

We are passionate about delivering
quality, innovation and **service**

Leading marine systems

High quality freshwater, bilge, waste, washdown,
fishbox pump systems, quick connect plumbing,
and water heating products

A manufacturer with people, innovation and service at heart.

Quality

Every product,
fully tested, every time

Innovation

Award winning designs

Service

Tried and tested,
trusted for decades

*'At Whale, we consistently strive to
provide customers with innovative market leading
products and professional proactive support services.'*

Company Overview 3-11

Electric Bilge Pumps

Automatic Range

Supersub Smart 12-13

Automatic narrow low profile pump range

Orca Auto 1300 14-15

Compact, powerful and automatic bilge pump

Bilge IC 16-17

Pre-wired remote pump kit with intelligent control

Standard Range

(For use with a separate bilge switch)

Supersub 18-19

Narrow low profile pumps

Orca 20-21

Compact and powerful electric bilge pumps

Gulper 320 22-23

Remote mount bilge pump

Manual Bilge Pumps

Diecast Aluminium Alloy Range

(For extra long life)

Gusher 10 26-27

Gusher 30 28-29

Polypropylene Range

(Tough lightweight range)

Gusher Urchin 30-31

Gusher Titan 32-33

MK5 / MK5 Double Acting 34-35

Compact Range

Compac 50 36-37

Smartbail 38-38

Bilge Accessories 40-43

Switches, pipework fittings,
non-return valves, strum boxes / strainers

Deck Plates 42

Freshwater

Electric Galley Pumps

Watermaster® 46-47

NEW Double Stack 48-49

High Capacity Freshwater System

Accumulator Kit 50-51

Expansion tank and pressure pump range

Submersible 52-53

Impeller pump range

Inline Booster 54-55

Impeller pump range

Manual Galley Pumps

Hand operated pumps

V Pump 56

Flipper 57

Foot operated pumps

Gusher Galley 58

Babyfoot 59

Faucets / Showers

Elegance Faucet Range 62

Interior Showers 63

Deck / Transom Showers

Twist Deck Shower 64-65

With unique integrated temperature
and flow controls

Swim 'n' Rinse Showers 66-67

Fresh Accessories 68

Filters, pressure switch
surge damper, pipework fittings

Water Heaters

12 V Water Heater 72-73

Water Heaters 74-75

Washdown

Saltwater Washdown 78-79

Pump and trigger kits

Portable Pump Kit 80

Locker Doors 81

Plumbing

Quick Connect Plumbing 82-85

Pipework and fittings

Grey Waste

Electric Grey Waste Pumps

Grey IC 88-89

Intelligent control kit for multiple drains

Gulley IC 90-91

Intelligent control kit for single drains

Gulper 320 92-93

High capacity waste pump
for fast drainage / multiple drains

Gulper 220 94-95

Non- clog grey waste pump

Grey Waste Tanks

NEW Grey Waste Tank Range 96

Grey Waste Tank and 98

Pump Systems

High Capacity Shower 100

Sink Waste System

Shower Sink/Waste System 101

Grey Waste Accessories 102-103

Pipework fittings, non-return valves,
strum boxes / strainers

Fishbox / Livewell

Electric Pumps Range

NEW Gulper Grouper 106-107

Gulper 320 108-109

Black Waste

Electric Pumps

Gulper Toilet Pump 112-113

Non-choke electric black waste pump

Manual Pumps

Mk V Sanitation 114-115

Manual waste pump

Black Accessories 116-117

Diverter valves, Y pieces, elbows,
Non-choke valves, and skin fittings

A contagious enthusiasm for innovation

*'Whale has led the way for many decades with **ground breaking** pump and water system designs through to recent **innovative leaps** in electronically controlled systems.*

*Our **forward thinking approach** is driven by dedicated people who exude a passion for delivering the best possible product and service for customers.'*

Patrick Roberts, Managing Director

Inside Whale

Whale® is a well - known brand with a reputation built on decades of high quality design expertise. Today, we supply marine customers around the world with innovative freshwater, bilge and waste pump and plumbing systems.

We are proud to design, manufacture and market Whale products and to export worldwide. We relish the opportunity to support our customers. We aim to provide best in class service from our base in Bangor, Northern Ireland, and through our worldwide distribution network.

Whale Trade Names

Whale®, Gusher®, Gulper®, Babyfoot® Whale Twist®, Deck Protect®, Smartbail®, Whale Watermaster®, Watermaster®, Whale IC® and Whale IC device® are registered trade names of Munster Simms Engineering Limited, Bangor, Northern Ireland, (trading as Whale).

WHALE SUPPORT

Our team is dedicated to providing excellent customer service and installation advice. Just call or email to speak to one of our technical advisors.

Worldwide Distribution Network

Ensures that where Whale® products and spares are needed, they are available. See page 118 for your nearest official Whale distributor.

Boat Builder Partnerships

Our team includes highly skilled marine engineers who work in partnership with power and sailboat builders around the world. This collaboration delivers bespoke systems that are ideal for each builder, saving both time and money.

To discuss options for partnering with Whale, contact us today.

Shelf Ready Range for Retailers

Whale's retail products include a full range of spare parts. Our marketing team are happy to work with retailers to provide point of sale materials to help sell in store.

For more information contact us today.

Quality first, always excellent

Our production team combine the latest technology with best in class lab testing

Whale Production - Expertise and Technology

- **Expertise** - Latest lean manufacturing techniques applied by our skilled workforce.
- **Production** - Many staff with over 20 years of experience building Whale products.
- **Technology** - Our testing laboratory runs a programme of extended life testing, datalogging and trend analysis on all existing and new products. This ensures consistently robust products designed to withstand the harsh marine environment.

High Quality Manufacturing

- **Reassurance**
100% of products are tested as part of the build process
All finished goods stock is batch tested
- **Integrity of components**
Our in house injection moulding facility uses 100% virgin materials.

The Whale Drive for Quality

Skilled hands on Engineering and Quality teams

- Latest testing, datalogging and lean manufacturing.

Whale Proud Heritage

A Reputation for Reliability

In 2010, Whale celebrated 200 years since our foundation. Since the 1940's we have been developing bilge, freshwater and wastewater products known for their quality and innovation. This tradition proudly continues today with our latest products.

From the foundations of bilge pump design

During the 30s and 40s, Whale developed a range of high quality marine brass pumps fitted in naval and fishing fleets, and then into leisure marine applications in the 70s and 80s.

Reputation for robust design and reliability

Today we use this solid foundation to continue to develop robust manual pumps, as well as leaping forward with the latest electronically controlled water and waste systems.

Whale IC Innovative Future

Latest technology

Innovative electronic circuitry lies at the heart of every Whale IC pump system

- *Simple, fast installation*
- *Longer system life*
- *Whale's best boater experience ever*
- *Expertise in electronics*

**Award winning designs, Whale's
proven pioneering technology
has led the way for decades**

Award winning product design

There are heroes of innovation in all areas of our business from product manufacturing to design through to customer service. Our award winning product designs are the result.

Through the decades, Whale® has pioneered a stream of innovation from the early brass pumps to the market leading Gusher® manual bilge pumps and Gulper® electric waste pumps. Whale's new products such as Twist deck shower and Supersub Smart pumps and Intelligent Control range have all been recognized by the marine industry innovation awards.

Over the last 8 years, 20 world-wide design patents have been registered, driven by a true culture of innovation within the business. Today Whale® remains at the leading edge of engineering technology with a strong design team using state of the art CAD, software development, data-logging and rapid prototyping equipment.

'I lead a team of really skilled and creative design engineers. As a team we have a strong set of core engineering competencies such as mechanical pump and electronic design.'

Richard Bovill, Engineering Director

QUALITEC TECHNOLOGY AWARD

Complete System Management

Marine Product Range

WASHDOWN

Whale's high flow washdown pump range and ergonomic trigger-spray handset deliver great performance to washdown your deck.

BILGE

We have been putting safety and reliability first for more than 60 years, and today our wide product range includes both robust electric and manual bilge pumps as well as a full range of high quality accessories.

PLUMBING

The marine world's first all plastic quick connect plumbing. Save time and money - fast installation with a wide range of fittings. The Whale Quick Connect fittings ensure a high integrity, reliable, plumbing system solution, specifically designed for use in mobile applications.

FRESHWATER

Our freshwater range includes the highest quality range of marine grade electric and manual pumps, a wide range of faucets, showers, filters and accessories.

GREY / SHOWER WASTE

Whale's Gulper pumps for shower / grey waste have led the way for more than 20 years in durability and non-clog valve technology - truly a fit and forget solution for shower waste. The wide range includes pumps and tanks and pre-assembled kits for managing shower waste on board.

FISHBOX / BAITWELL

The Gulper Grouper range handles fish waste and can run dry with no risk of motor burn out.

BLACK WASTE

Whale's manual and electric black waste pumps and accessories ensure reliable waste management where you really need it.

Contact us today for information on our products and your specific installation needs.

Whale - Electric Bilge Pump Range

From the Experts in Bilge Pumps

Leaders in bilge pumps for more than 60 years

- Award winning new automatic pumps
- Narrow low profile pumps ideal solutions ideal for confined bilges

Automatic Electric Bilge Pump Range

No separate electric bilge switch needed

- Whale Supersub Smart - Narrow low profile automatic submersible pumps - Page 12 - 13
- Orca Auto - Compact, powerful and automatic high capacity submersible pump - Page 14 - 15
- Bilge IC - Remote mount complete automatic system - Page 16 - 17

Standard Submersible Bilge Pump Range

For use with separate electric bilge switch

- Supersub Standard - Narrow low profile submersible pumps - Page 18 - 19
- Orca compact and powerful submersible pumps widest range Page 20 - 21
- Gulper® 320 - Remote mounted bilge pump - Page 22 - 23

Accessories

Complete the system with electric bilge switches, non-return valves, pipework fittings - Page 40 - 43

Supersub Smart Family

The original award winning low profile narrow automatic electric bilge pump proven over 20 years

Fits deep down in confined bilge areas, under engines or cockpit floors

Please note:- drain down level is installation dependent
- figures stated are based on typical installation Whale laboratory tests

Fits Deep In The Bilge Where Other Pumps Can't Reach

- No separate bilge switch required
- High flow rates - Available in 650 and 1100 US GPH models
- Retrofitable - now with angled mounting bracket to aid installation**
- Unaffected by wave motion - optimized on/off timings prevent run on
- Environmentally friendly - mercury free
- Includes manual override facility
- Solid state switching - no moving parts
- Suitable for use with fresh or salt water

3 Year Warranty

Tips

- Easy clean
 - unique clever strainer design
 - easy to remove and replace for cleaning

Awards and Accreditations

- Qualtec award
 - Menzione Speciale
- NMMA Innovation Award
 - Honourable Mention
- CE Certified

QUALITEC TECHNOLOGY AWARD

Approvals and Standards

- Conforms to ISO 8849 and ISO 15083
- Ignition protected per ABYC and USCG standards
- NMMA type accepted

Product Information

Model Specifications

Model Product Code	Supersub Smart - Low Profile Automatic Bilge Pump		
	SS5212 With barbed connection	SS1212 With non-return valve	SS1224 With non-return valve
Open Flow Rate	650 GPH (40 ltrs/min) @ 13.6 V d.c.	1050 GPH (66 ltrs/min) @ 27.2 V d.c.	1050 GPH (66 ltrs/min)
Flow Rate @ 1m Head	550 US GPH (34 ltrs/min)	750 GPH (47 ltrs/min)	750 GPH (47 ltrs/min)
Nominal Voltage	12 V d.c.	12 V d.c.	24 V d.c.
Current Draw	3.4 amps	5 amps	2.2 amps
Recommended Fuse Size	5 amp automotive	5 amp automotive	2.5 amp automotive
Wire Size (Caulked Wire)	1.5 mm (16 AWG)	1.5 mm (16 AWG)	1.5 mm (16 AWG)
Weight	0.326 kg (0.71 lbs)	0.45 kg (0.99 lbs)	0.45 kg (0.99 lbs)
Maximum Discharge Head	3 m (10 ft)	3 m (10 ft)	3 m (10 ft)
Hose Connections	19 mm (¾") / 25 (1") Stepped port	25 / 28 mm (1" - 1 ⅛") Stepped port	25 / 28 mm (1" - 1 ⅛") Stepped port
Materials	Pump Body; polypropylene, high temperature ABS, fully potted circuitry. Locking Ring; acetal, Impeller; Glass filled polypropylene Seals; Nitrile®, Fasteners; stainless steel.		
Overall height	75 mm (3")	75 mm (3")	
Overall Width	54 mm (2 ⅛")	54 mm (2 ⅛")	
Overall Length	212 mm (8 ⅝")	240 mm (9 ½")	

Note: For wiring advice on your installation, please contact Whale.

These specifications are retail items only.

For details of our bulk pack range for boat builders and wholesalers - contact Whale Support.

Flow rates quoted are based on Whale laboratory tests without a non-return valve included.

*Based on Whale laboratory testing 2015. Performance may vary in different installations.

COMPLETE YOUR SYSTEM

Whale high quality bilge accessories including elbows and y pieces. Page 40 - 43

Orca Auto 1300

Compact, powerful and automatic

Submersible bilge pump design ensures maximum surface area exposure to bilge water - no separate bilge switch required

Integrated Electronics
Fully potted IC Built in intelligent control.
Microprocessor electronics sealed for protection against water ingress

Fully Protected
Robust housing fuel resistant ABS

Easy Install
25 mm (1"), 28 mm (1 1/8") stepped connection ports to suit your installation

Efficiency
Maximum area exposed to bilge water

Product code: see table

High Performance - 1300 US gals/hr flow rate

- Simple to install - built in automatic sensor
- No separate bilge switch is required
- Long battery life - low amp draw
- Neat fit in compact bilge areas
- ABS fuel - resistant housing
- Efficient - large filter ensures maximum surface area exposed to bilge water

1 Year Warranty

Awards and Accreditations

- Conforms to ISO 8849
- CE certified

Easy maintenance

Typical Installation

Bilge IC

Pre-wired easy access remote mounted bilge system (4 in 1) with automatic intelligent control

Save time and money by reducing four separate components to one pre-wired system. Remote mounting automatic Gulper IC receives signals from strainer and switches on and off automatically

Complete your system intelligent pump, strainer, non-return valve and intelligent digital switch in one

* Please note:- drain down level is installation dependent
- figures stated are based on typical installation Whale laboratory tests

Why Bilge IC?

- Pre-wired and assembled
- Remote mounted pump for easy inspection
- Soft start - protects the pump for long life
- Small footprint strainer fits into very confined bilge spaces
- Low current controlled switching - no switch failure from high currents
- On/off delay - prevents cycling
- Environmentally friendly - no mercury
- Time delay to allow for optimum drainage
- Override wire included to allow for manual activation

3 Year Warranty

Tips

It is important to ensure that a vented anti-syphon loop is incorporated in the system

Awards and Accreditations

- Conforms to ISO 8849 and ISO 15083
- Ignition protected per ABYC and USCG standards
- CE certified
- EMC compliant
- NMMA type accepted

COMPLETE YOUR SYSTEM

Typical Installation

Supersub Family

Narrow low profile standard submersible bilge pumps now with higher capacity models. Designed for use with separate bilge switch

Supersubs fit deep down in small or awkward bilge spaces where other pumps won't

Widest Range Ever

Simple plumbing
- ports can be rotated to suit your installation
650 and 1100 models include stepped ports

Integrated bleed ball
- prevents airlocks

Efficient operation
- low profile strainer

Long term reliability
- Extra long wires for integrity

Versatile installation
- Multi-position pump head and body

Drains to down
9 mm (1/3")*

Easy maintenance
- Unique easy to clean strainer

This product is protected by the following granted patents:
United States Patent No. US 6,174,146; and United Kingdom Patent No. GB 2 328 719.

*Please note:- drain down level is installation dependent
- figures stated are based on typical installation Whale laboratory tests

Low Narrow Design for Confined Bilge Spaces

- Easy installation - Outlet and pump body rotate to suit your installation
- High performance
- Efficient operation
 - Very low power consumption
- Easy to clean - Snap fit assembly
- Low profile strainer
 - Leaves the bilge almost dry

Gulper® 320

Easy Access Remote Mount Bilge For protection and easy inspection

No clog, no filter waste pump built on more than a decade of market leading pump technology

Easy Access and Product Protection

- Meets requirement for primary bilge pump for boats up to 12 m (39.4 ft) length
- Ideal where bilge space is limited
- Long life high, dry and protected

3 Year Warranty

Awards and Accreditations

- ISO15083 Marine standard suitable as a primary bilge pump (for vessels up to 12m in length) or secondary bilge pump in accordance with ISO8849.
- Ignition protection ISO8846.
- CE marked.

COMPLETE YOUR SYSTEM

Gusher® 10

The original bilge pump choice for sailors in extreme conditions

Durable diecast alloy bilge pump
Top performance - 65 ltrs (17 US gals) minute, robust design stands up to the toughest marine conditions

Robust Design Stands Up To The Toughest Marine Conditions

- Top performance
 - 65 ltrs (17 US gals) per minute
- Mounting options On Deck / Bulkhead, Thru deck
- Designed for simple installation and maintenance
- Efficiency - Large non-choke valves
- Ideal for workboats, cruisers, offshore racing
- Easy pump action - Self priming
- Typical uses
 - Bilge pump out / holding tank pump out

5 Year Warranty

Awards and Accreditations

Suitable as a primary bilge pump on boats equal to or greater than 12 m (40 ft) in accordance with ISO15083

Typical
Installation

Gusher® 30

Whale's largest capacity manual bilge pump. Manufactured by hand using high grade materials based on more than 60 years experience. The heavy duty Gusher 30 is ideal when long term durability and high performance is vital.

Thru Deck
BP3020

On Bulkhead
BP3010

Long term reliability
fully protected diaphragms

Product Code: BP3000

Ease of use
easy grip handle

Ease of operation
extra long handle

Robust design
corrosion resistant, powder-coated,
die-cast aluminium alloy

Simple plumbing
38 mm (1½")
hose connections

Efficiency
high capacity double acting pump

Maximum Output - Delivering Over 117 Ltrs (31 US Gals) Per Minute

- Efficient operation
 - Double acting pumps on both to and fro strokes
- Reliability
 - Twin diaphragms ensure pump continues working if one is damaged
- Durability
 - Powder coated diecast aluminium alloy
- Easily pumps oily bilge water
- 3 mounting options
 - Available for deck, bulkhead or underdeck mount

5 Year Warranty

Tips

It is important to ensure that a vented anti-syphon loop is incorporated in the system

Awards and Accreditations

- Pump accepted on some vessels for use as an emergency fire pump
- Suitable as a primary bilge pump on boats equal to or greater than 12 m (40 ft) in accordance with ISO15083

Life Boats Approval

- Approved by Lloyds (MCA)

Electric Bilge Switches

Electric Field Sensor Range

- Electric field sensor automatically senses water levels and switches on the bilge pumps
- Nylon material - withstands high temperatures
- Automatically switches on when 51 mm (2") of water is sensed and turns off when water drops below 13 mm (½")
- BE9006 model - built in 30 second off delay for efficient operation, prevents cycle in small sump installations or enables lower drain than 13 mm (½")

Model Specifications

Model	Electric Field Sensor Switch	Electric Field Sensor Switch with 30 second time delay
Product Code	BE9003	BE9006
Voltage D.C.	12 V d.c. or 24 V d.c.	
Current	Suitable for up to 20 amps	
Residual Current	0.008 amp	

Suitable for Orca and Supersub standard submersible ranges – pages 20 and 19

Float Switch

Floatswitch Ideal for use with Electric Bilge Pumps

- Environmentally friendly - no toxic mercury
- Easy to install mounted on either horizontal or vertical surface (e.g. bulkhead or hull)
- Suitable for installations where amp draw is up to 15 amps
- Compact design

Model Specifications

Model	Whale Float Switch
Product Code	BE9002
Voltage D.C.	12 V d.c. or 24 V d.c.
Current	Suitable for up to 15 amps

Suitable for Orca and Supersub Standard Submersible ranges see pages 20 and 19

Note: These specifications are retail items only.

Accessories - Pipework Connections

Accessories - Pipework Connections

Whale supply a wide range of accessories designed specifically for use with Whale Pumps, creating a system solution for the installer.

Y Piece

- Designed to enable two pumps to discharge through a single line
- Ideal for use when a diverter is not required

Model Specifications

Model Product Code	Y Piece YP6114
Pipe Diameter	38 mm (1½")
Materials	Glass-filled Polypropylene

YP6114

Elbows

- Ideal for use in installations in confined spaces

Model Specifications

Model Product Code	Elbow EB3364	Elbow EB3488
Pipe Diameter	25 mm (1")	38 mm (1½")
Materials	Glass-filled Polypropylene	

EB3364

EB3488

Check Valves

- Provide an easy way to maintain prime in a suction or discharge line
- Designed to fit in-line
- Suitable for use with manual or electric pumps

Model Specifications

Product Code	LV1215	LV1218	LV1219
Pipe Diameter	25 mm (1") 38 mm (1½")	25 mm (1") 28 mm (1 1/8")	19 mm (¾") 25 mm (1")
Materials	Body: Glass-filled Polypropylene, Valve: Nitrile®		

LV1215

LV1218 LV1219

Skin Fittings

- Manufactured in strong high quality moulded non-corrosive acetal

Model Specifications

Model Product Code	Skin Fitting SF5018	Skin Fitting SF5131	Skin Fitting SF5204	Skin Fitting SF5425
Diameter Size	16 mm (⅝")	19 mm (¾")	25 mm (1")	38 mm (1½")
Materials	Acetal			

SF5204
(see table for part numbers of other hose connections)

Note: These specifications are retail items only.

Bilge Accessories

Deckplates

Deckplates

A Comprehensive Range Of Bilge Pump Covers

- Provides a neat cover over manual bilge pumps
- Aesthetic designs
- Manufactured from UV Stabilised plastic
- Will not fade or discolour
- Snap-shut lid remains closed when pump is not in use

Deckplate Selector			
Product Code	Model	Materials	For Use With
DP8904	Plastic 4 Hole Model	PBT	Gusher® Urchin Gusher® Titan, Gusher® 10

Diverter Valve

Diverter Valve

Allows one pump to draw from two locations

- Robust, reliable design
- Teflon® lubricated non-stick operation
- Precision machined for odour-proof seal
- Withstands sewage/black waste, saltwater and bilgewater
- Models available in either 25 mm (1") or 38 mm (1 1/2") hose connection

Typical Uses

- Suitable for electric or manual waste management systems
- Used in bilge and toilet waste systems
- Diverts flow to holding tank or overboard or deck pump out

Diverter Valve
5 Year Warranty

Model Specifications

Model	Diverter Valve	Diverter Valve
Product Code	DV5630	DV5606
Hose Connections	25 mm (1")	38 mm (1 1/2")
Materials	Main Body: Acetal, Teflon®, Handle: PTFE Polyester	

Note: These specifications are retail items only.

Complete the system with filters, surge dampers, strainers,
one way valves and pressure switches - Page 68

Watermaster®

Automatic Pressure Pump

Delivers smooth consistent flow and runs dry without damage

Pump design based on more than 70 years of marine product experience

Traditionally automatic pressure pumps designs are mainly focussed on high power or performance, but with our experience of building products designed to withstand harsh marine conditions, we have added design features to protect the pump for the long haul

Fully sealed protective motor housing

Power 
Performance 
plus Protection 

Filter and fittings included

2 x 1/2" Threaded Connectors

2 x 1/2" Barbed Connectors

1 x Strainer

3 feet rotate to suit your installation

Quick Connect or threaded ports for faster installation

Smooth constant flow from specifically designed diaphragms

Product code: see table

Patent applied for application number is 1214335.0

This product is protected by the following granted patents:

This product is protected by the following granted patents: United States Patent No. US 6,840,745; Canadian Patent No. 2 380 465; United Kingdom Patent No. GB 1 222 392; French Patent No. FR 1 222 392; German Patent No. DE 60018089.1 (EP(DE) 1 222392); and Italian Patent No. IT 1 222 392.

WHY Watermaster?

POWER

- High flow rates at a variety of outlets
- Smooth constant flow
- Self priming up to 3 m (10 ft)

PERFORMANCE

- Quiet, automatic operation
- Easy installation - suitable for 15mm Quick Connect plumbing or 1/2" threaded connection
- Suitable for use with salt or fresh water

PROTECTION

- Fully sealed protective motor housing
- Completely integrated electronics
- IP65 rated - no water ingress
- Runs dry without damage
- Includes strainer to protect pump from debris

2 Year Warranty

Awards and Accreditations

- Industry Approved IP67 Pump
- EMC compliant
- CE marked

Double Stack Freshwater Pump System

High Capacity Freshwater Kit

Efficiently delivers smooth water flow in vessels with up to 8 outlets

- Fast installation - pre-assembled system
- Smooth even flow
- Reduces noise and vibration by preventing pump cycling
- Small footprint - ideal for installation in tight spaces

Efficient Pump Control

- Combined pumps and accumulator tank ensures a smooth flow of freshwater to multiple outlets
- Uses system pressure to control pump activation and prevent pump cycling
- A single pump activates when low flow rate is required
- Both pumps activate only when high flow rate is required

High Grade Pressure Switches

- Robust industrial grade external pressure switches are ignition protected and require no relays

Noise Reduction

- Unique mounting bracket ensures compact footprint and includes vibration reducing feet

2 Year Warranty

Awards and Accreditations

- EMC compliant
- CE marked

Submersible Impeller Range

Whale's high flow long life submersible impeller galley pumps

Simple plumbing suitable for 10 mm ($\frac{3}{8}$ ") or 13 mm ($\frac{1}{2}$ ") flexible hose

Watertight electrics sonic welded cable connection

Simple and compact design

Standard Pump 10 ltrs / min

- Simple, compact and an economical solution
- Ideal for basic, one outlet application

Premium Pump 13 ltrs / min

- Reliable, general purpose and suitable for multiple outlets
- Long life, very quiet with low power consumption
- An inexpensive way to update a manual to an electric system

High Flow Pump 14 ltrs / min

- Market leading submersible pump for flow performance suitable for showering

Robust ABS pump housing

Whale
SUBMERSIBLE

12V D.C. Pump

Read Instructions
before use

Do not run dry

Narrow design ideal to drop into your water tank

Protected strainer prevents debris entering pump*

Product code: see table
Please note* - Strainer included on High Flow and Premium models only

Simple, Compact Economical Solution

- Long life, very quiet with low power consumption
- An inexpensive way to update a manual to an electric system
- Choose the pump to suit your freshwater needs on board from 3 flow options
- 12 V d.c. / 24 V d.c. models available
- Compact, quiet, lightweight design suitable for use with pressure switch and microswitch systems
- Also suitable for pumping diesel

Fresh Accessories

Complete Your System

Whale® high quality pumps and accessories to ensure long term reliability from pump to faucet.

Whale® water filters, surge dampers, pressure switches and one way valves are designed and manufactured with highest quality at heart. Combine these accessories with your whale water pump for a home from home water supply on board.

Need specific advice on your freshwater system? Contact our technical team at Whale support
See below for a full list of accessories

Inline Water Filters

Aquasource Clear Water Filter - WF1530

For refreshing tasting water on board

- Silverised carbon filter - removes nasty tastes and smells
- Connects directly to 15 mm Quick Connect Plumbing/ ½" (13 mm) flexible hose (using stainless steel hose clips)
- Note - this is not a bacterial filter

WF1530

Pump Strainer

Inlet Strainer Replacement - AK1319

For use with Watermaster and Universal Pressure Pumps

AK1319

Inline Pressure Switch

Inline Pressure Switch - WU7207

For use with submersible or in line self venting pumps in a pressurized water system

- Controls the pump by sensing changes in system pressure.
- Current rating = 10 amp: 12 V d.c. systems / 5 amp : 24 V d.c. systems
- Maximum Pressure: 2 bar (30 psi)
- Materials: body: acetal, seals and valves: Nitrile®, EPDM
- spring: phosphor bronze, fasteners: stainless steel
- Note: must be mounted in a vertical position

WU7207

Expansion Vessels

Surge Damper - WS7215

For a smooth constant water supply

- Capacity = 150 ml (1/4 pint)
- Max. pressure 4 bar (60 psi)
- connects directly to 15 mm Quick Connect Plumbing/ 1/2" 13 mm flexible hose (using stainless steel hose clips)
- Note - connect as close to the outlet of the pump as possible or as close to the outlet side of the pressure switch (if fitted)

WS7215

Pipework Connections

One Way Check Valve - FV1227 for 13mm (1/2") flexible hose (white)

fit in line to maintain prime for short periods

- Ideal for use with electric pumps
- Suitable for connection to 13 mm 1/2" flexible hose
- Ensure the valve is installed with the arrow pointing in direction of water flow
- Note - low restriction design will have a small drip return

FV1227

Whale - Water Heater Range

For all your warm water needs on board

Water Heaters and accessories include high quality models ranging from 3 US gals to 28 US gals in a variety of styles and materials.

Whale® Water Heaters are built to the highest standards with many features to ensure safety on board. With integrated thermostat, pressure relief valve and temperature monitor you can be assured that safety is a priority. All heaters are made from marine graded materials to withstand harsh conditions.

12 V Water Heater - Ideal for outboard boats

Compact and lightweight 3 US gals capacity Water Heater which only requires 12 V power supply. Ideal for outboard boats delivering quick water heat up and long heat retention times for all your hot water needs on board.

- Unique 12 V Water Heater ideal for outboard boats (Available in UK, EU and USA) - Page 72-73

Water Heaters

- Available in The Americas Only Page 73-74

Note: All Whale Water Heaters must be installed and serviced by a qualified electrician in accordance with the Whale appliance installation and operating instructions and appropriate electrical regulations and certifications.

Whale 12 V Water Heater

Hot Water On the Go For Outboard Boats

Whale's unique 12 V Water Heater ideal for use on outboard boats. With 3 US Gal capacity the heater delivers fast water heat up and long heat retention for all your hot water needs on board

**MAGNESIUM ANODE AND
DRAIN VALVE COMBO INCLUDED
FOR LONGER TANK LIFE**

Heat Up Time

140° F / 60° C - 80 minutes
104° F / 40° C - 41 minutes*

Heat Retention

From 140° F / 60° C to 104° F / 40° C
10 hours, 8 minutes*

Control
- Relay allows low current
switching at helm

Temperature Control
140° F Thermostat

Long Life
- Drain Valve and
Magnesium Anodes

Performance
- Efficient 300 W element for hot
water in less than 60 minutes*

Secure Installation
- Tank welded mounting brackets

Robust
- White Epoxy
Coated Aluminum

Safety First
- Temperature and
Pressure valve

Efficient
- Maintains hot
water for up to 10 hours

Connectability
- Compatible with Whale
Quick Connect Plumbing

12 V Power Supply - No Generator/ Inverter/ Shore Power Required

- Rapid Heat Up
 - Hot water in less than 1 hour*
- Ideal For Use With Deck Showers
 - Perfect for warming wetsuits
- Safety Features
 - Low current switching
 - Integrated temperature and pressure valve
 - Thermal cut-out
 - Heating Indication output
 - Ignition protected (ABYC E-11)
- Compact Design
 - Fits in small places

Saltwater Washdown Kit

Saltwater Washdown pump and trigger kit

Pump and trigger handset in one easy fit kit delivers high pressure targeted flow

Product code: see table

Easy to use trigger handset

High capacity pressure pump

Adaptable 4 feet rotate to suit existing installation

Easy maintenance strainer with clear lid for inspection prevents debris from entering the pump

Straight forward installation connects directly to Quick Connect /19 mm (¾") flexible hose / 12.5 mm (½") flexible hose. No extra connectors needed

TRIGGER

- Trigger handset with adjustable jet and lockable lever
- Lock/unlock lever to conserve water
- Comfortable trigger design
- Simple push in hose fitting with dry decoupling valve

PUMP (also available separately)

- High pressure pump - smooth constant flow
- Self-priming up to 3 m (10 ft)
- Internal pressure switch - Extra protection and safety with wires
- Pumps universal mounting arrangement fits any existing installation
- Suitable for use with saltwater and freshwater
- Reliability - Runs dry without damage

2 Year Warranty

Awards and Accreditations

- IP65 rated
- CE marked

Portable Pump Kit

The Versatile Portable Pumping Solution!

Self-Venting Portable Pump Kit

- Wash down your boat with ease
- Great performance and low voltage pump
- Easy to maintain with a wipe clean hose and nozzle
- Suitable for cold and warm water, diesel, light oils and water-based fluids including most water-based pesticides

The kit now includes

- Low voltage high flow submersible pump
- Nozzle with adjustable on / off, fine spray or a jet of water
- 3.75 m (12.5 ft) food quality clear hose

1 Year Warranty

Awards and Accreditations

- CE marked

COMPLETE YOUR SYSTEM

Plumbing Systems

Quick Connect Plumbing System

Whale Quick Connect fittings ensure a high integrity, reliable, plumbing system solution, specifically designed for use in mobile applications.

Save Time and Money by Using Whale Quick Connect

Fittings and pipework design ensures easy installation and re-usability of components. The simple two step installation procedure does not require special tools to make a watertight connection.

- Unique ‘Double Gripper’ design provides secure lifelong pipework retention even at excessive pressures
- The innovative ‘cage collet’ eliminates leaks where fittings are installed close to tight bends
- Collet has internal support ring ensuring o ring seal is held in position and does not distort or leak under pressure
- High integrity single piece moulding improves the strength of the fittings
- Outer sleeve incorporates collet cover, thus preventing accidental pipework release
- Collet clips are not necessary and therefore reduce installation time
- Pipework includes measured cut marks, designed to be a visual guide to ensure that fittings are pushed fully home

Whale Quick Connect Semi-Rigid Pipework

Whale Quick Connect colour coded semi-rigid pipework is available in 12 mm, 15 mm, and 22 mm sizes in standard or high performance (Whalex) PE materials. The pipework’s flexibility enables tight bends to be formed, hence reducing both the number of fittings and time required at installation. Whale Quick Connect semi-rigid pipework offers the integrity of metal, but the usability of plastic, and is fully tested and recommended for use with the complete range of Whale fittings (see pages 84-85).

Minimum Bend Radii Recommendations

All grades of Whale Quick Connect semi-rigid pipework are flexible and can be bent into a tight radius to facilitate easy installations. This reduces the number of fittings required and the cost of the total water system.

Whale Tubing	Minimum Bend Radius
15mm	75mm

Installation Guide

- Step 1** Cut pipework to length by making a straight clean cut using Whale cutters WX7950 (WX7951-USA only) (see **fig.1**)
- Step 2** Simply push the pipework length into the fitting to the second internal stop (see **fig. 2**)
- Step 3** To release pipework: Push back the grey collet into the fitting, then hold the collet in and pull out the pipework length (see **fig. 3 and 4**)

This product is protected by the following granted patents: United States Patent No. US 6,349,978; German Patent No. 69810350.5 (EP(DE) 1 032 785); French Patent No. FR 1 032 785; United Kingdom Patent No. GB 2 331 564; and Dutch Patent No. NL 1 032 785.

The Whale Quick Connect products are protected by the following patents
UK Patent Number: 2331564, European Patent Number: 1032785
USA Patent Number: 6349978

Materials

Whale Quick Connect Fittings	Glass-filled Polypropylene
Whale Quick Connect Pipework	Polyethylene

Recommended Maximum Operating Conditions

	Maximum Pressure	Maximum Temperature
Hot Water	6 bar (90 psi)	65°C (150°F)
Cold Water	12 bar (180 psi)	20°C (68°F)

Minimum Bend Radius

Quick Connect 15 mm Pipework	75 mm
---------------------------------	-------

Minimum Storage Temperature

The minimum dry storage temperature is -40 °C (-40 °F)

Note: It is vital that the system is fully winterized to prevent frost damage.

WARNING

WARNING: Temperature Settings – To prevent scalding, (regardless of the water heating method or the control devices used), the temperature for the hot water supplied to the faucets and showers should be controlled in the range of 50 °C to 60 °C (110 °F to 140 °F) with a fail safe set at 82 °C (180 °F).

CAUTION: Ideally, the temperature should be set at 46 °C (115 °F) for health and safety reasons, higher settings will increase the risk of scald injury. Those at greatest risk of scald injury include children, the elderly, disabled, and diabetics.

Fail Safe Controls

WARNING

WARNING: In a typical marine installation, it is vital to incorporate primary and fail safe controls for water temperature and pressure. Please see list below:

PRIMARY CONTROLS:

Thermostatic Mixer Valve: WX1599B

Pressure Switch: WU7207(B) - In-Line Pressure Switch or included in the Universal Pressure Pump (see page 66)

Pressure Regulator: WX1595B - Pressure Relief Valve - 6 bar 1/2" Female

Expansion Vessel: Accumulator Tank

FAIL SAFE CONTROLS:

WX1595B - Pressure / Temperature Relief Valve

For typical installation of these necessary controls see page 47

For a full list of our part numbers see pages 84-85

For advice on specific installation requirements contact Whale - see contact details

Note: The patented Whale Plumbing System is specifically designed to be use in "mobile" applications. Whale Quick Connect fittings and Whalex pipework (only) are covered for 10 years from date of purchase (except WX1599B which is covered by 1year warranty).

For use with Whale plastic tubing and grooved stems only.

Whale - Grey / Shower Waste

Electric Grey Waste Pumps and Tank Systems

Whale's Gulper Pumps for shower / grey waste have led the way for more than a decade in durability and non-clog valve technology - truly a fit and forget solution for shower waste. Our full range includes pumps and tanks and pre-assembled kits.

Electric Grey Waste Pumps

Whale Gulper non clog electric grey waste pumps are proven to be reliable and able to handle typical shower waste such as hair and shower gel. No filters to clog - proven performance for the long haul.

Multi-port Polyethylene Tanks

These roto-moulded tanks are hard wearing, and durable, can handle grey waste from multiple drains, but are also compact enough to fit in confined spaces. They are designed for easy installation with Gulper waste pumps to ensure a robust solution to managing sink, shower or dishwasher waste.

Electric Grey Waste Pumps

Grey IC

Automatic Grey Waste System - manages waste from multiple drains

Whale Grey IC shower waste systems have intelligent control electronics built in ensuring that the pump operates only when required. Includes Gulper® IC and 1" (25 mm) Two Way Manifold IC with 4 m (12 ft) of cable

Unique Intelligent Control means that Grey IC Kit is all you need to manage waste from multiple drains through one pump

Electrical signals are sent from the Two Way Manifold IC only when waste water needs to be pumped out

One pump automatically handles waste from your shower on board - no manual switches required

- Ideal for installation where you don't have space for a grey waste tank
- Easy installation - pre wired plug and play kit
- Reliability - No moving parts to clog

Gulper IC - Automatic control

- One pump handles waste from multiple drains
- Fast drainage - high capacity up to 19 ltrs (5 US gals) /min
- Long life - Self primes and can run dry
- Soft start - protects the pump
- Easy to install - including uneven surfaces
- Optimal drainage - Built in time delay
- Low current controlled switching - no switch failure from high currents

Two Way Manifold IC

- Fully automatic handles waste from multiple drains as required.
- Senses waste level through wall - not in contact with water
- Removes the need to install a bulky grey waste tank
- Service free - No moving parts to clog or burn

Product Information

Model Specifications

Model	Grey IC	
Product Code	WM8284	WM8484
Voltage	12 V d.c.	24 V d.c.
Voltage Range	10 to 13.6 V d.c.	21.6 V d.c. to 27.2 V d.c.
Current Profile	Soft stop/ start	
Recommended Fuse Size (Automotive)	10 amps	5 amps
Minimum Wire Size	1.5mm (16 AWG)	
Weight	1.6 kg (3.5 lbs)	
Maximum Suction Lift	3 m (10 ft)	
Maximum Discharge Head	3 m (10 ft)	
Maximum Discharge Head and Suction Lift Combined	4 m (12 ft)	
Hose Connections	barbed connections 3/4" (19 mm) and 1" (25 mm)	
Materials	Pump head- Glass-filled Nylon, Valves, and Diaphragm - Santoprene®, clamp ring Acetal, Feet - EPDM, Gear wheel- Delrin®, fasteners Stainless Steel	
Materials in contact with fluid	Glass-filled Nylon, Santoprene®, Stainless Steel	
Service Kit (available separately)	AK2050- Replacement Pump Head IC	
Accessories	none required	
Run on time	9 seconds

Control Voltage	5 V d.c. via Gulper® IC
Current Draw	Low power 0.01 amps supply
Connectors	IP68 Waterproof Quick Connect 7 way (directly onto Gulper® IC)

Gulley IC

High capacity automatic shower waste system - One pump manages waste from a single drain

Intelligent control electronics built in ensure that the pump operates only when required. Includes Gulper IC® electric waste pump and Compact Gulley IC with 4 m (12 ft) cable for easy installation.

Electrical signals are sent from Gulley IC only when grey waste water needs to be pumped out. Fully automatic shower gulley drains waste away.

Typical Installation

Compact gulley design senses waste level and controls pump

Product code: see table

*Please note:- drain down time is installation dependent
- figures stated are based on typical installation
Whale laboratory tests 2011

Automatic Control - Gulley IC Senses The Grey Waste Level And Sends Signals To Gulper IC To Turn Off And On As Required

- One pump automatically handles waste from your shower on board - no manual switches required
- Ideal for installation with limited space for a grey waste tank

Gulper IC - Electric Non clog Electric Grey Waste Pump with intelligent control

- Easy installation - pre wired plug and play kit
- Reliability - No moving parts to clog
- Long life- Self primes and can run dry
- Soft start - protects the pump
- Protected against water ingress – fully potted circuitry
- Low current controlled switching - no switch failure from high currents
- Fast drainage - high capacity up to 19 ltrs (5 US gals) /min
- Optimal drainage - Built in time delay

Gulley IC

- Compact single shower gulley with integrated intelligent control
- Easy clean cover and sleek design

Gulper® 320

High Capacity Waste Pump

- Fast Drainage And Space Saving On Board

No clog, no filter waste pump built on two decades of market leading positive displacement diaphragm pump technology

Gulper Valve Technology Handles Shower Waste From Multiple Drains - No Filters And No Clogging

High Capacity Waste Pump - Fast Drainage

- Save space one pump can be used for multiple drains with a grey waste tank
- Head rotates 360 degrees to suit your installation
- Long life - runs dry without damage
- Easy to install - including uneven surfaces
- Reliable operation - Self priming

Also available
Gulper 320 High Capacity
for multiple drains
See page 92

Reliably Pumps Shower Waste Including Hair and Gels

- Up to 14 ltrs (3.7 US gals) per minute*
- Will run dry without damage and pump a mixture of air and water
- Virtually non-choke valves - No filter to unblock
- Reliable operation - Self-priming up to 3 m (10 ft)
- Easy to install in confined spaces
- Double outlet valve ensuring continuous flow
- Multi directional head - for ease of installation
- Low power consumption

2 Year Warranty

Awards and Accreditations

- Ignition protected ISO8846.
- CE marked
- IP45 rated

Product Information

Model Specifications

Model	Gulper® 220	
Product Code	BP1552	BP1554
Voltage	12 V d.c.	24 V d.c.
Recommended Fuse Size	5 amps Automotive	2.5 amps Automotive
Weight	1.5 kg (3.4 lbs)	
Hose Connections	19 mm (3/4")	
Minimum Wire Size	1.5 mm² (16 AWG)	
Materials	Pump Body: Aluminium, Glass-filled Nylon, Clamp Ring: Acetal Diaphragm: Santoprene®, Valves: Nitrile®, Feet: EPDM Gearwheel: Delrin®, Fasteners: Stainless Steel, Brass	
Materials in Contact With Fluid	Glass-filled Nylon, Nitrile®, Santoprene®, Stainless Steel	
Accessories	Grey Waste Tanks (see page 98)	
Service Kit	AK1550 - Gulper® 220 Service Kit Contains: Diaphragm and Valves	
Maximum Suction Lift	3 m (10 ft)	
Maximum Discharge Head	3 m (10 ft)	
Maximum Discharge Head and Suction Lift (combined)	4 m (13.5 ft)	
Dry Running Current	2.4 amps	1.2 amps

Performance Data

	BP1552 / BP1554	BP1552 / BP1554
Suction Lift	0 m (0 ft)	1 m (3 ft)
Discharge Head	1 m (3 ft)	1 m (3 ft)
Flow Rate per Minute	13.4 ltrs (3.5 US gals)	12.6 ltrs (3.4 US gals)
Current Draw	3.5 amps (12 V d.c.) 1.75 amps (24 V d.c.)	4 amps (12 V d.c.) 2 amps (24 V d.c.)

* based on Whale lab tests at zero head lift and zero head

Note: These specifications are retail items only.

For details of our bulk pack range for boat builders and wholesalers - contact Whale Support.

WARNING
Gulper® 220 is not suitable for pumping diesel. For this application please contact Whale for information.

Now with barbed outlet (discharge) connections to allow a choice of connecting directly to either 3/4" (19 mm) or 1" (25 mm)

Grey Waste Tanks

NEW for 2018 Multi-port Grey Waste Tank Range with integrated Intelligent Control

Integrated sensors for automatic pump control

Unique 'triple seal' lid isolates electronics from the harsh grey waste environment for advanced durability.

Unique 'Triple seal' protection prevents water ingress - no leak paths to electronics

- Single piece moulded lid incorporates sensor
 - Splash-proof lid
 - Protected fully potted circuit board
-
- Reliably handles typical shower & galley sink waste up to 195°F (90.5°C) even in complex multiple outlet systems
 - Solid state switches - no moving parts prone to blockages
 - Handles all grey waste on board through one thru hull fitting
 - Resilient polyethylene one piece moulded tanks

Ideal for larger vessels with many outlets, dishwashers or even bathtubs on board

- NEW 20 ltr (5.3 US Gals) models offer 25% more capacity than previous Whale models.
- Double sensor models allow boat builders to fit an additional pump to one tank for a compact high capacity solution or a high level alarm for extra peace of mind.

Typical Installation
Gulper pumps available separately

NEW Multi-port Grey Waste Tank Range with integrated Intelligent Control

Integrated sensors for automatic pump control

Easy flexible installation

- Easy wiring - connect any 12 or 24V d.c. pump system (up to 20A) with no relay required
- Installation guidance is included on tank*
- Ports shaped for drilling accuracy*
- Fit pumps in protected locations - choose top or side of tank mounting, or locate pump high and dry away from bedroom areas to minimize noise disruption

Peace of mind

- Double switch models - second sensor can be wired to a high level alarm

Optimized pumping

- The 20 ltr (5.3 US Gal) tank base is angled to ensure that waste flows to outlets easily for efficient pump out
- Outlet port and sensor locations minimize air pumping noise*

Low maintenance

- Glass filled polypropylene sensor housing helps reduce debris build-up, and lid provides access to wipe clean sensors

Typical Installation

fitter friendly
- clear visual cues
for installation

Typical Installation

Drill locator ports

Product Information

Shower and Sink Waste High Capacity System

New 100 ltr (26.4 US gals) tank features 2 non-clog Gulper 320 pumps and a clear inspection hatch in a pre-assembled kit

Ideal for boats from 60 ft for managing large amounts of water in grey waste systems

1 Year Warranty

SIMPLE INSTALLATION
Only one thru-hull fitting is required for all grey waste from multiple drains

SAVE SPACE - pumps mounted onto tanks saves valuable space on board, allowing more flexibility for layouts

Electronic switches
- for automatic operation

- no moving parts
- no exposed contacts
- max current draw 20Amp

Clear inspection lid with 3 independent switches

Switch 1 - operates pump 1

Switch 2 - operates pump 2 when a higher volume of waste needs to be pumped out.

Switch 3 - high level alarm.

Configuration:

Three independent switches.

Lower switch controls Pump 1 and mid level switch controls Pump 2. Pump 2 only runs when demand is high, or when back up is required. Third sensor is high level alarm.

See below for a full list of accessories

Grey Waste Tank Switch

Electric Field Sensor Switch

- Electric field sensor automatically sense water levels and switch on the bilge pumps
- Automatically switches on when 51mm (2") of water is sensed and turns off when water drops below 13 mm (½")
- BE9006 model - built in 30 second off delay for efficient operation, prevents cycle in small sump installations or enables lower drain than 13 mm (½")

Model Specifications

Model	Electric Field Sensor Switch	Electric Field Sensor Switch 30 second time delay
Product Number	BE9003	BE9006
Voltage D.C.	12 V or 24 V	
Current	Suitable for up to 20 amps	
Residual Current	0.008 amps	

Diverter Valve

Diverter Valves

Allows one pump to draw from 2 locations

DV5630 Diverter Valve 1" (25 mm) connections

DV5606 Diverter valve 1 ½" (38 mm) connections

- Materials - Main Body: Acetal, Teflon, Handle PTFE polyester
- Complies with US Coast Guard rules for type III Waste systems

Accessories - Pipework Connections

Accessories - Pipework Connections

Whale - Fishbox and Baitwell

Our non-clog filter free Gulper® electric waste pumps for fishbox and baitwell installations handle fish waste, and ensure long term reliability. Unlike macerator pumps, they can run dry with no risk of motor burn out. Gulper® valve technology has been built on more than a decade of market leading pump technology for proven reliable waste management.

The range now includes the Gulper Grouper Mk 3 with 90° port orientation ideal as a direct macerator replacement in fishbox installations.

Gulper Grouper

Fishbox Evacuation Pump

- Suitable for standard 1" (25 mm) or 1 1/2" (38 mm) hose connections - Page 106 -107

New Gulper Grouper Mk 3

With a 90° orientation head

Gulper® Grouper

Fishbox evacuation pump 1" (25 mm) or 1 1/2" (38 mm) standard hose connections

Built on more than a decade of market leading pump technology. Unlike macerator pumps, Gulper valve technology means no filters, no clogging or motor burn out, just reliable waste management. Pumps out fishbox and baitwell waste without clogging.

Non choke valves in pump head designed to handle fish waste - no motor to clog or burn out

Reliability contains single heavy duty diaphragm for heavy duty use

Straight forward installation multi directional head rotates 360° for convenient installation

Simple plumbing designed for connection to heavy duty hose 1" (25 mm) / 1 1/2" (38 mm) hose size

Diaphragm technology no impeller to clog or burn

Large inlet port for efficient pumping

Our latest generation model includes 90° port orientation to retrofit in line with existing macerator pumps in compact areas.

New Gulper Grouper Mk 3 with 90° head
- Ideal replacement for macerators

Diaphragm Pump Technology: No Impeller To Clog Or Burn

- Non-choke valves- easily handle fishbox waste
- Easy to install - 360 degree head rotation and choice of 1" (25 mm) or 1 ½" (38 mm) hose connections
- Easy to maintain and clean
- Ideal replacement for macerator pumps
- Fast pump out - up to 25.5 ltrs (6.75 US gals) per minute
- Long term durability - runs dry without damage
- Save battery - Low power consumption

COMPLETE YOUR SYSTEM

Whale - **Black Waste Range**

Electric / Manual Black Waste Pump Out

Practical solutions to waste management on board

Electric Black Waste Pumps

Our non-clog filter free Gulper electric waste pumps for black waste / toilet management handle un-macerated waste, and ensure long term reliability. Unlike macerator pumps, they can run dry with no risk of motor burn out. Gulper valve technology has been built on more than a decade of market leading pump technology for proven reliable waste management.

Manual Pumps

The Mark 5 Sanitation is built on more than 60 years of experience. At Whale we design and build manual pumps that are reliable and can be depended on for long term durability.

Gulper® Toilet Pump

Whale Gulper® Toilet Pump

For holding tank electric pump out / discharge

No clog, no filter waste pump built on more than a decade of market leading pump technology

- Pumps un-macerated toilet waste

Pumps Un-macerated Toilet Waste With Ease

- Runs dry without damage
- Up to 18 ltrs (4.75 US gal) per minute
- Virtually unblockable
- Rotatable inlet and outlet - allows you to install in awkward locations
- Self priming up to 3 m (9.8 ft) - mount the pump in the most convenient part of boat
- Pumps a mixture of air and waste
- Easy to maintain
- Ideal for holding tanks and vacuum systems

1 Year Warranty

- Ideal for use when a diverter is not required

Model Specifications

Model Product Code	Y Piece YP6114
Pipe Diameter	38 mm (1½")
Materials	Polypropylene

YP6114

Elbows

- Ideal for use in installations in confined spaces

Model Specifications

Model Product Code	Elbow EB3364	Elbow EB3488
Pipe Diameter	25 mm (1")	38 mm (1½")
Materials	Polypropylene	

EB3488

EB3364

Non-Return Valves

- Provide an easy way to maintain prime in a suction or discharge line
- Designed to fit in-line
- Suitable for use with manual or electric pumps

Model Specifications

Product Code	LV1215	LV1218	LV1219
Pipe Diameter	25 mm (1") 38 mm (1½")	25 mm (1") 28 mm (1 1/8")	19 mm (¾") 25 mm (1")
Materials	Body: Glass-filled Polypropylene, Valve: Nitrile®		

LV1215

LV1218

LV1219

Skin Fittings

- Manufactured in strong high quality moulded non-corrosive acetal

Model Specifications

Model Product Code	Skin Fitting SF5018	Skin Fitting SF5131	Skin Fitting SF5204	Skin Fitting SF5425
Diameter Size	16 mm (5/8")	19 mm (¾")	25 mm (1")	38 mm (1½")
Materials	Acetal			

SF5204
(see table for part numbers
of other hose connections)

Note: These specifications are retail items only.

Disclaimer

Any performance / specification figures shown have been calculated using standard testing procedures. Where maximum output is stated, such maximum output refers to pumps acting at zero lift and zero head. Actual performance may vary depending on the application, installation and environmental factors. Neither the accuracy nor completeness of the information contained in this or any Product brochure is guaranteed by the Company and may be subject to change at its sole discretion. The Company may, at its sole discretion, change the technical performance, dimensions or appearance of any of its Products without prior notification to purchasers. The Company shall not be liable to a purchaser for any indirect or consequential loss or damage (whether for loss of profit, loss of business, depletion of goodwill or otherwise), costs, expenses or other claims for consequential compensation whatsoever (howsoever caused) which arise out of or in connection with the use of a Product. Where dimensions are stated, such dimensions are for guidance only. Inch measurements are conversions from millimetre dimensions and are shown to the nearest 1/16". US gallons volumes are conversions from litres and are also shown for guidance purposes only to the nearest 1/16. Please contact the Company directly if precise measurements are required.

Please note: All products shown in this brochure are designed for use in marine vessels and are not suitable for installation in domestic applications.

Please note: All Whale electrical products must be installed and serviced by a qualified electrical engineer in accordance with the Whale appliance installation and operating instructions and appropriate electrical regulations and certifications.
