

PANNEAUTAGE WOOD BOARD LINER

EN250 FLORIDA Blanc

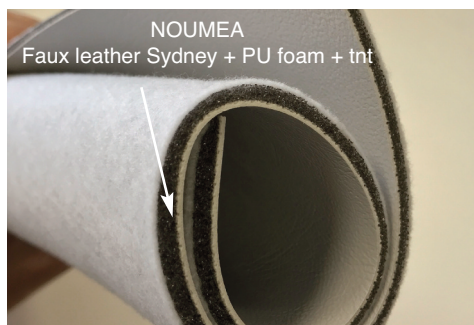

Agrafage sur le panneau CP

Les avantages : + Evite les surépaisseurs entre les panneaux de bois + peut être collé

Stapled on wood panels

Advantages : *do not add thickness in between wood boards + can be bonded*

VAIGRAGE CLASSIQUE SUR MOUSSE PU FOAM LINER

NOUMEA
Faux leather Sydney + PU foam + tnt

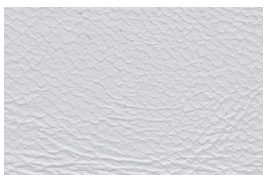

Complexage simili cuir + mousse pour recouvrement de

parois intérieures des bateaux de plaisance

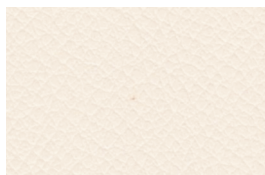

Les avantages : + résistance à l'abrasion

Multi-layered fabrics with faux leather + PU foam and non woven

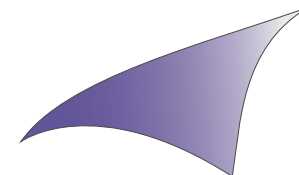

Advantages : *+ absorbs irregularities
+ U.V. and abrasion resistant*

VAIGRAGE MOUSSE PVC PVC CLOSED CELLS FOAM LINER

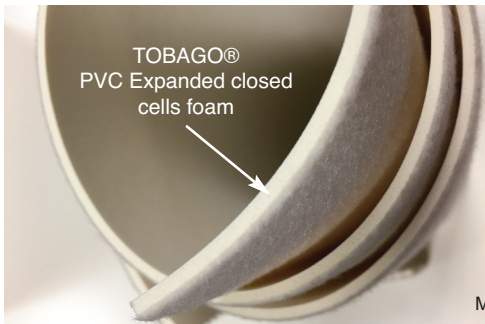

Textile composite mousse à cellules fermées
PVC haute densité pour recouvrement de
parois intérieures des bateaux de plaisance

Les avantages :

- + isolation thermique et acoustique,
- + résistance à l'abrasion, + forte capacité au vieillissement + résiste à la condensation
- + ne casse pas au pliage pour les profils concaves
- + s'adapte aux formes complexes

*Coated fabric with closed cells High density
foam for head and hull lining*

- Advantages :** + thermal and acoustic insulation
+ durable: stands up to the marine environment
+ fit and mold to desired and concave / convex shapes
+ absorbs irregularities + not affected by condensation
+ U.V., abrasion and mildew resistant + blackout version

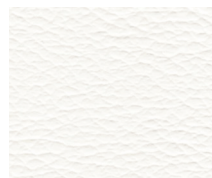

Peau résistante à l'abrasion
Abrasion resistant skin

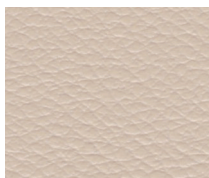

Finish siliconé
anti-salissure
Siliconed finish

Mousse PVC expansée à
cellules fermées
Coated PVC closed cells
foam

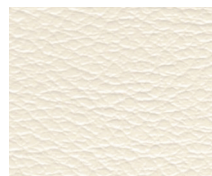

Support non tissé
adapté au collage
Non woven which can
be bonded

VAIGRAGE OCCULTANT BLACKOUT LINER

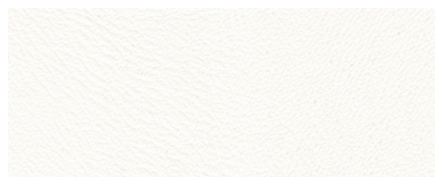

Light diffusion test

Classic version

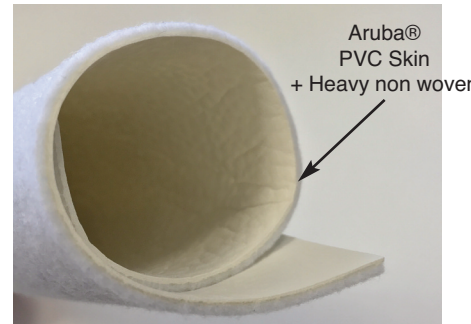

Blackout

TB170 POLAMAR Ocultant Blanc

VAIGRAGE SUR FEUTRE NON WOVEN LINER

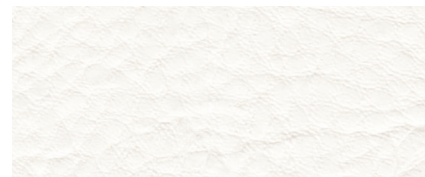

Textile composite PVC sur feutre (non tissé) pour recouvrement
de parois intérieures des bateaux de plaisance

- Les avantages :** + isolation thermique et acoustique,
+ résistance à l'abrasion, + Capacité au vieillissement
+ ne casse pas au pliage pour les formes concaves

*Coated fabric on heavy non woven for
head- and hull liner*

- Advantages :** + thermic and sound isolation,
+ abrasion and ageing strength,
+ do not break on folding of concave shape
+ absorbs irregularities + Adhesive version

TB5500 ARUBA Blanc

Disponible en version Auto-collant
Available in self-adhesive version

TB5501 ARUBA Blanc Adhésivé

VAIGRAGE POUR INFUSION RTM LINER

Stop bonding, Infuse it!!!

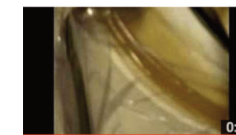

Include the PVC liner directly into the RTM liner: no bonding, only one process.
In cooperation with/www.shoreteam.org: technical process and know how
Minimum 500 ml
