You want an optimal return from your business, a logistics solution that generates more revenue and increases profitability.

We offer the best solution for optimal result in your specific situation.

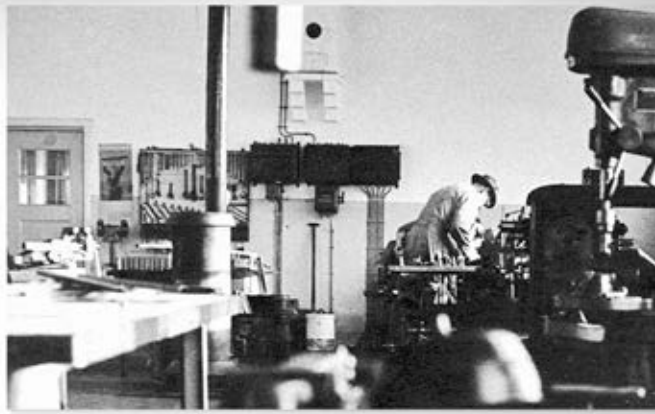

**“CHOOSE...  
THE ORIGINAL”**

---

**Roodberg®**

**The Original**

Jisk Knijpstra, the founder of the company, in his workshop in Terband. Over the years, Roodberg has become an international leading brand that combines personal advice and custom work with worldwide service and warranty. What has never changed in all these years are the core values: quality, knowledge and craftsmanship.

## SINCE 1936

A rich history

A rich history, a high standard, founded in Fryslân - abounding in water - and originated from the love for craftsmanship of the generations of Knijpstra. Meanwhile, the third generation is in charge of Roodberg. Dating back to 1978, in consultation with the customer, Roodberg built the first hydraulic boat trailer. This boat trailer is still in use, even after 4 decades!

## ROODBERG QUALITY

Tailor-made solutions

*The first boat trailer still in use.*

Over 80 years of design and manufacturing experience has led to expert advice, customization and innovative quality products. Roodberg enables customers worldwide to get their boats out of the water safely and quickly in a cost-effective way. We supply high-quality hoisting and transportation equipment for shipyards, repair yards, naval yards, yacht builders and marinas. Designed and built to do their job, year after year, in all seasons.

Roodberg is a "one-stop-shop" for: development, design, production, assembly and service. That is why Roodberg can offer you tailor-made solutions for your specific demands, with guaranteed quality.

## A PROVEN QUALITY

After the product has been designed and constructed to meet all requirements and all collective insights, the Roodberg logo is applied with care and pride. Every Roodberg product is robust and durable tailor made for the client. A solution that represents perfect logistics and craftsmanship.

## CRAFTSMANSHIP

### Driven by technique

About one hundred technically skilled professionals, with years of knowledge and experience in manufacturing high-quality products are daily working on six acres of well-equipped factory facilities.

All products and parts such as winches, hydraulic cylinders, wheels and hubs are developed and manufactured in-house, which guarantees the highest quality.

**Roodberg**<sup>®</sup>

The Original

## ROODBERG SERVICE

Roodberg products are designed and produced according to the highest standards. If any maintenance is required, worldwide specialist support and spare parts are available on demand.

# BOAT HANDLING

Robust power

Roodberg offers a wide range of boat handling equipment from 2 up to 540 ton for every specific situation.

Robust products, safe, with a long lifespan, designed on the basis of user experiences and decades-long experience of Roodberg. As a result, your boat handling is not only faster and more economical, but also safer. Roodberg products guarantee years of trouble-free ease of use and maintenance.

## LAUNCH & RECOVERY

Stability and safety

Motorboats, sailing yachts, catamarans, fishing boats or patrol vessels: Roodberg slipway trailers allow you to get boats of various sizes and weight classes - up to 160 ton - out of the water.

**Roodberg**<sup>®</sup>

The Original

# SLIPWAY TRAILERS

## Safe and strong

The advantages of your Roodberg slipway trailer: you get more boats out of the water, faster, easier and safer. Safer for you, but also for your boats, as the height adjustable carrier frame supports the hull of the ship seamlessly and prevents damage.

The trailer, adjustable in width, length and height, allows you to transport boats of different lengths. Because the trailer is easily and precisely manoeuvrable, your storage space is utilized to the optimum.

*Roodberg slipway trailers suit all hull shapes.*

# CRADLE TRANSPORT

Efficient and durable

Roodberg supplies towed trailers for handling four-point cradles. The range consists of two models in different lifting capacities.

**Roodberg**<sup>®</sup>

The Original

# CRADLE TRAILERS

## YT range

This is the well-known cradle trailer with a pivoting front axle and pneumatic tyres, so that unevenness in the terrain is not 1:1 transferred to the ship. The standard four-wheel steering gives it an excellent level of control and manoeuvrability.

## CT range

The Roodberg solution to quickly and easily pick up a four-point cradle and for shunting it with extreme manoeuvrability. By optionally equipping the trailer with a steering drawbar, the manoeuvrability is increased even more.

*Roodberg towed trailer can handle all kind of 4-point cradles.*

## POWER-LIFTING

For heavy weights  
up to 540 ton

Self-propelled boat hoists in various versions and weight classes. Roodberg offers maintenance-friendly solutions for heavy weights of 20 to 100 ton in the Power Hoist Atlantic range and from 150 to 540 ton in the Power Hoist Pacific range.

**Roodberg**<sup>®</sup>

The Original

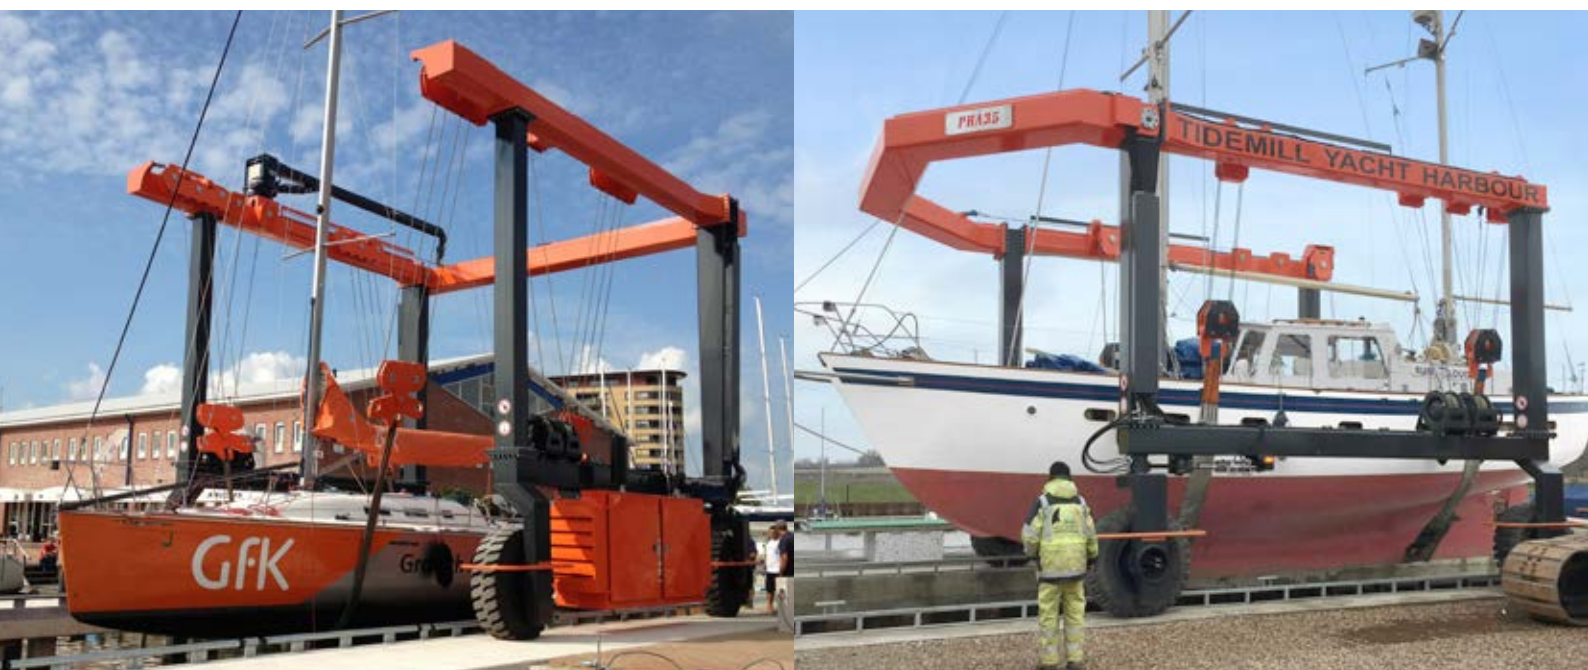

## BOAT HOISTS

Based upon your situation Roodberg gladly advises you on the type of boat hoist that suits you best. Save on time, maintenance and labour costs; Roodberg's hoist offers an optimal return on investment.

Innovative designs and high-quality components offer you a compact, manoeuvrable and remote controlled hoist. A smart and durable solution.

*Roodberg boat hoists.*

# STATIC LIFTING

Compact solution

Roodberg's static power cranes are robust and smoothly finished steel constructions. Whether or not combined with a Roodberg transport trailer, the crane offers you a user-friendly boat handling solution for all types of ships up to 150 ton.

**Roodberg®**

The Original

# STATIC POWER CRANES

Roodberg static power cranes can be provided with an electric or hydraulic drive. Equipped with one lifting frame or four independently controlled and mobile lifting points. A Roodberg crane combines optimal safety with ease of use. With four lifting points every boat can be hoisted securely and stable in and out of the water, even in windy conditions. The smart constructions ensure low maintenance costs.

*Roodberg static power cranes.*

## FULLY ELECTRIC

Electrical solutions built with proven technology.

The electric drive system that Roodberg is installing consists of existing components including a battery system that has already proven its worth in various applications at Roodberg and elsewhere.

The reason for this development is the advantages offered by an electric drive system:

- The noise reduction compared to diesel-powered equipment.
- The health and safety restrictions imposed by regulations for the use of diesel-powered equipment in buildings and noise restrictions for built-up areas.
- The responsible use of developments to save the environment.

**Roodberg**<sup>®</sup>

The Original

## ELECTRIC DRIVE SYSTEMS

Roodberg is focusing on fully electrically powered equipment.

The following products are already electrically powered:

- EPV & EPVS Towing vehicles as replacement of a tractor, wheel loader or telescopic handler
- PSM & PCT Heavy haulage trailers for ships with or without a boat cradle
- Boat Hoists & Industrial Cranes

*Roodberg electric drive systems.*

## TRANSPORTERS & STORAGE

More storage,  
limited transport costs

Increase your storage capacity, and reduce transport costs. With a Roodberg towed or self-propelled trailer you transport sailing yachts and motorboats of all lengths and weight classes safely to and from the storage place.

**Roodberg®**

The Original

## STORAGE

### Space saving

Roodberg cradles are strong, virtually maintenance-free and offer many space-saving solutions, the proven champion for use on your premises or in winter storage.

## SPECIALS

### Custom made

Roodberg means custom work of the highest class. This has been proven several times for clients with exceptional requirements, including the navy of Singapore, Finland, Switzerland, Royal Dutch Navy and the Royal Dutch Rescue Association (KNRM).
