## COATINIUM<sup>®</sup> NANO-WAX SHAMPOO

New cleaning solution with 'LOTUS' effect for boats

### Properties:

Developed for frequent boat washings, Coatinium<sup>®</sup> nano-wax shampoo does not alter the gelcoat, or paint; on the contrary, it protects and revives them. Another advantage, it helps to clean and protect all supports such as:

**stainless steel - glass - plexiglas - wood - plastic - covers, etc...**

New formula which has the advantage to deposit a nanofilm to protect against water, which repels dirt, sea spray, algae. Its nano hydrophobe effect permanently removes a maximum of water by «lotus» effect when rinsing. The deposited nanofilm accentuates and revives the colours, creating a deep and unequalled, shiny effect even on dull paint. Due to its neutral pH and its components of vegetable origin, it respects health and environment.

### CAUTION

We recommend to handle the product with care. Wear the suitable protective equipment.

### Instructions for use:

**Dangerous. Observe the safety instructions.**

**Dilute 40 ml of Coatinium<sup>®</sup> nano-wax shampoo in a 10 litre bucket of water**, apply with a brush or sponge. Rub, rinse with clear water, wipe with a dry cloth or a squeegee.

Do not dispose of residues to the sewer. Dispose of the product and its container as hazardous waste.

### Technical specifications:

**Physical state:** liquid **Colour:** dark green **pH:** 5 **Density:** 1

**Storage:** keep the bottle tightly closed and away from the cold and heat in a ventilated place.

**Components:** 5-15 % (non-ionic surfactants), <5% (amphoteric surfactants, cationic surfactants), perfumes.

The surfactants contained in this preparation comply with the criteria of biodegradability as defined in Regulation (EC) no 648/2004 on detergents.
