FORWARD WATER IMPACT PROTECTION

We are charging!

The foiling market is charging! Watersports such as Windsurfing, Kite surfing, Sailing, and even Surfing, are going through the revolution of foiling, gliding over the sea in a very enjoyable and efficient way.

Like a Bull charging (our Logo origin is a bull..), we are charging full speed to develop the best water action sports equipment.

We are pro sailors, engineers, designers, supply specialists, ... and we are all dedicated to watersports, training and racing whenever possible to constantly test new ideas.

Here is our 2017 collection, an evolution of our first collection in 2015 and loaded with some key innovations.

Yes!... only 2 years, but we are charging!

The Forward WIP Team

Forward WIP is chosen
by the best teams and Events:

©Horue Movie

Our Main focus has not shifted
and we have kept our efforts developing
the best gear, using our America's Cup
experience, for water sports such as

**Extreme foiling boats,
Action dinghy sailing,
Windfoiling and
Kite foiling**

and we have also branched out into other innovative
solutions for professionals developed in our
Forward WIP Lab...

FORWARD **WIP** Lab

In this Lab we've created the perfect solution for <300m duplex open water/wind proof
communication for up to 4 people. Keeping in touch and in sync on the water has never
been so easy thanks to the **WIP-BBT SYSTEM**

X-OVER [CROSSOVER] HELMET

Code ACCAIWIPXOV

Features

- This helmet has lower coverage shape with a quick mini dial size adjustment.
- In-mold construction, very light, complies with water sport CE1385 and ski spec CE1077B
- Thermoformed foam for better comfort, each helmet is delivered with a set of thicker foams for a better tailored fit on smaller heads.
- Adjustable size thanks to the fit-system - for great comfort
- Size fits all 55-59cm
- Many openings for good ventilation

The perfect crossover helmet for multiple sport activities

The Crossover helmet has been developed with an America's cup team to offer the best protection and to match Ski helmet specs. This will be the perfect choice for Multi-activity sport riders wanting to use it on their fast foiling cats and for high speed downhill skiing.

PROWIP SAILING HELMET

ONE SIZE: 54-60CM / Code ACCA100000

GREY / CYAN

BLACK / RED

WHITE / CARBON

Features

- This helmet has a special shape with good ventilation and side ear cut for wind perception.
- Adjustable size thanks to the fit-system - for good comfort.
- In mold construction: thin and very light
- Many openings for good ventilation.
- Thermoformed foam for better comfort, each helmet is delivered with a set of thicker foam for a better fit on smaller heads.
- Weight: less than 300g.
- Size fit's all 54-60cm.

« The first sailing helmet designed for high performance sailing, light and elegant. »

Loick Peyron

The First real sailing helmet, light and stylish

Modern catamarans or other high performance boats, such as skiffs, are going faster and faster and incidents can cause significant trauma in the case of a fast deceleration or capsize. Making a parallel with other sports like horse riding, ski or cycling, we think that helmets will become used more and more in sailing activities, where the risks of falling or impacting against dagger boards or booms are present. Forward Sailing proposes an innovative solution with this new sailing helmet with in mold technology (a thin skin of polycarbonate is co-injected with polystyrene foam). This technology enables to get a very light helmet (less than 300g !) but with superior shock absorption overpassing by far the water CE norm.

WIPPER JR SAILING HELMET

ONE SIZE: 52-56CM Code ACCAWIP100

WHITE

ORANGE

Features

- High visibility durable ABS shell.
- High absorption EPS liner outperforming the water helmet norm.
- Dial fit system offering large sizing run from 52 to 56cm.
- Size 52-56cm child/youth size.
- 1385 CE approved for water sports
- Can pass the CE1078 Norm for bicycle & skate

A solid high visibility sailing helmet designed for the kid's everyday sailing and training.

Nowadays, kids are used to wear helmets to protect their head from Shocks and sun. This particularly make sense in sailing where sailing clubs are facing head injuries due to boom strikes... Kids, no doubt, will lead by example and love to wear the cool looking Wipper Jr helmet for their sailing days! And as kids are often coming to sailing club on bikes, our Wipper can also pass the cycling CE1078 norm.

WIPPER HELMET

ONE SIZE: 55-60CM / Code ACCAWIP222

White / Red
Matt

Black
Matt / Glossy

Neon Yellow
Glossy

Features

- Solid robust construction with waterproof lining
- Easy Velcro multi snug fit size adjustment
- Soft flex multi-impact dampening lining
- Optional clip on cloth visor and Optional Ears protection
- Uni Size 55-59cm adult size
- Snug fit multi position fit system
- Multi impact High shock absorption foam
- 1385 CE approved for water sports

A very stylish multi watersport helmet to use all day, everyday!

Designed to take the knocks and bangs of everyday sailing, Kite surfing or Windsurfing. The Wipper helmet is particularly suited to action watersport, where sudden smacks are all too frequent! Very durable with its ABS shell, it has a multi positionable fit system combined with micro Velcro size adjustment system to fit any head size with snug fit.

Available in a variety of fashionable colours and finish with or without non removable ear protection and with an optional textile cap visor, the WIPPER helmet is a valuable piece of vital protection. The brighter colours allow for better visibility too.

Orange shoulder strap for higher visibility with a strategic pocket

Neoprene sleeve for a Spare Air tank

Strategic pocket for a spare knife

• Spare Knife
Code WIPACSK111

A cutter for webbing and ropes
A safe webbing cutter with a webbing strap and velcro patch, allowing it to be stowed for instant access. Perfect match location with Forward WIP Impact vest.
Stainless / alloy metal construction

Pocket for the optional Security Knife
Code WIPACSK111

Comms-Unit pocket

Back cushioning

Features

- 50N buoyancy but with a denser foam protection for genuine impact protection.
- Side zip and twin webbing strap fastening, allowing very close fitting to the body and the neoprene non-slip strips inside to prevent any 'ride up'.
- 7 different sized equipment pockets including one under the hi-visibility shoulder panels, a larger front zipped and a rear velcro fastened pockets for knives, comms etc.
- Compact design allows unrestricted and maximum movement of both arms and waist
 - Complies CE 12402-5
- 5 sizes available: S - M - L - XL - XXL

The World's top sailing team's preferred choice of Impact protection & buoyancy.

The Water Impact Protection (WIP) vest by FORWARD offers great comfort and protection for serious sailors (including Kite Surfers&SUP paddlers). This WIP vest has a close-fitting, low bulk design that offers great mobility and a large range of movement. Everyday benefits include ability to swim faster and re-board capsized boat easier. The WIP vest is designed to be compatible with FORWARD WIP Tops&Pants and Sailing harness as well as most other sailing harnesses. Chosen by the many America's Cup Teams and top sailors who choose this as their perfect solution, it is arguably the most comfortable buoyancy aid/impact vest you will ever wear! Please note this is a buoyancy aid, NOT a lifejacket.

Options

- Spare Oxygen Sleeve
Code WIPACSATS1

Sleeve for Spare Air or VHF systems
A neoprene sleeve to accommodate the 'Spare Air 170' emergency breathing canister allowing easy fitting to the front of the 50N Impact Vest. The sleeve is also perfect to locate any VHF mobile receptors. Perfectly located on the 50N WIP vest, the user will have handfree access to the 170 spare air for emergency breathing.

"This is best low profile high absorption buoyancy aid I ever tested! I love the front zip pocket."

Glenn Ashby

Used and approved by the AC72 America's Cup winner

TRAPEZE EXO HARNESS

Code HATREX0113

Features

- Lightweight and very comfortable enveloping internal layer with 2 strap leg system
- External EXO support belt for maxi support
- Adjustable shoulder strap system accessible while sailing
- 2 available sizes: S/M & L/XL

A super comfortable harness with an external reinforced lumbar support.

This new EXO harness is developed for those who are fans of twin strap leg system and wanting to get a light and very supportive harness with external EXO reinforced belt.

Evolution of Steve Murray's original design, this sailing harness design has been proven for more than 20 years.

HARNESS PRO

Code HATRI00000

Features

- Physiotherapist designed adjustable internal lumbar support pad with a larger pad available.
- Quick adjustable Velcro waist straps and webbing shoulder straps with quick release catch.
- Comfortable neoprene padded crotch support and wear resistant seat areas.
- Wide trapeze hook bar to prevent pelvic crushing.
- Sizes S/M & L/XL

"Most comfortable sailing harness ever made!"

Yvan Bourgnon during the Cape Horn rounding

Spare Lumbar Maxi Belt also available

Code HASUDO1000

Larger size back support for long distance sailing days.
Wide and confi back support with integrated battens for long sailing days.
Compatible with both Forward sailing harnesses.

A comfortable harness with an integrated adjustable lumbar support.

This PRO Trapeze harness features a custom designed adjustable or removable lumbar support pad for extra back protection. It also has easily adjustable shoulder and velcro waist straps plus a comfortable neoprene crotch support panel. It features a wide metal spreader bar for the hook to prevent crushing of the pelvis. It also has rear back padding and an abrasion resistant seat area.

HARNESS LIGHT / CLUB

Code HATRST0002

Features

- Easy to put on and to adjust making this harness ideal for training and sailing school use.
- Anti abrasion seat area with comfortable neoprene padded crotch support.
- Can be worn with the optional lumbar support.

Lumbar belt not included in Light version

A simpler and lighter harness with optional support pads.

Designed for comfort and freedom, the design of the harness offers great back bracing, total freedom of movements for arms and legs thanks to well designed openings. Particular care was brought to the pelvic area with neoprene coating. The wide stainless steel buckle avoids compression of the pelvis. The lateral lines enable a micrometric adjustment to adapt the harness to the body shape of the sailor.

Suitable for 15°-20° conditions

HYBRID SEMI DRY

Code WIPVETHY10

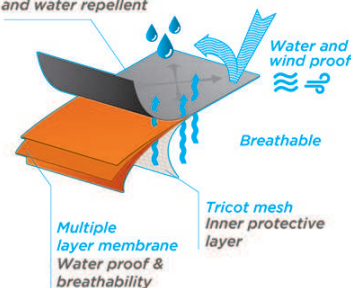

Features

- 3 breathable layers on upper body.
- 4mm superstretch Neoprene pants.
- 1mm waterproof neck and wrist seal.
- Super flexible ZIP opening on the back shoulders.
- 5 Sizes XS, S, M, L & XL

WIP SMART TEX

Spandex Textile

Ultra tough
puncture resistant
and water repellent

WIP Semidry 4mm suit.

Best of both worlds: soft, breathable and comfortable top feel to use with first layer fleece, and tight bottom pant with protection. Waterproof Shoulder Zip and tactical waist comfort zip. Real high abrasion rubber coating on specific zones. Over 10mm neoprene on flex zone for shock dampening. Unique construction with integrated thermoplastic sheets for shock spreading on shin and thigh. Top is breathable, wind & waterproof, connected to a bottom with 4mm super stretch Neo pant. Neoprene waterproof wrist and collar, waterproof zip and fly. Made without integrated socks as they are too fragile.

MERINO TOP

Code WIPVETTOME

Features

- Composition - 80% Merino, 20% Polyester
- Naturally antibacterial - Natural Merino wool helps keep your garment stay fresh and odour free.
- Wicking - Actively wicks moisture away from the skin, keeping you dry and comfortable.
- Breathable - Highly breathable fabric lets moisture out, making sure you stay dry on the inside.
 - Lightweight - Great for travelling, walking and more, with no added bulk.
- Easy care - This garment is machine washable
- 5 Sizes XS, S, M, L & XL

Merino base layer.

Superfine Merino top base layer takes advantage of the incredible properties of nature's finest technical fabric and combines them with the quick-drying, hardwearing performance of polyester to create the ultimate "best-of-both-worlds" base-layer. Merino wool has an uncanny ability to regulate your temperature in a wide range of conditions. It's nice and cosy in the cold but never too hot when the temperature or your activity levels start to rise. It 'wicks' moisture extremely efficiently and, because wool is the only fibre in the world which can absorb vapour, it delays the onset of sweating - keeping you far more comfortable and eliminating that unpleasant chilling feeling you sometimes get when you take a break or slow down.

THERMO NEO SOCKS

Code WIPBOH1000

2mm Neoprene Socks

Perfect for cold weather sailing. The ideal complement to the Hybrid suit turning it into a full dry suit. The slick neoprene on the upper part of the sock ensures a waterproof junction with the Hybrid suit.

WIP BACKPACK W/ DRY SLEEVE

Code WIPBACKZ2

*Ideal Coach bag.
Stylish and smart with a waterproof sleeve.*

Multipocket construction with padded back pocket for computer and tablet, personal stuff area with mutistore pocket system, and on the back, a rear pod to store the helmet. When needed on coach boat, the bottom pocket will release a dry bag where the whole bag will fit nicely in it.

WIP GEARPACK 100L

Code WIPGPACK10

The perfect sailing gear storage bag

Big sailing bag to carry on the back (no wheels) is light and very smart design with top pocket dedicated to caps, eyewear, helmet and other precious gear, and a main compartment with 2 zips preventing mixing of dry stuff before sailing and wet gear after sailing.
