

HITCH®

A HIGH DESIGN QUALITY WINNER

red*dot* design award  
winner 2016

SPRADLING® is pleased and proud to announce the Newest geo texture upholstery carefully engineered and designed for Contract and Marine industries, enhancing any seating or surface application.

HITCH® impresses with its fine texture and a modern metallic look, imitates a fine woven structure and is finished with a subtle metallic tip-print, giving it a distinctive deepness with a refined two-tone aspect.

This coated fabric delivers Spradling's highest standard in antibacterial, abrasion and stain-resistant protection. It is also protected with general flame retardant properties and UV/Mildew inhibitors to meet the rigorous demands required in the industry.

As the winner of two Design Awards in Europe - RedDot Product Design Award 2016 and 2015 i-NOVO Design Award -, HITCH® is coming to improve the industry's standards through design and innovation.
