

ENZY WASH

Concentrated Enzymatic Shampoo for hull and deck

✓ Concentrated hull and deck shampoo : **non-caustic and made of overactivated enzymes derived from biology.**

✓ Associated with a strong wetting and degreasing power, the biocatalyst effect of enzymes provides a **QUICK AND EFFECTIVE ACTION TO DEGRADE NATURALLY STAINS.**

✓ Practically neutral pH thus no risk of corrosion of light alloys and other sensitive materials.

✓ Can be diluted in any proportions in either fresh water or sea water.

✓ **ENZY WASH : THE BIOLOGICAL SOLUTION WHICH OFFERS AN ECO-FRIENDLY CLEANING.**

Must be diluted before use :

150ml of shampoo for 5 litres of water.

Apply with a sponge or a soft brush.

Let act 5 minutes. Rub and rinse.
