof. Multifunction and extendability are the core conceptions written in BW's blood. Make the accessories detachable to realize a multifunctional usage, extend the bags with no reduction to its waterproof character, BW innovates waterproof industry by an incomparable design.

All our products follow the 5 waterproof degrees as follows

- ■ ■ ■ ■ IP x1
Waterproof in light rain or splash
- ■ ■ ■ ■ IP x2
Waterproof in heavy rain
- ■ ■ ■ ■ IP x4
It floats or it can resist quick submersions
- ■ ■ ■ ■ IP x7
Submersible to at most 1 meter
- ■ ■ ■ ■ IP x8
Submersible to depths greater than 6 meters

WATERPROOF DEGREE

High Frequency Welding

The process of stitching creates thousands of small holes which reduce the ability of the bag to keep water out. But the former waterproof seal often peels away, reducing the lifespan of the bag's waterproof status. To avoid this problem, quality waterproof bags are constructed through high frequency welding. High frequency welding uses electromagnetic waves to heat and melt the materials to create a join. This technique enables the fibres to join together and creates a strong, durable and waterproof seal.

Durable Fabric

With a flexible usage of Vinyl, PU and TPU, BW's collection gains a good feedback from consumers with its durability and high-waterproofness. The fabric diversity also crowns BW products a fashion taste, especially for its Urban Range products.

Best Accessories

To offer an extraordinary performance, BW cooperates with most reputable brands of fasteners and zippers. Duraflex is a world famous accessory brand for outdoor sport equipment, it ranks as the most used brand of plastic fasteners in the world. Winhigh is an emerging brand of fasteners, though newly-born, Winhigh has already been appreciated by numerous famous brands.

BE WONDERFUL!

Be Dry And Be Wonderful Everywhere!

Wherever and however you practice an outdoor sport, being waterproof is always the amulet for your happiness. Keep your belongings dry, and go further. Explore the wonderland with a well-protected accompany! Get out with BW, be dry and be wonderful!

WATERPROOF BAGS

URBAN RANGE

FEATURES

Turn sport on a fashionable channel and translate fashion by sport. This year's new BW collection-Urban Range breaks stereotype of waterproof bags' plastic feeling, and shakes the industry by introducing a fashionable and urban fabric design on 100% waterproof character. Urban daily life and sport convenience achieve a perfect fusion.

- A special "Socket" is designed to provide waterproof protection

- Usage of a groundbreaking urban fabric ends the plastic feeling age of waterproof bags

- Elegant design fits well for city life
