

NV APOLLON 2.5 SPECIAL SB45

multifunctional / hydraulic

Internal hydraulic gangway of 2.5m length + 0.45m width made of mirror-like stainless steel and teak.

It's Smart Trailer System minimizes the dimensions of the box and the yacht's internal space needed for the installation.

Automatic retraction with control sensors.

This special construction can be used as a Swimming Ladder. Perfect solution for 10-13 mts yachts and sailing boats.

OPTIONAL

Led lighted pathway / Inox Control Panel

— Custom made according to the yacht's dimensions.

NV APOLLON 4 SPECIAL FOLDING

folding / retractable / hydraulic

Folding hydraulic gangway 4m length + 0.70m width made of mirror-like stainless steel with hydraulically operated retractable teak steps that transform the Gangway into immersed Luxury Swimming Ladder.

It's Smart Trailer System together with the folding function minimize the dimensions of the box and the yacht's internal space needed for the installation. Automatic retraction with control sensors.

OPTIONAL

Led lighted steps / Closing lock during navigation / Inox Control Panel

— Custom made according to the yacht's dimensions.

NV APOLLON SL2100 C

multifunctional / hydraulic

Fully automatic hydraulically operated retractable stern boarding gangway-ladder made of mirror-like stainless steel with auto-aligning teak steps. It can be inclined up to 55° both upwards and downwards. The ladder can be used as a gangway when it remains in horizontal position (angle 0°), as a swimming ladder when inclined downwards and as a boarding ladder when inclined upwards.

OPTIONAL

Led lighted steps / Closing lock during navigation / Inox Control Panel

— Custom made according to the yacht's dimensions.
