Our experience of the composites in sanitary sector, our expertise in designing, our Market-oriented approach, has led us to conceive an innovative and functional shower cubicle.

**OUR EXPERTISE** in the design, the processes, and the choice of the composite materials, enables us to match the demanding requirements of the sanitary sector.

Ergonomic shapes, cleanliness, resistance, ease of maintenance, our fittings have already proved their endurance and reliability, most notably on the highway stations.

**WC, SUPPORT & PAN**

## OUR TECHNICAL SUPPORTS :

- Product development, Design, Methods, Respect of the quality and security norms
- Strong innovation capacity
- Possibilities of adaptation
- Co-creation
- To get from the idea... To the realization !

## YOUR PROJECT IN 4 STEPS :

### CHOICE OF THE EQUIPMENT AND THEIR SETTINGS-UP

### 4 MANUFACTURING & ASSEMBLY ON OUR PREMISES *Turnkey delivery*

## A CUBICLE

### FUNCTIONAL AND INNOVATIVE

Fiberglass composites that facilitate and reduce maintenance, able to resist the ravages of time.

### READY FOR USE

- A cubicle installed and connected within 2 hours.

### MOULDED IN ONE PIECE

- A cubicle without any joints nor connection, permitting no leaks nor mould.

### QUALITY

- A sanitary gel-coat that meets the highest requirements for hygiene and aesthetics.

### CONVERTIBLE

- Plus : a convertible roof-top and a size that allows to pass through a standard door, perfect for renovation.

### CUSTOMIZABLE

- Possibilities of adaptation: shape, colour, appearance (granite, earthenware...). This shower cubicle is suitable for all types of collective accommodation.
