X SERIES SHOCK MITIGATING PEDESTALS

CHARTER BOATS • PILOT BOATS • OFFSHORE FISHING • FLATS BOATS • CENTER CONSOLES • YACHT TENDERS • RHIBS

X SERIES

SHOCK MITIGATING PEDESTALS

The X4 pedestal comes in Silver or Black with an optional Height Adjust feature.

The X4 Pedestal is equipped with an adjustable mounting flange for mounting in nearly any helm layout. The X4 pedestals can be mounted directly onto the deck, in confined spaces or on deck-mounted boxes.

X4

4.4 inches (112 mm) of adjustable suspension travel for comfortable rides in rough seas.

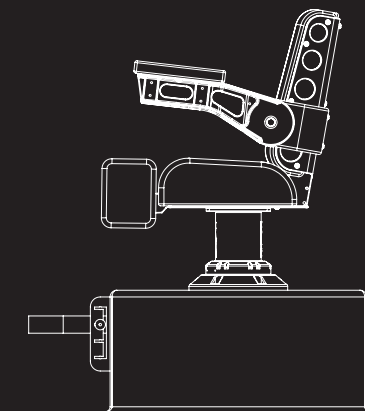

The **SHOXS** X4 shock mitigating pedestals transform nearly any marine seat into a safer, smoother ride with professional-grade shock mitigation technology. The design is based on the world's best military shock mitigation systems. We've taken this technology and packaged it into a compact unit that will integrate with any of the seat modules available on the market. Get to your destination faster, safer and ready for action with the **SHOXS** X4 Pedestals.

Features

- No Pinch Points
- 4.4" (112 mm) Suspension Travel
- The Same Military Technology for Commercial and Recreational Use
- Hard Anodized Aluminum Structure for Exterior Marine Installations
- Adjustable Mounting Flange to Set Seat Cushion Height During Installation
- Multiple Adapters to Mount Any Seat Including **SHOXS** Bucket Seats
- **SHOXS** Air Damping Technology
- For New Construction and Refit

Options

- Height Adjustment
- Fore/Aft Slider
- Black or Silver Finish
- **SHOXS** Bucket Seat

X SERIES

SHOCK MITIGATING PEDESTALS

The X8 pedestal comes in Silver or Black with an optional Height Adjust feature.

The X8 Pedestal is equipped with an adjustable mounting flange for mounting in nearly any helm layout. The X8 pedestals can be mounted directly onto the deck, in confined spaces or on deck-mounted boxes.

8 inches (203 mm) of suspension travel allow maximum wave slam protection and taller ride heights.

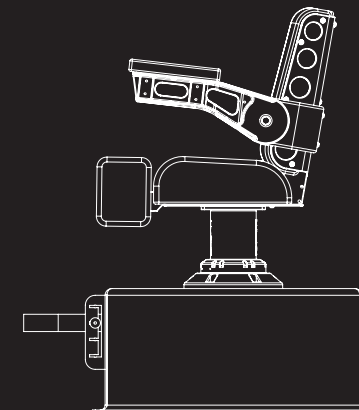

We've taken the technology used by Coast Guards, navies, and special forces teams all over the world, and packaged it into a sleek, compact unit that will integrate with off-the-shelf marine seating. 8 inches of suspension travel ensure a comfortable ride in rough chop and a taller ride height than the X4 Pedestal. Installation is quick and hassle-free, with multiple mounting configurations.

Features

- No Pinch Points
- 8" (203 mm) Suspension Travel
- The Same Military Technology for Commercial and Recreational Use
- Hard Anodized Aluminum Structure for Exterior Marine Installations
- Adjustable Mounting Flange to Set Seat Height During Installation
- Multiple Adapters to Mount Any Seat Including **SHOXS** Bucket Seats
- **SHOXS** Air Damping Technology
- For New Construction and Refit

Options

- Height Adjustment
- Fore/Aft Slider
- Black or Silver Finish
- **SHOXS** Bucket Seat

OPTIONS AND INSTALLATION

The X Series pedestals can be packaged with a **SHOXS** 3200, 3400, or 3700 bucket seat or sold separately for use with nearly any aftermarket marine seat available. Seats are available with gray metal and black or grey upholstery, or customize the upholstery colors to match the style of your boat.

SHOXS SEATS AND PEDESTAL PACKAGES

The **SHOXS** 3200-X4 and 3200-X8 combines an X Series shock-mitigated pedestal with a rugged bucket seat for a ready-to-install seating solution.

The **SHOXS** 3400-X4 and 3200-X8 combines an ergonomic, stylish bucket seat with the X Series pedestals for a comfortable, well-appointed helm seat.

The **SHOXS** 3700-X4 and 3700-X8 combines a flip up helm seat with the X Series pedestals for seated or standing operation.
