Organize your visit!

MaritimUp is a company specialized in maritime innovation, acting as a key partner in the development of innovations and digital strategies for its clients: startups, SMEs, Large Groups.

MaritimUp is at the origin of the Observatory of Maritime Innovations, which lists marine innovations through interactive mapping. The 10 themes of the Observatory: Big Data, Blockchain / Artificial Intelligence, Sustainable Ships, Cybersecurity, Autonomous Ships / Drones, Fixed Offshore Wind Turbines, Floating Offshore Wind Turbines, Tidal Energy, Wave Power, Marine Biotechnologies.

MaritimUp has also developed a range of tools forming the first incubator for nomadic maritime innovations. Lastly, based on its first two pillars, MaritimUp is positioned as a digital agency exclusively dedicated to the maritime world.
