

Elegance : Engineered

**BLINDS & SOFT
FURNISHINGS**

WORLD CLASS PRODUCTS FROM A WORLD CLASS COMPANY

A world leader in the design and manufacture of blinds, shades and soft furnishings, Oceanair has been at the forefront of innovation, delivering on the most challenging and creative of briefs since 1990.

Honing in on more than 25 years of expertise developed across the world's oceans, Oceanair are able to challenge traditional blind design, and provide elegant, bespoke, flawlessly finished treatments for applications across five demanding markets – Leisure Marine, Luxury Home, Commercial Property, Superyacht and Recreational Vehicle.

With sales, manufacturing, support and installation teams in the UK and North America supported by a global distributor network, Oceanair supplies in-house manufactured blinds to most of the world's leading boatbuilders, offering a turnkey survey and installation service.

Oceanair can take your brief, however complex, to produce the results you want and the “wow” factor you seek. It's what we do – and we're outstanding at it. Three Queen's Awards and ISO accreditation say so...

WHATEVER THE ENVIRONMENT...

...OR CHALLENGE

AUTOMATED SHADING

- **Effortless control**
- **Child safe**
- **Ideal for hard-to-reach blinds**

"Bespoke superyachts are the pinnacle of craftsmanship and design. At Design Unlimited, we strive for perfection with an attention to detail second to none. With meticulous installation and programming, powered blinds and control mechanisms completely transform the light on board at the touch of a button. Fingertip control of natural light is one of the elements that help us take luxury to the next level."

Mark Tucker, Yacht Designer,
designunlimited.net

UNIQUE MOTOR MENU

Oceanair offer a menu of motors to suit all budgets and functional requirements. This unique menu ensures the whole product range can be automated. For more detailed motor options please visit oceanair.co.uk

Motor Housing

Oceanair's electrical motor systems are of compact design, fitting neatly inside the head rail or roller. The slim profile makes Oceanair blinds perfectly suitable for combination designs; allowing two or three blinds to sit comfortably within the same aperture, providing multiple light diffusion options. Please visit oceanair.co.uk for detailed head rail options available for each product.

CONTROL OPTIONS

Sit back, relax and unwind – let the blinds take care of themselves...

Visit oceanair.co.uk for details of all control options

OCEANAIR SOMFY WIREFREE™

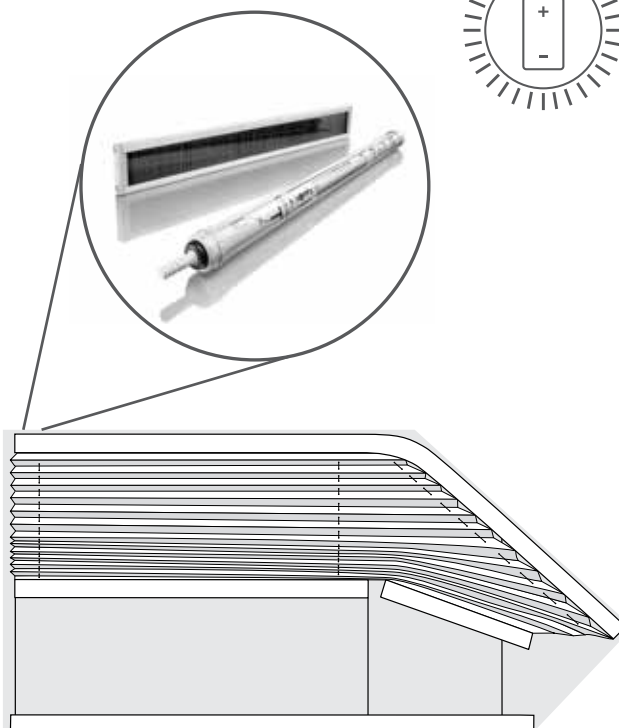

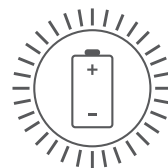

Oceanair have specially designed a comprehensive range of custom blinds, powered by Somfy WireFree™ battery operated technology.

The WireFree™ range enables you to operate powered blinds, at the touch of a button, without the need for wires.

- Battery powered
- Solar panel option available
- 100% wire free
- Easy installation
- Discreet, low profile
- Cost effective powered upgrade option
- Fully compatible with all control options above

Look out for our WireFree™ battery logo for availability across the SKYSOL, ROLLER COLLECTION, SKYVIEW, SKYVENETIAN and ROMANBLIND ranges.

See oceanair.co.uk for more information on the Oceanair range, powered by Somfy WireFree™.

CHILD SAFETY

All Oceanair blinds adhere to industry standard child safety regulations, offering a range of safety options with every product to prevent serious or fatal injury to small children.

Child safe devices include

Powered Blinds

Eliminates the need for operating cords

Self Contained Handles

Concealed cord operation

Precision Hold

Deploy and hold at any height without visible cords

Cleat

Fastens loose cording

Cord/Chain Tidy

Ensures taut chain or loop cord

Cord Breaker

Separates cording with applied pressure

Auto Release Cord Breaker

Fitted as standard to all Roman blinds

Visit oceanair.co.uk for more information on child safety

HATCH COVERINGS

Manufactured to fit all known hatch brands

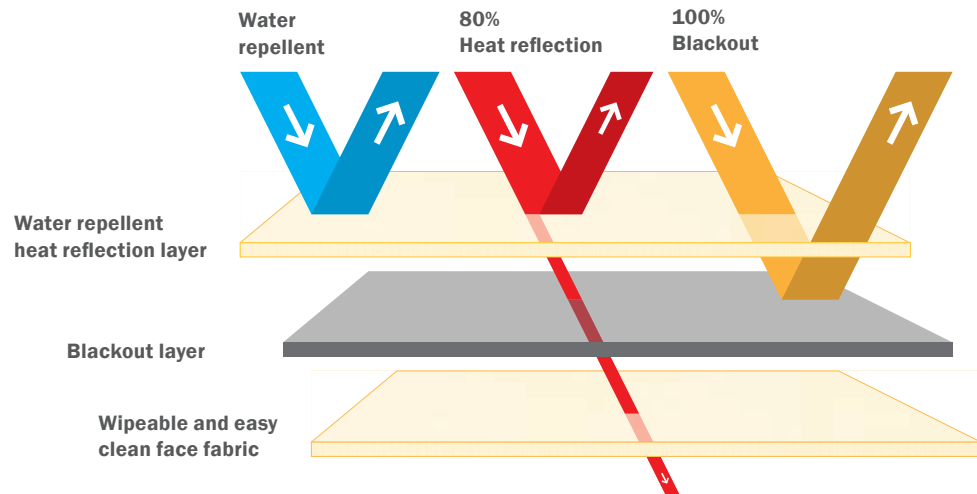

Oceanair hatch coverings control light transmission and, by extension, the cabin temperature.

A 3-layer blind fabric combines 0% light transmission and 80% heat reflection in a waterproof, UV-resistant, low maintenance, blind fabric.

Benefits:

- Temperature control
- Reduced energy bills
- Onboard privacy
- A good night's sleep
- Reduce UV damage
- Insect control
- Reduced glare
- Reduced condensation

By controlling light transmission and reflecting heat, hatch coverings help control the temperature in your cabin.

HATCH COVERINGS RANGE

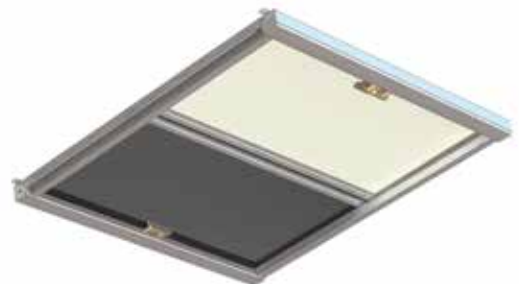

SKYSCREEN Roller Powered

The deluxe blind. Controlled at the touch of a button – page 16

SKYSCREEN Roller Concealed

The style solution. Designed to be concealed in the headlining – page 18

SKYSCREEN Roller Recessed

The discreet shade. Designed to fit flush with the headlining – page 19

SKYSCREEN Roller Surface 2

The easy fit shade. For all budgets – page 20

SKYSCREEN Pleated

The slim-line pleated blind. Combines style with roller screen function – page 22

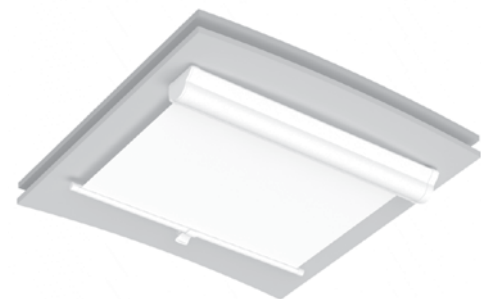

SKYSHADE CABINSHADE

The simple cassette roller blind. Housed in a functional extrusion for hatches for windows – page 24

SKYSHADE HATCHSHADE

The seamless fit cassette roller blind. Housed in an elegant profiled design – page 24

SKYSCREEN

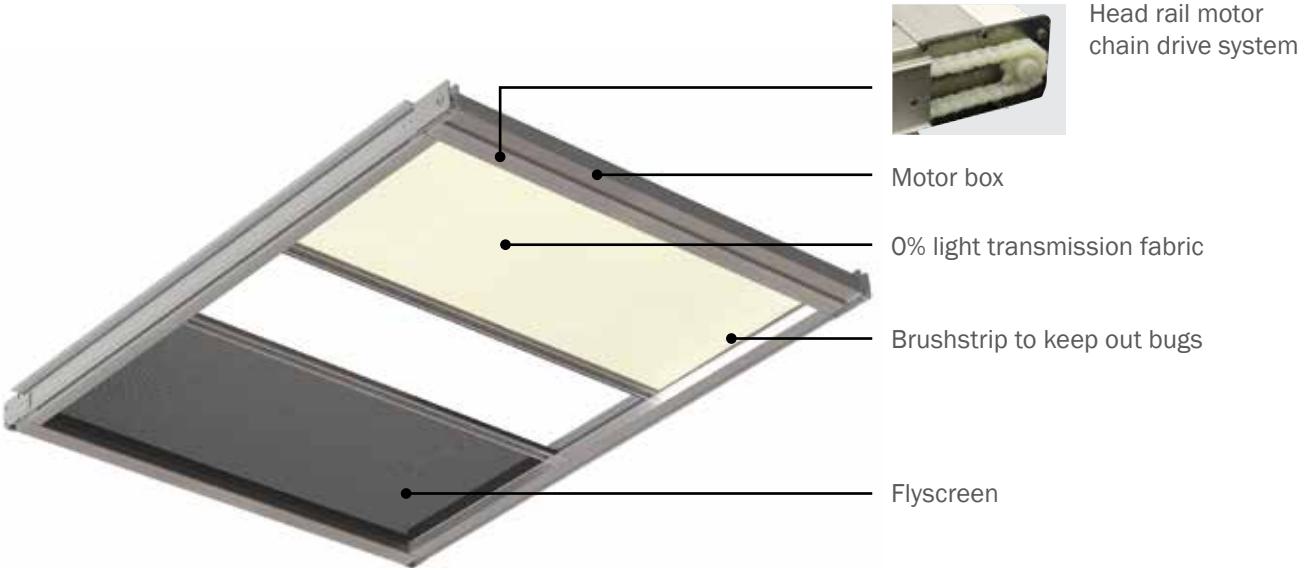

ROLLER POWERED

	Width (x)		Drop (y)	
Minimum	200mm	7 7/8"	200mm	7 7/8"
Maximum	800mm	31 1/2"	800mm	31 1/2"

Powered flyscreen and blackout combination blind for hatches, achieving a stylish, integrated look

- Controlled at the touch of a button
- Wood and aluminium trims available
- Suitable for square or round apertures
- Simple installation

Powered option see page 6

SKYSCREEN

POWERED & CONCEALED TRIM SYSTEM

Wood trim

- The high quality, hard wearing wood trim system gives a stylish and timeless finish
- A choice of three veneer finishes are available as standard: cherry, mahogany and teak. A wide range of other veneer finishes also available to order
- The edges of the trim are capped so the end grain is not visible
- Wood trims are available to fit any hatch and can accommodate a wide range of radius sizes
- Design can accommodate cambered headlinings
- Precision engineered
- Temperature stable, eliminating bowing, shrinkage or expansion

Composite trim

- The upper trim is made from a flexible UV stable material making it durable and light reflective. Available in one colour
- The injection moulded corners and alloy extrusion give a clean look to the interior headlining. Available in beige and white
- Accommodates most hatch sizes
- Available in two radius sizes: 50mm (1 15/16") and 43mm (1 11/16") to suit most common hatches
- Simple to fit and easy to access with an innovative clip mounting meaning no visible fixings and a thoroughly professional finish, along with ease of installation

Aluminium trim

- Long lasting, stylish finish available in white, beige or mill (unpainted)
- Aluminium trims are available to fit any hatch and can accommodate a wide range of radius sizes
- Round and trapezoid shapes available to suit main hatch brands

Beige

SKYSCREEN PLEATED

	Width (x)		Drop (y)	
Minimum	130mm	5 1/8"	85mm	3 3/8"
Maximum	1070mm	42 1/8"	2000mm	78 3/4"

Drop restrictions on longer width blinds

Pleated flyscreen and blackout combination blind, ideal for either small or large hatches

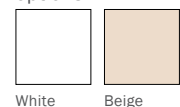

- Ultra-slim cassette ensures minimal impact on headroom
- Concealed or surface mounted
- Simple installation
- Complements SKYSOL range
- A custom solution for larger hatches
- Suitable for angled hatches
- Blackout-only option for fixed windows
- Optional trim and liner systems

Size capability

The fabric within a SKYSCREEN Pleated Surface is stacked rather than rolled, providing the means to build to a greater size and extends to a length of 3 metres

Hardware colour options

For technical data, dimensions, angle suitability, installation guides, accessories and further information, please refer to oceanair.co.uk

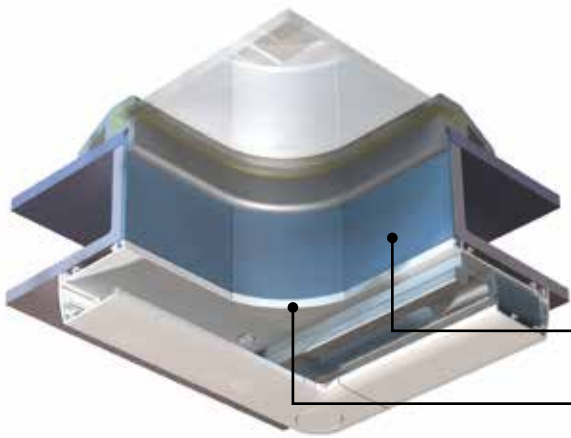

SKYSCREEN

PLEATED TRIM SYSTEM

For the perfect finish between hatch and screen

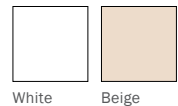

The trim system for SKYSCREEN Pleated comprises four separate moulded pieces that simply fit onto the blind cassette for fast and easy installation.

- Manufactured from UV stable material making it durable and light reflective
- Suits all makes and sizes of hatch with two standard trim sizes, suitable for cutting to fit any hatch tunnel
- The minimalist and stylish design is hard wearing and easy to clean
- Available flat packed for easy shipping
- Available in white and beige
- Two radius sizes available, please visit our website for more details

Moulded trim fits neatly behind hatch flange

Corner radius matches hatch radius

SKYSHADE

SKYSOL

HANGING INCLINE HOLD DOWNS

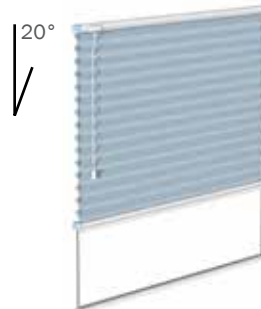

Type A0

A free-hanging blind with a cord lock. Only suitable for vertically hanging blinds.

Type A0-DB

Offering better fabric support for larger blinds with wire support running through the centre, available in two or three-bar configurations. Cord lock operated.

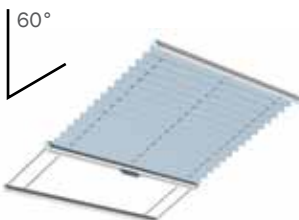

Type A0-DBE

A variant of Type A0 with wire support to give the blind additional stability. Can be used on windows at angles up to 20°.

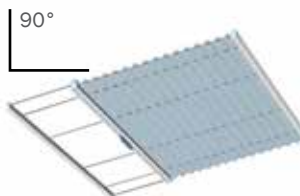

Type AB

Blind stabilised on cords. Ideal for holding near vertical blinds in position, while resisting the boat's motion. Can be used on windows at angles up to 30°.

Type DB

Suited to angled blinds. For window angles up to 60°, guide wires are used to maintain pleat definition and blind shape, suitable for angled windscreens and other locations. This option gives the minimum amount of wires for maximum support.

Type PB

This option offers additional wire support, offering the ultimate in blind support for use in steeply angled or horizontal overhead blinds.

Type AB, DB & PB control options

Articulating handle, fixed option available

Webbing handle

Fixed handle

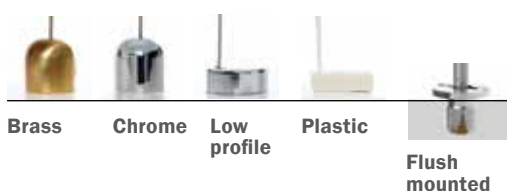

Colour co-ordinated to match the range of available hardware options, our low profile articulating handle is ideal for SKYSOL blinds stowed behind valances.

Type A0 control options

Lift cord options

Type A0-DB, A0-DBE, AB and DB hold down options

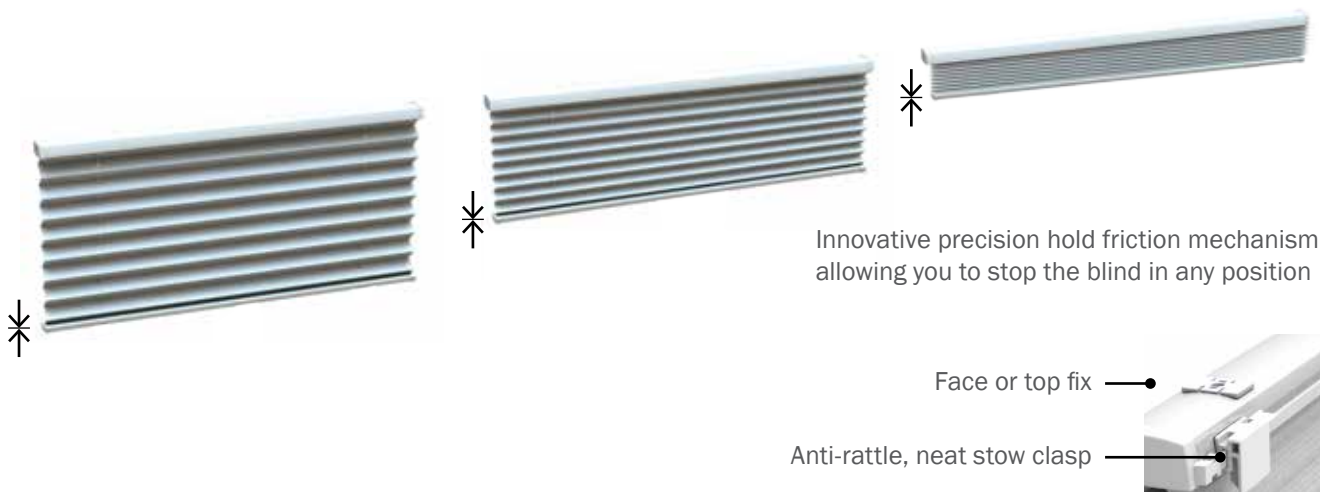

Available in chrome, brushed nickel, white, graphite and beige to complement the colour of the moving rail.

Maximum	2400mm	118 1/8"	2500mm	98 7/16"

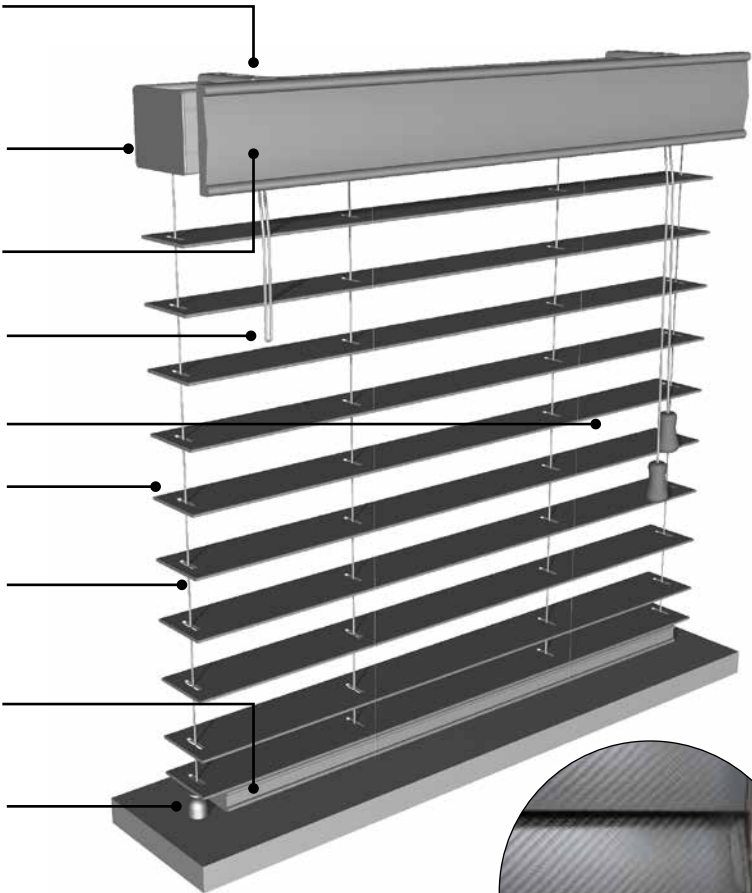

WOOD	Width (x)		Drop (y)	
Minimum	345mm	13 5/8"	200mm	7 7/8"
Maximum	2700mm	106 3/16"	2500mm	98 7/16"

ALLOY	Width (x)		Drop (y)	
Minimum	270mm	10 5/8"	200mm	7 7/8"
Maximum	3160mm	124 7/16"	4000mm	157 1/2"

May vary for powered and slat width. Please check oceanair.co.uk

- Easily adjustable guidewire tensioning system
- Discreet head rail with a minimal space requirement
- Optional matching valance
- Lift cord
- Tilt cord or wand
- Slats available in leather, wood and alloy
- Guide wire to edge of slat ensures easy running whilst securing blind in position
- Cut in bottom rail fits neatly in window aperture
- Guide wire hold down fittings

Wood & leather
Slat depth
70mm (2 3/4")

Alloy, wood & leather
Slat depth
50mm (1 15/16")

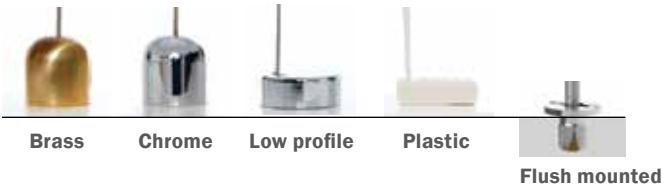

Alloy & wood
Slat depth
25mm (1")

Alloy
Slat depth
16mm (5/8")

Stylish peg and sidetrack system is a contemporary alternative to guidewires – ideal for heavier blinds and creating a clear vista

Hold down options

Powered option see page 6

Custom slat widths always available

For technical data, dimensions, angle suitability, installation guides, accessories and further information, please refer to oceanair.co.uk

SKYVENETIAN CONTROLS

Conventional wand and lift cord

The wand and lift cord control the tilt and lift of the slats – available in a variety of colours. For 50mm (1 15/16") slats, the wand is replaced with a cord tilt

Continuous cord (16, 25, 50mm)

A new feature from Oceanair, one cord performs the slat tilt and lift operation. The unique exit point enables the cord to be operated from any angle. The mechanism is geared for easy lifting

Precision (Alloy and Wood)

For size limitations see oceanair.co.uk

Inspired by SKYSOL technology, Oceanair have developed the cordless operating SKYVENETIAN Precision. Much like its pleated counterpart, the blind can be lifted and deployed using a handle, fixed to the

bottom rail. Precision can also hold steady at any point along the guide wires, and allow for slat tilt whilst in mid-deploy position. Simply twist the tilting wand to angle the slat to your preferred orientation

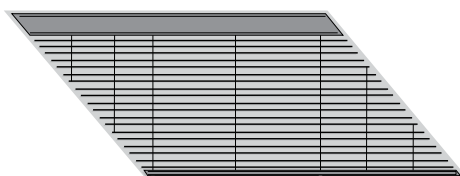

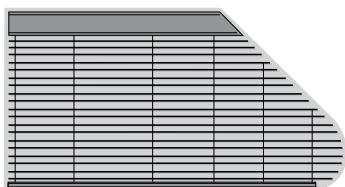

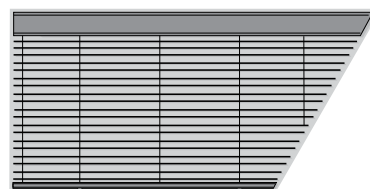

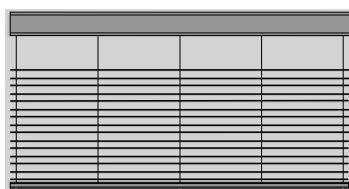

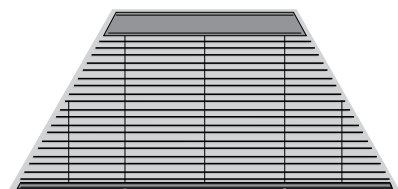

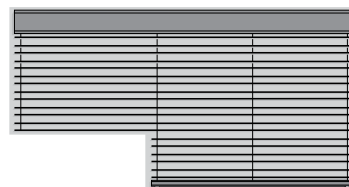

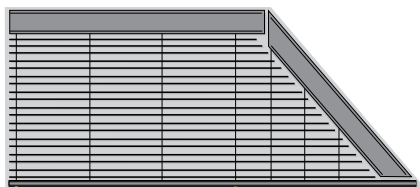

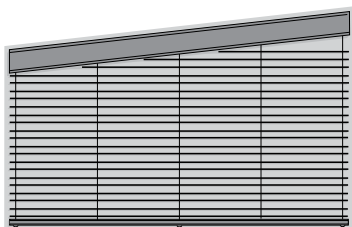

Accessories

Wands and acorns are supplied in wood colours coordinated with the slats.

SKYVENETIAN SHAPING

Some of the many shaping options available with Oceanair SKYVENETIAN. Some shapes may restrict functionality

SOFT WINDOW TREATMENTS

SOFT FURNISHINGS

CURTAINS & DRAPES

	Width (x)		Drop (y)

Copyright © 2015 Oceanair Marine Ltd. Oceanair is a registered trade mark of Oceanair Marine Ltd. SKYSCREEN, SKYHADE, SKYSOL, SKYVENETIAN, VENT & LIGHT, BRUSH & STOW and DRYROLL are trade marks of Oceanair Marine Ltd. Oceanair's products are protected by numerous patents and patent applications. Every attempt has been made to ensure that the information contained herein is accurate at date of publication. In the interests of continuing design, development and product improvement, Oceanair reserve the right to change colour, fabrics, designs and product specifications without prior notice. Some fabrics in this catalogue are referred to as 'Blackout'. The term 'Blackout' is defined within the industry as exhibiting '0% Light Transmission' according to DIN EN 410 or similar standards. This relates to how well the fabric absorbs or reflects light across the electromagnetic spectrum, including the visible range (typically 380–780nm). However, it does not necessarily imply zero 'light spots'. Full terms and conditions of business are available on request from Oceanair. Published September 2015.

SURVEY & INSTALLATION SERVICE

No matter where you are in the world, our survey and installation team are able to assist with any project, taking complete ownership for a seamless fit and perfect finish.

- Expert field service engineers on-call, worldwide
- Onsite survey, installation and modification service
- Provision of customized training and advice, including motor integration and wiring diagrams
- Dressing and steaming service for soft furnishing products
- Construction Skills Certification Scheme (CSCS) certified
- A Disclaimer and Barring Service check (formally CRB)
- Multilingual technical phone support
- Full public liability insurance

OCEANAIR FABRIC COLLECTION

Oceanair are proud to present the Oceanair Fabric Collection. Over 25 years of innovative design and technical expertise has been focused on choosing the ideal fabrics to meet the rigorous yet elegant demands of the Oceanair Range. The Oceanair Sales Team can provide guidance on the most suitable choice of fabric for the design and functional criteria of your individual project, while helping you to create your bespoke environment. The Fabric collection displays a comprehensive, designer selected range for the following Oceanair Product ranges:

- SKYSOL
- SKYVENETIAN Leather, Wood & Alloy
- SKYVIEW
- SKYSCREENS & Roller Blinds
- Soft Furnishings

Please note that Oceanair reserves the right to remove fabrics from the Collection at any time. While we do our very best to provide accurate samples at all times, some colour matches and technical specifications may vary.

LUXURY PROJECT MANAGEMENT

Oceanair's highly qualified and greatly experienced projects team are on hand to discuss your plans for your luxury home, superyacht or custom projects. We offer a large variety of window treatments and finishing touches to suit even the most challenging of interiors and specialise in providing a full design, survey and installation service.

Elegance : Engineered

**TENDE, OSCURANTI E
COMPLEMENTI D'ARREDO**

PRODOTTI FUORI CLASSE DA UN'AZIENDA FUORI CLASSE

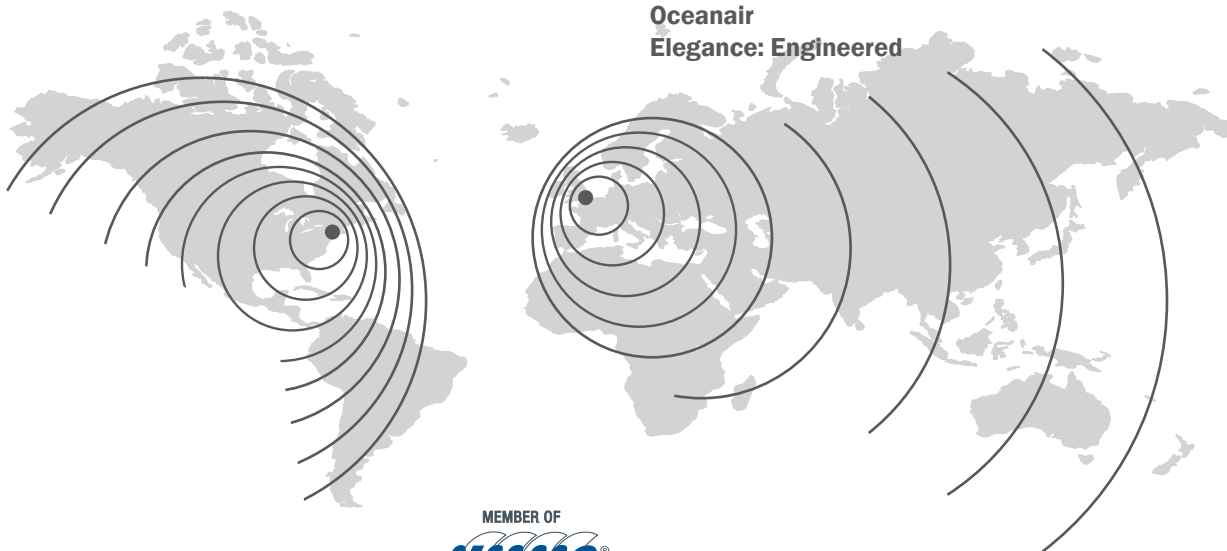

Leader mondiale nella progettazione e nella produzione di tende, oscuranti e complementi d'arredo, Oceanair è leader nell'innovazione dal 1990.

Con oltre 25 anni d'esperienza acquisita solcando gli oceani di mezzo mondo, Oceanair è in grado di aggiornare ed adattare il design tradizionale delle tende rendendo ogni applicazione marinizzata al 100% e di fornire trattamenti di finitura eleganti, personalizzati, uniformi per applicazioni dedicate a cinque tra i più esigenti settori: imbarcazioni da turismo, superyacht, proprietà di lusso, proprietà commerciali e veicoli commerciali da diporto.

Con le squadre dedite alle vendite, alla produzione, all'assistenza clienti ed all'installazione attive nel Regno Unito e in Nord America, supportati da un network globale di distributori, Oceanair fornisce le sue tende prodotte internamente ai più importanti costruttori nautici al mondo, offrendo servizi chiavi in mano di installazione e assistenza.

Oceanair è in grado di farsi carico di ogni progetto, anche dei più complessi, per raggiungere i risultati desiderati e per lasciare sempre il cliente a bocca aperta. Questo è quello che facciamo e ci riusciamo alla perfezione! Tre Queen's Awards e gli accreditamenti ISO lo attestano...

OSCURAMENTO MOTORIZZATO

- **Controllo immediato**
- **A normativa per i bambini**
- **Ideale per oscuranti difficili da raggiungere**

"I superyacht rappresentano il culmine dell'abilità costruttiva e del design. Alla Design Unlimited, lottiamo per la perfezione con un'attenzione al dettaglio senza paragoni. Con installazione e programmazione meticolose, le tende motorizzate e i meccanismi di controllo trasformano completamente la luce a bordo al semplice tocco di un pulsante. Il controllo della luce naturale con un dito è uno degli elementi che ci aiutano a portare il lusso ad un livello superiore".

Mark Tucker, Yacht Designer,
designunlimited.net

MENU MOTORI ESCLUSIVI

Oceanair offre una selezione motori per adattarsi a tutti i budget e necessità funzionali. Questo menu esclusivo garantisce che l'intera gamma di prodotti possa essere motorizzata. Per opzioni motore in maggiore dettaglio, consultare la pagina oceanair.co.uk

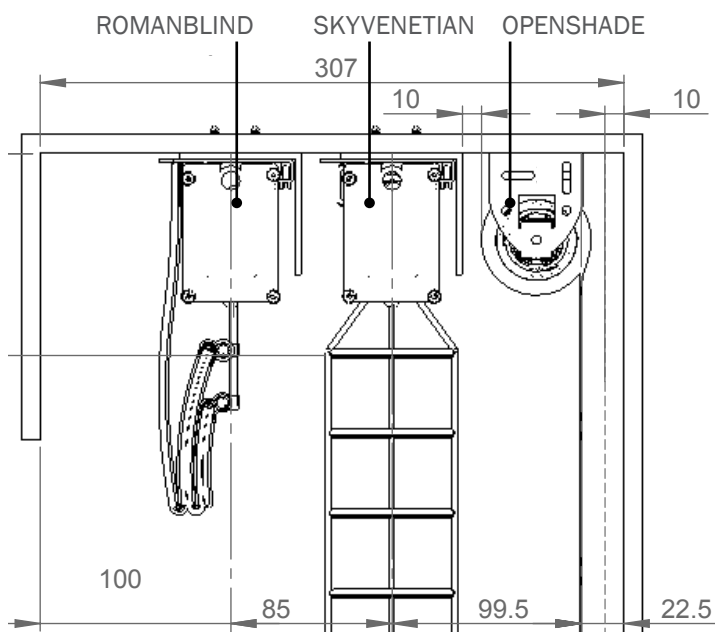

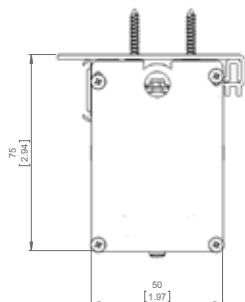

Tipo di motore		SKYSOL	SKYVENETIAN	SKYVIEW	ROLLER COLLECTION	ROMAN BLIND	CURTAINS	SKYSCREEN
 REGULAR		●	●	●	●	●		●
 WHISPER		●	●	●	●	●		
 NEAR SILENT		●	●	●	●	●	●	

Alloggiamento motore

I motori elettrici Oceanair hanno un design compatto, si montano in modo pulito all'interno del cassonetto principale o del rullo. Il profilo sottile rende le tende Oceanair perfettamente adatte per il design combinato, consentendo a due o tre tende di essere comodamente inserite all'interno della stessa apertura, offrendo così svariate opzioni di diffusione della luce. Per conoscere in dettaglio le opzioni dei cassonetti principali disponibili per ciascun prodotto, consultare il sito oceanair.co.uk

Our smallest powered headrail yet

OPZIONI DI CONTROLLO

Sedetevi e rilassatevi... Le tende faranno tutto da sole...

Per conoscere tutte le opzioni di controllo in dettaglio, consultare la pagina oceanair.co.uk

OCEANAIR SOMFY WIREFREE™

Oceanair dispone di una gamma di tende personalizzate e motorizzate specificamente progettate, grazie alla tecnologia alimentata a batteria Somfy WireFree™.

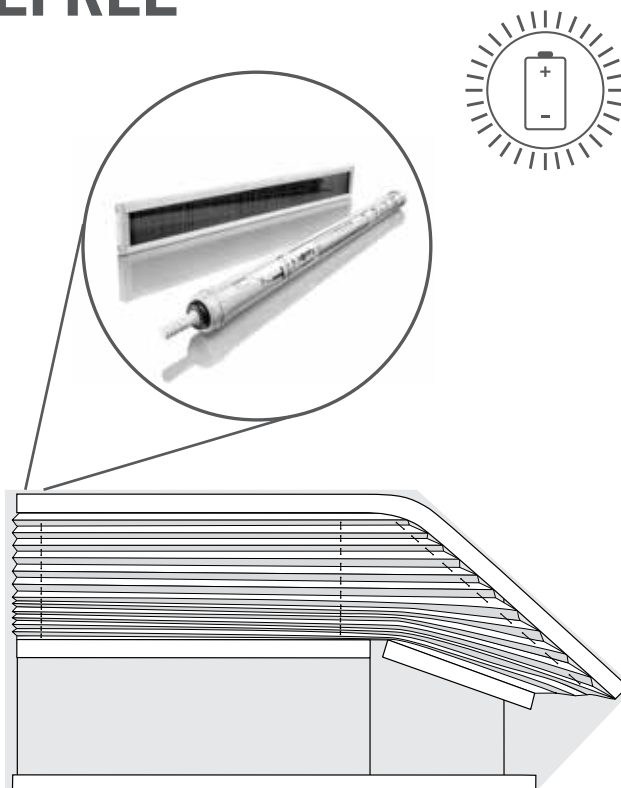

La gamma WireFree™ vi consente di utilizzare le tende motorizzate al tocco di un pulsante, senza il bisogno di cavi.

- Alimentazione a batteria
- Pannello solare disponibile opzionalmente
- 100% senza cavi
- Installazione facilitata
- Discrete, a basso profilo
- Opzione di aggiornamento motorizzato con ottimo rapporto qualità/prezzo
- Totalmente compatibile con tutte le precedenti opzioni di controllo

Cercate il logo della batteria WireFree™ disponibile nelle gamme SKYSOL, Roller Blind, Skyview, SKYVENETIAN e Romanblind

Consultare la pagina oceanair.co.uk per ulteriori informazioni sulla gamma Oceanair, motorizzata tramite Somfy WireFree™.

A PROVA DI BAMBINO

Tutte le tende Oceanair sono conformi alle normative e agli standard di settore sulla sicurezza dei bambini, offrendo per ogni prodotto un'ampia gamma di opzioni di sicurezza così da evitare serie lesioni ai più piccoli.

I dispositivi per la sicurezza dei bambini comprendono:

Tende motorizzate

Elimina la necessità di cavi per il funzionamento

Maniglie ad auto-contenimento

Cordellino nascosto per le operazioni

Tenuta di precisione

Deploy and hold at any height without visible cords

Gallocc

Per fissare i cordellini

Ferma corda/catena

Assicura una catena tesa o la corda creando un loop

Interruttore corda

Separa la corda con se una pressione è applicata

Auto Release Cord Breaker

Fitted as standard to all Roman blinds

Consultare la pagina oceanair.co.uk per ulteriori informazioni sulla sicurezza dei bambini

HATCH COVERINGS

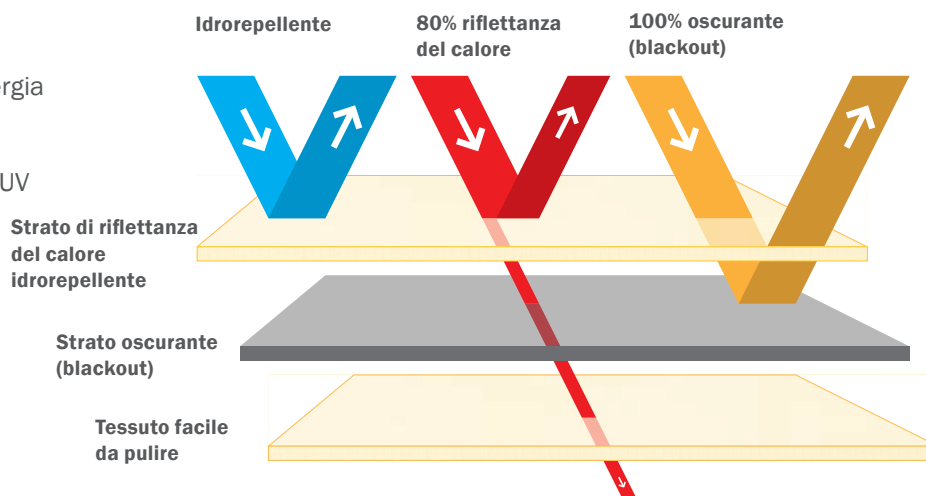

Manufactured to fit all known hatch brands

Gli oscuranti Oceanair per boccaporti controllano la trasmissione della luce e, di conseguenza, la temperatura della cabina. Il tessuto tri-strato della tenda combina lo 0% di trasmissione della luce e l'80% di riflessione di calore in un tessuto della tenda idrorepellente, resistente ai raggi UV e che richiede poca manutenzione.

Vantaggi :

- Controllo temperatura
- Riduzione dei consumi di energia
- Privacy a bordo
- Piacevoli dormite
- Riduzione dei danni da raggi UV
- Controllo degli insetti
- Riduzione dei riflessi
- Riduzione della condensa

Nel controllare la trasmissione della luce e la riflettanza del calore, gli oscuranti dei boccaporti controllano la temperatura nella vostra cabina

SKYSCREEN

POWERED & CONCEALED TRIM SYSTEM

Finiture in legno

- L'elevata qualità e resistenza del sistema di rifinitura in legno garantisce un'estetica elegante e senza tempo
- Sono disponibili tre diverse essenze standard: ciliegio, mogano e teak. Su ordinazione, è disponibile un'ampia gamma di qualità di legno
- I bordi della rifinitura sono ricoperti affinché la grana non sia visibile
- Sono disponibili rifiniture in legno adatte a qualsiasi boccaporto e a un'ampia gamma di dimensioni
- Il design può adattarsi a celini incurvati
- Realizzate con estrema precisione

- Stabili alla temperatura, senza curve, pieghe o dilatazioni

Rifinitura composita

- La rifinitura superiore è realizzabile con materiale flessibile stabile ai raggi UV, che la rende durevole e riflettente. Disponibile in un unico colore
- Gli angoli stampati a iniezione e l'estrusione in lega costituiscono la rifinitura inferiore, forniscono un aspetto pulito al cielino. Disponibili in beige e bianco
- Compatibile con la maggior parte delle dimensioni dei boccaporti
- Disponibile in due dimensioni di raggio: 50mm (1 15/16") e 43mm (1 11/16") adatta alla maggior parte dei boccaporti

- Semplice da installare e di facile accesso con un montaggio a clip innovativo, vale a dire nessun dispositivo di fissaggio visibile e una finitura completa e professionale

Rifinitura in alluminio

- Finitura di lunga durata, elegante, disponibile in bianco, beige o mill (non verniciata)
- Sono disponibili rifiniture in alluminio adatte a qualsiasi boccaporto e in un'ampia gamma di dimensioni
- Forme arrotondate e trapezoidali adatte ai principali marchi di boccaporti

OPZIONI DI SOSPENSIONE

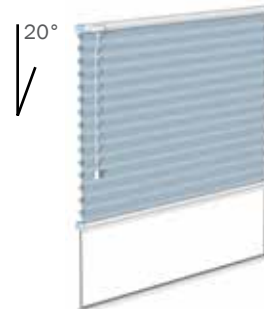

Type A0

Tenda a sospensione con blocco a cordicella. Adatta solo per tende appese in verticale

Type A0-DB

Migliore supporto al tessuto per tende più grandi con cordini di supporto che scorrono lungo il tessuto, disponibile in versione a due o tre aste. Azionata con blocco a cordicella.

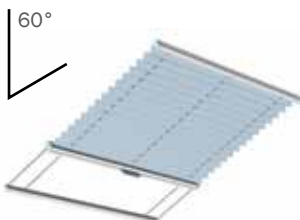

Type A0-DBE

Una variante del tipo A0 con cordini di supporto per dare un'ulteriore stabilità alla tenda. Può essere utilizzata su finestre con inclinazioni fino a 20°.

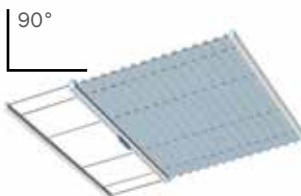

Type AB

Tenda stabilizzata da cordini di supporto. Ideale per mantenere le tende in posizione verticale anche con l'imbarcazione in movimento. Può essere utilizzata su finestre con inclinazioni fino a 30°.

Type DB

Adatta per tende angolate. Per inclinazioni fino a 60° vengono utilizzati cavi di guida per mantenere la definizione della piega e la forma della tendina, adatta per parabrezza e altre posizioni. Questa opzione combina la minima quantità di cavi guida con il massimo supporto.

Type PB

Questa opzione offre ulteriori cordini di supporto, una soluzione ottimale da utilizzare su tendine molto inclinate o montate orizzontalmente a soffitto.

Options de commande pour types AB, DB & PB

SKYVENETIAN

SISTEMI DI CONTROLLO

Asta convenzionale e cordinella di sollevamento

L'asta e la cordinella di sollevamento controllano l'inclinazione e il sollevamento delle stecche, disponibili in un'ampia gamma di colori. Per le stecche da 50mm (1 15/16"), l'asta viene sostituita con la cordinella

Cordinella continua (16, 25, 50mm)

Una nuova offerta di Oceanair: una cordinella effettua le operazioni di inclinazione e sollevamento delle stecche. Il punto di uscita esclusiva consente alla cordinella di essere utilizzata da qualsiasi angolo. Il meccanismo è motorizzato per un facile sollevamento

Precision

For size limitations see oceanair.co.uk

Ispirata alla tecnologia SKYSOL, Oceanair ha sviluppato il sistema di utilizzo senza cordinella SKYVENETIAN Precision. Proprio come la sua controparte a plissé, la tenda può essere sollevata e utilizzata mediante una maniglia, fissata sull'asta inferiore. Precision è

inoltre in grado di mantenersi regolare su qualsiasi punto lungo i fili guida, consentendo l'inclinazione delle stecche dalla posizione di utilizzo intermedia. Per regolare la stecca con l'orientamento e l'angolo desiderato, è sufficiente ruotare l'asta di inclinazione

Accessori

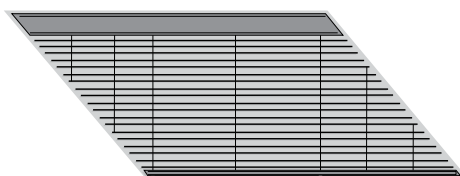

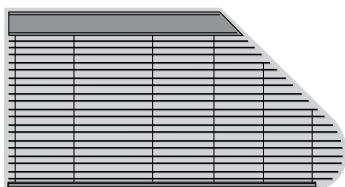

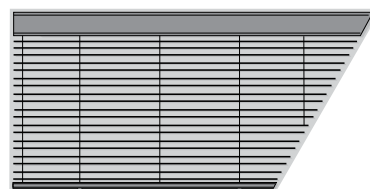

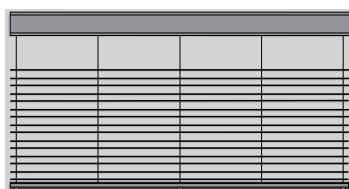

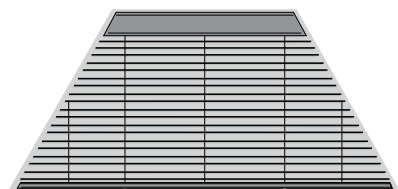

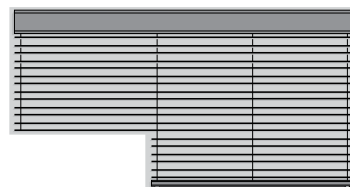

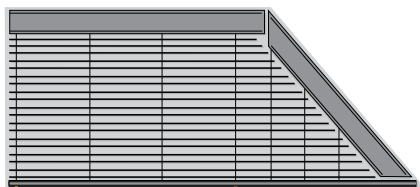

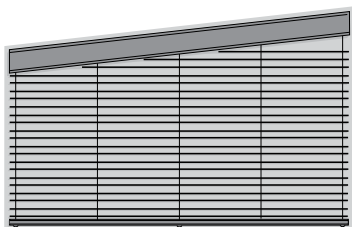

Le aste e i dadi sono fornite in color legno in coordinato con le stecche.

Oceanair sono tutelati da numerosi brevetti e richieste di brevetti. Si è compiuto ogni sforzo per garantire che le informazioni contenute nel presente fossero accurate alla data di pubblicazione. Nell'ambito della continua progettazione, sviluppo e miglioramento dei prodotti, Oceanair si riserva il diritto di modificare colori, tessuti, disegni e specifiche ai prodotti senza previa notifica. Alcuni tessuti di cui al presente catalogo sono indicati come "oscuranti" (blackout). Il termine "oscurante" (blackout) viene definito nel settore come "0% di trasmissione della luce", in conformità a DIN EN 410 o standard analoghi. Questo aspetto riguarda il livello di assorbimento o di riflettanza della luce da parte del tessuto attraverso uno spettro elettromagnetico, includendo l'intervallo visibile (in genere, 380-780nm). Tuttavia, non implica necessariamente zero "punti luminosi". La versione integrale dei termini e delle condizioni commerciali è disponibile su richiesta presso Oceanair. Pubblicato nel mese di settembre 2015.

SURVEY & INSTALLATION SERVICE

No matter where you are in the world, our survey and installation team are able to assist with any project, taking complete ownership for a seamless fit and perfect finish

- Expert field service engineers on-call, worldwide
- Onsite survey, installation and modification service
- Provision of customized training and advice, including motor integration and wiring diagrams
- Dressing and steaming service for soft furnishing products
- Construction Skills Certification Scheme (CSCS) certified
- A Disclaimer and Barring Service check (formally CRB)

- Full public liability insurance

OCEANAIR FABRIC COLLECTION

Oceanair are proud to present the Oceanair Fabric Collection. Over 25 years of innovative design and technical expertise has been focused on choosing the ideal fabrics to meet the rigorous yet elegant demands of the Oceanair Range. The Oceanair Sales Team can provide guidance on the most suitable choice of fabric for the design and functional criteria of your individual project, while helping you to create your bespoke environment. The Fabric collection displays a comprehensive, designer selected range for the following Oceanair Product ranges:

- SKYSOL
- SKYVENETIAN Leather, Wood & Alloy
- SKYVIEW
- SKYSCREENS & Roller Blinds
- Soft Furnishings

Please note that Oceanair reserves the right to remove fabrics from the Collection at any time. While we do our very best to provide accurate samples at all times, some colour matches and technical specifications may vary.

LUXURY PROJECT MANAGEMENT

I project team di Oceanair sono altamente qualificati e vantano grande esperienza e saranno lieti di poter discutere dei vostri piani di luxury home, superyacht o progetti personalizzati. Offriamo un'ampia gamma di complementi d'arredo e soluzioni di personalizzazione per adattarsi anche agli interni più complessi; siamo inoltre specializzati nella fornitura di un servizio completo di progettazione, sopralluogo e installazione

Elegance : Engineered

**STORES ET TISSUS
D'AMEUBLEMENT**

DES PRODUITS DE CLASSE MONDIALE

UN FABRICANT DE CLASSE MONDIALE

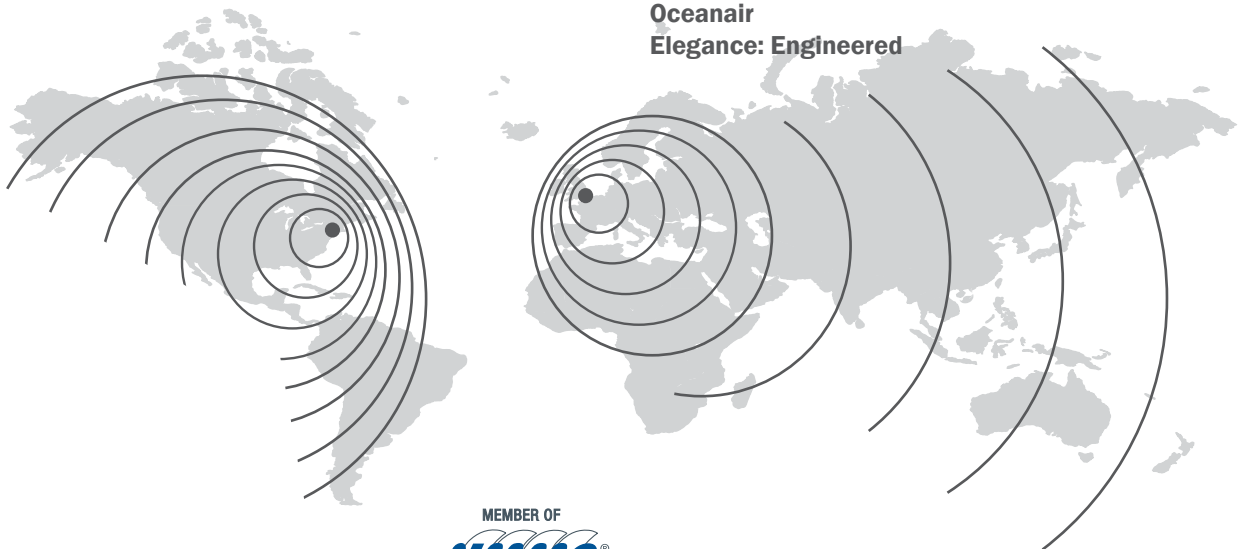

Leader mondial de la conception et de la fabrication des stores, rideaux et tissus d'ameublement, Oceanair innove depuis 1990 et réalise des projets extrêmement complexes et créatifs.

Fort de plus de 25 ans d'expertise développée sur tous les océans, Oceanair peut remettre en question la conception traditionnelle des stores et fournir des aménagements élégants, sur mesure et aux finitions parfaites pour servir cinq marchés exigeants – marine de plaisance, maisons de luxe, immobilier commercial, superyachts et véhicules récréatifs.

Grâce à ses équipes de vente, de fabrication, d'assistance et d'installation au Royaume-Uni et en Amérique du Nord, soutenues par un réseau mondial de distributeurs, Oceanair peut fournir des stores «made in UK» aux principaux constructeurs de bateaux du monde entier et également offrir un service clés en main d'inspection et d'installation.

Oceanair partira de vos exigences, quelle qu'en soit la complexité, pour produire les résultats que vous souhaitez, en dépassant vos attentes. C'est notre métier, et nous sommes fiers d'y exceller. Trois prix Queen's Awards et une accréditation ISO viennent le confirmer...

QUEL QUE SOIT L'ENVIRONNEMENT...

...OU LE DÉFI

STORES AUTOMATISÉS

- **Contrôle sans effort**
- **Sécurité enfants**
- **Solution idéale pour les stores difficiles d'accès**

"L'offre pour super-yachts sur mesure constituent le summum de l'artisanat et du design. Chez Design Unlimited, nous concentrons nos efforts en vue de la perfection, en accordant une attention toute particulière au détail. Grâce à une installation et une programmation méticuleuses, les stores et leurs mécanismes de commande électriques transforment intégralement la lumière présente à bord, au simple contact d'un bouton. La commande de la lumière naturelle du bout des doigts constitue l'un des éléments qui nous permettent à porter le luxe à un niveau supérieur."

Mark Tucker, Yacht Designer,
designunlimited.net

MENU DE MOTEURS EXCLUSIF

Oceanair propose un menu de moteurs pour tous les budgets et toutes les exigences fonctionnelles. Ce menu unique en son genre permet d'automatiser toute la gamme de produits. Pour connaître les options de moteurs détaillées, consultez oceanair.co.uk

Boîtier du moteur

Les systèmes de moteurs électriques Oceanair sont compacts et se logent dans le profil ou l'enrouleur. Leur profil fin rend les stores Oceanair parfaitement adaptés pour les combinaisons, car on peut installer deux ou trois stores en toute facilité dans la même ouverture pour bénéficier de nombreuses options de diffusion de la lumière. Veuillez vous rendre sur oceanair.co.uk pour connaître toutes les options de profils disponibles pour chaque produit.

Notre plus petit profil pour store motorisé

OPTIONS DE COMMANDE

Détendez-vous et laissez les stores faire leur travail tout seuls...

Consultez oceanair.co.uk pour avoir des détails sur les options de commande

OCEANAIR SOMFY WIREFREE™

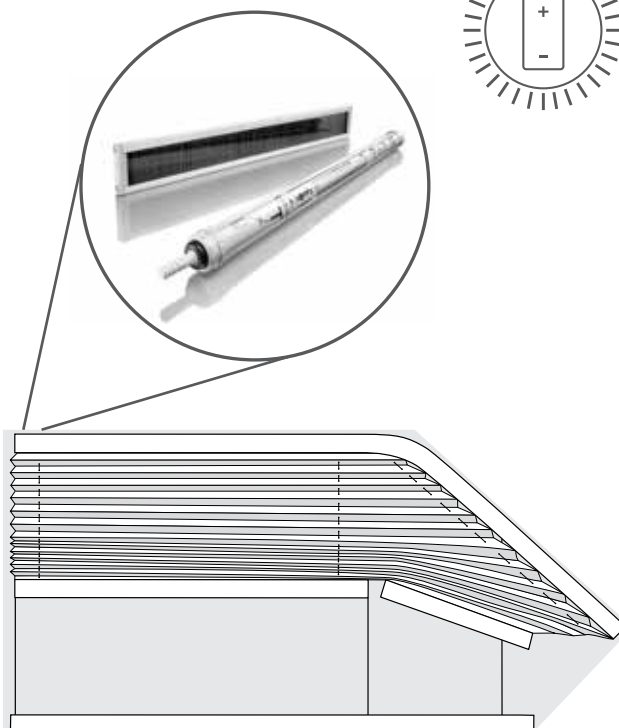

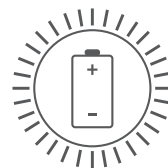

Oceanair a spécialement conçu une gamme complète de stores sur mesure dotés d'une motorisation Somfy WireFree™ à pile et sans fil.

La gamme WireFree™ vous permet d'actionner des stores motorisés par simple pression sur une touche, sans fil.

- Fonctionne à piles
- Option panneau solaire disponible
- 100 % sans fil
- Installation facile
- Mince et discret
- Option de puissance efficace économique haut de gamme
- Entièrement compatible avec toutes les options de commande ci-dessus

Recherchez notre logo de pile WireFree™ pour connaître la disponibilité de cette technologie avec les gammes SKYSOL, Stores à enrouleur, Skyview, SKYVENETIAN et Romanblind.

Consultez oceanair.co.uk pour obtenir plus d'informations sur la gamme Oceanair motorisée par Somfy WireFree™.

SÉCURITÉ ENFANT

Tous les stores Oceanair respectent la réglementation de sécurité enfants aux normes de l'industrie et offrent toute une gamme d'options de sécurité avec chaque produit pour éviter les blessures graves des enfants en bas âge.

Voici les principaux produits avec sécurité enfant :

Stores motorisés

Éliminent la nécessité d'avoir des cordes

Poignées intégrées

Cordes invisibles

Maintien de précision

Deploy and hold at any height without visible cords

Taquet

Pour attacher les cordes libres

Range-corde/chaîne

Pour une chaîne ou une corde toujours bien tendue

Brise-corde

Permet de briser la corde en exerçant une pression

Auto Release Cord Breaker

Fitted as standard to all Roman blinds

Visitez oceanair.co.uk pour obtenir plus d'informations sur la sécurité des enfants

HATCH COVERINGS

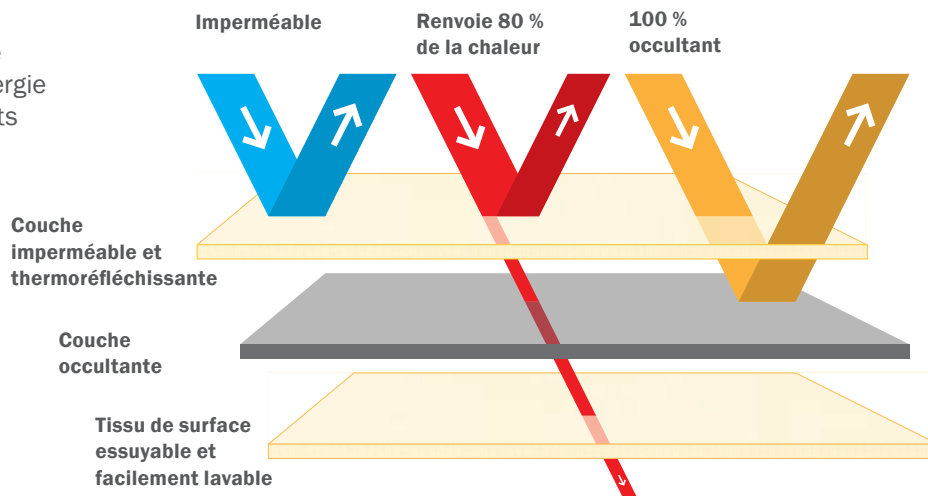

Manufactured to fit all known hatch brands

Les stores panneaux de pont Oceanair régulent la transmission de la lumière et donc la température de la cabine. Le tissu à 3 couches associe une transmission de 0 % de lumière et un réfléchissement de 80 % de la chaleur dans un produit imperméable, résistant aux UV et exigeant peu d'entretien.

Avantages :

- Régulation de la température
- Réduction des factures d'énergie
- Protège des regards indiscrets
- Une bonne nuit de sommeil
- Réduction des dégâts provoqués par les UV
- Contrôle des insectes
- Moins d'éblouissement
- Moins de condensation

En contrôlant la transmission de la lumière et en renvoyant la chaleur, les stores panneaux de pont contribuent à réguler la température de la cabine

GAMME DE STORES PANNEAUX DE PONT

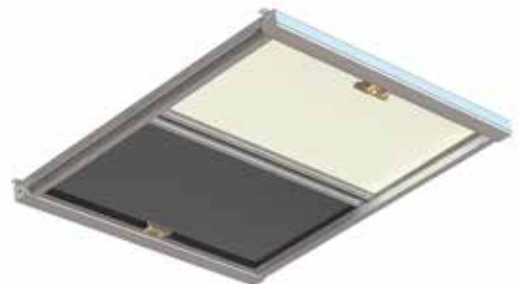

SKYSCREEN Roller Powered

Le store de luxe. Il est commandé par une simple pression sur une touche – page 16

SKYSCREEN Roller Concealed

La solution design. Conçu pour être intégré dans le plafond – page 18

SKYSCREEN

POWERED & CONCEALED GARNITURE MASQUÉE

Garniture bois

- Le système de garniture en bois robuste et de haute qualité apporte une finition élégante et intemporelle
- Choix de trois plaquages disponibles en standard : merisier, acajou et teck. Une large gamme d'autres plaquages est disponible sur commande
- Des embouts sont posés sur les bords du plaquage pour que le grain transversal reste invisible
- Les garnitures bois sont disponibles pour tous les types de panneaux de pont et sont compatibles avec un large choix de diamètres
- La conception du produit est compatible avec les plafonds courbés

- Ingénierie de précision
- Stabilité thermique qui élimine la déformation, le rétrécissement et la dilatation

Garniture composite

- La garniture supérieure est réalisée dans un matériau flexible et résistant aux UV qui est donc de grande longévité et qui renvoie la lumière. Disponible en une couleur
- Les angles moulés par injection et l'extrusion en aluminium apportent un look épuré au plafond intérieur. Disponible en beige et blanc
- Compatible avec les panneaux de pont de pratiquement toutes les dimensions
- Disponible en deux diamètres : 50 mm (1 15/16") et 43 mm (1 11/16") qui couvrent la plupart des panneaux de pont

- Installation et accès faciles grâce à la fixation novatrice par clip qui permet de n'avoir aucune fixation visible et d'obtenir une finition totalement professionnelle, avec une grande aisance d'installation

Garniture aluminium

- Finition durable et élégante disponible en blanc, beige ou brute (non peinte)
- Les garnitures aluminium sont disponibles pour tous les panneaux de pont et peuvent s'adapter à de nombreux diamètres
- Formes rondes et trapézoïdales disponibles pour les principales marques d'écouilles

SKYSOL

DISPOSITIFS DE MAINTIEN DU TOMBÉ SUR LES PANS INCLINÉS

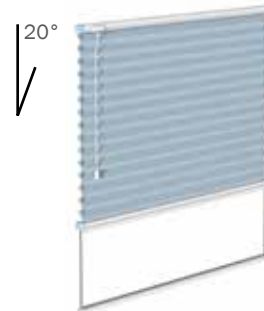

Type A0

Un store libre actionné par une corde de levage. Convient uniquement aux stores verticaux.

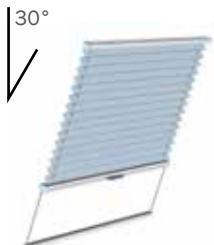

Type A0-DB

Offrant un meilleur soutien du tissu pour les stores plus grands, avec un fil de soutien au centre. Disponible en configurations deux ou trois barres. Actionné par corde de levage

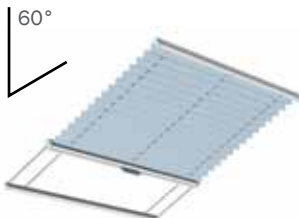

Type A0-DBE

Variante du type A0 avec fils de soutien aux extrémités pour donner plus de stabilité au store. Compatible avec les fenêtres présentant une inclinaison d jusqu'à 20°.

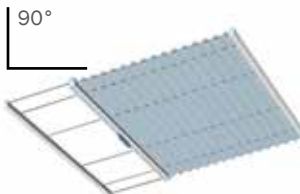

Type AB

Store stabilisé sur cordes. Parfait pour maintenir les stores quasi verticaux en place tout en résistant au mouvement du bateau. Compatible avec les fenêtres présentant une inclinaison de jusqu'à 30°.

Type DB

Convient aux stores angulaires. Pour les fenêtres à angle de jusqu'à 60°, on utilise des fils guide pour maintenir la définition des plis et la forme du store. Compatible avec les pare-brise angulaires et d'autres lieux. Avec cette option, vous avez le minimum de fils pour le maximum de soutien

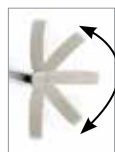

Type PB

Cette option offre un soutien supplémentaire par fils pour le soutien optimal des stores très inclinés ou horizontaux.

Options de commande pour types AB, DB & PB

Poignée articulée, option fixe disponible

Poignée sangle

Poignée fixe

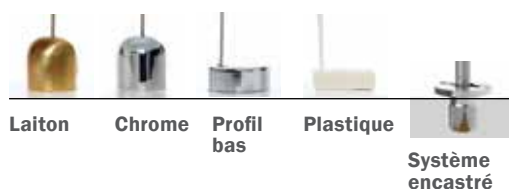

Couleur assortie pour correspondre à la gamme d'options de profils disponibles. Notre discrète poignée articulée est idéale pour les stores SKYSOL qui s'enroulent derrière une cantonnière.

Options de commande pour type A0

Options de cordons d'ouvrir

Options de maintien pour les types A0-DB, A0-DBE, AB et DB

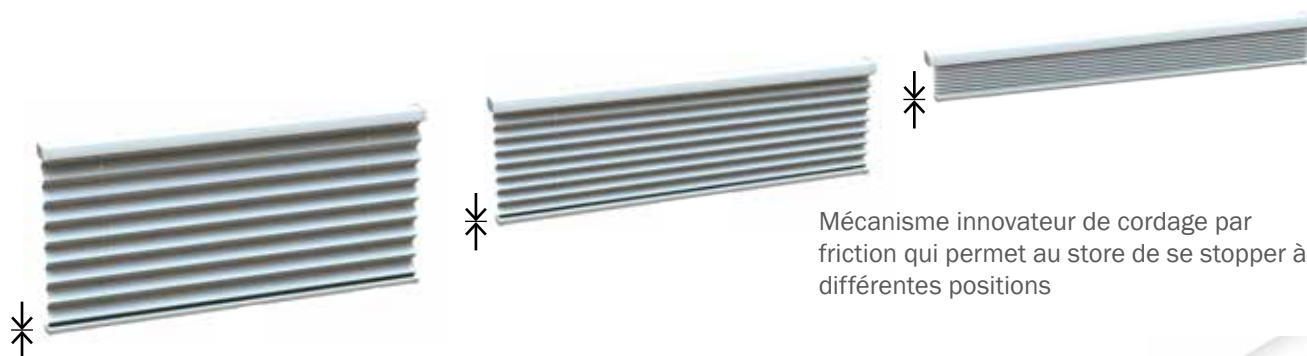

Disponible en chrome, nickel brossé, blanc, graphite et beige pour s'assortir à la couleur du rail mobile

	Largeur (x)		Hauteur (y)	
Minimum	100mm	3 15/16"	280mm	10 7/8"
Maximum	2000mm	78 3/4"	2000mm	78 3/4"

SKYVENETIAN COMMANDES

Baguette classique et corde de levage

La baguette et la corde de levage contrôlent l'inclinaison et l'ouverture des lattes - disponibles dans différentes couleurs. Pour les lattes de 50 mm (1 15/16"), la baguette est remplacée par une corde d'inclinaison

Cordon en boucle (16, 25, 50 mm)

Nouvelle fonctionnalité Oceanair: un seul cordon permet d'incliner et de soulever les lattes. Le point de sortie unique permet d'utiliser le cordon depuis n'importe quel angle. Le mécanisme est à engrenage pour faciliter l'ouverture.

Precision (Alloy and Wood)

Inspiré par la technologie SKYSOL, Oceanair a mis au point le store SKYVENETIAN Precision sans corde. Tout comme son cousin plissé, ce store peut s'ouvrir et se fermer en utilisant une poignée fixée sur le rail inférieur. Precision peut également se maintenir à

Voir avec Oceanair pour les limitations de tailles

n'importe quel point le long des fils guides et permet d'incliner les lattes lorsqu'il est partiellement ouvert. Il suffit de faire pivoter la baguette d'inclinaison pour ajuster l'orientation des lattes selon votre préférence.

Accessories

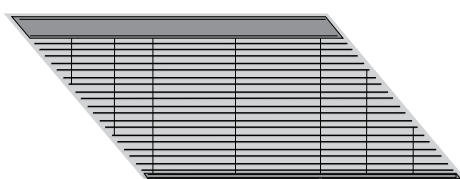

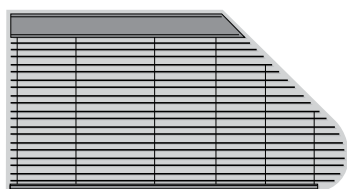

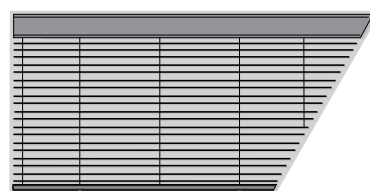

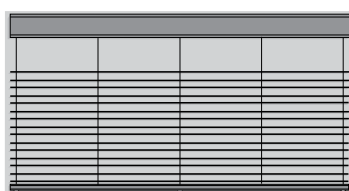

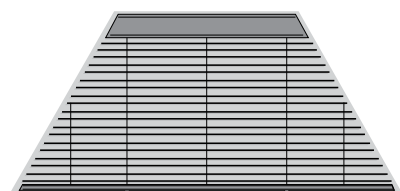

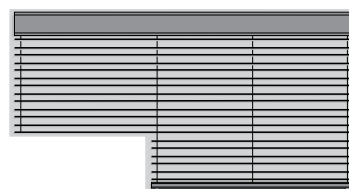

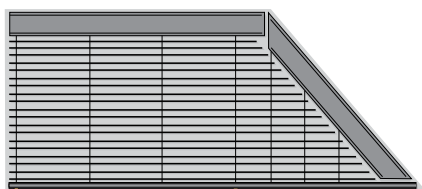

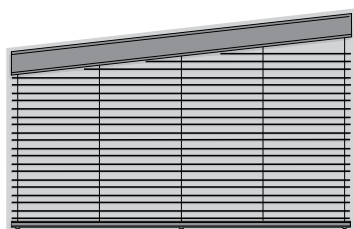

Les baguettes et les taquets sont fournis dans une couleur de bois assortie à celle des lattes.

Options de couleurs pour l'appareillage

Blanc

Beige

Available from end of December 2015

Pour les données techniques, les dimensions, les possibilités suivant les angles d'inclinaison, les notices d'installation, les accessoires et toutes autres informations complémentaires, consultez oceanair.co.uk

REPLACEMENTS & SPARES

Oceanair propose une gamme complète de pièces détachées et de produits de rechange pour les stores ayant pu souffrir d'une usure normale ou ayant été endommagés

Prenez note de la référence de la tâche et de la référence client de la pièce indiqués sur l'étiquette de votre produit et suivez notre guide en ligne pour trouver votre pièce. Rendez-vous sur www.oceanair.co.uk/marine/spare-parts. Ou bien envoyez par email une photo de la pièce/du produit à salesenquiries@oceanair.co.uk, ou encore décrivez-la par écrit.

Airstream, Coulisse, Cruiser Yachts, Design Unlimited, Fairline Boats Ltd, H2 Yacht Design, Jeanneau Yachts, Nordhavn, Oyster Yachts, Salperton IV, SMC, Somfy, Sunseeker International, Tiara Yachts, Webasto.

Tous les clichés restent la propriété de leur auteur et tous les droits sont réservés.

Copyright © 2015 Oceanair Marine Ltd. Oceanair est une marque déposée d'Oceanair Marine Ltd. SKYSCREEN, SKYHADE, SKYSOL, SKYVENETIAN, VENT & LIGHT, BRUSH & STOW sont des marques commerciales d'Oceanair Les produits de Marine Ltd. Oceanair sont protégés par de nombreux brevets et dépôts de brevets. Tous les efforts ont été faits pour que les informations fournies ici soient exactes à la date de publication. Dans l'intérêt du design, du développement et de l'amélioration continus des produits, Oceanair se réserve le droit de modifier les couleurs, les tissus, les modèles et les caractéristiques des produits sans préavis. Certains tissus dans ce catalogue portant la mention 'Occultant'. Le terme 'occultant' est défini dans l'industrie comme offrant '0 % de transmission de lumière' selon DIN EN 410 ou des normes similaires. Ceci fait référence au niveau d'absorption ou de réfléchissement de la lumière sur tout le spectre électromagnétique, y compris la plage visible (généralement 380-780 nm). Mais cette classification n'indique pas nécessairement l'absence de 'points lumineux'. La version intégrale des conditions commerciales est disponible sur demande auprès d'Oceanair. Publié en septembre 2015.

SERVICE D'ETUDE ET D'INSTALLATION

Peut-importe votre position géographique, notre équipe d'installateurs peut vous assister pour mener à bien votre projet et prendre sous sa responsabilité une installation méticuleuse et une finition parfaite

- Ingénieurs spécialisés disponible sur demande dans le monde entier

- Possibilité de formation, conseil et support pour l'intégration des stores motorisés avec des diagrammes de connexion.
- Service d'habillage et repassage pour les tissus pour assurer une finition parfaite
- Certifiés CSCS (Construction Skills Certification Scheme)
- Assistance Multilingue au téléphone
- Assurance de responsabilité civile

COLLECTION DE TISSUS OCEANAIR

Oceanair est fier de présenter sa collection de tissus. Plus de 25 ans de conceptions innovantes et d'expertise technique ont été concentrées sur le choix des tissus idéaux permettant de répondre aux demandes rigoureuses mais élégantes de la collection Oceanair. L'équipe commerciale d'Oceanair peut vous assister pour le choix du meilleur tissu pour répondre aux critères fonctionnels de votre projet, tout en vous aidant à créer votre environnement personnalisé. La collection de tissu présente une gamme de solutions approuvées par nos designers pour les produits Oceanair suivants :

- SKYSOL
- SKYVENETIAN Leather, Wood & Alloy
- SKYVIEW
- SKYSCREENS & Roller Blinds
- Soft Furnishings

Merci de noter qu'Oceanair réserve le droit de retirer des tissus de cette collection à n'importe quel moment. Nous faisons de notre mieux pour fournir des échantillons qui répondent de façon précise aux demandes mais quelques couleurs et spécifications techniques peuvent varier.

GESTION DES PROJETS HAUT DE GAMME

L'équipe de projet hautement qualifiée et chevronnée d'Oceanair est disponible pour parler de vos projets pour votre maison de luxe, votre superyacht ou vos projets personnalisés. Nous proposons un grand choix d'habillages de fenêtres et de finitions pour les décors les plus complexes et nous sommes spécialisés dans la fourniture d'un service de conception, étude et installation complet.
