

A Press release from Vileda Professional

The new benchmark among cleaning trolleys: Vileda Professional presents the Origo 2 series

The new Origo 2 is the most innovative cleaning trolley Vileda Professional has ever built. This new generation ensures improved hygiene, higher efficiency, greater safety for users and sites as well as full integration of tablets and digitally aided cleaning devices.

Developed to meet the ever changing challenges of professional cleaning, whether this is the fastest possible cleaning of large office buildings, strict hygiene standards in hospitals or security at airports. The Origo 2 by Vileda Professional is ready for anything, thanks to an array of innovative features.

Push button opening lids, storage for multiple tools, separable satellite trolleys and a unique in lid tablet/pad storage solution allowing users to see and respond to push messages are just a few of the aspects that speak for this cleaning trolley.

For particularly large sites, the Origo 2 can now also be equipped with an optional motor. Due to its versatile design, cleaning companies can configure the Origo 2 according to their individual needs. And, there is even the option to use recycled materials, for taking care of the environment.
