

aqua watt

Zero emission boat propulsion

aquawatt is located in Austria. Here the lakes and rivers have superb water quality. For many years conventional boat engines have not been allowed to be used. We have 30 years of experience and a long tradition in electric boating.

We offer

- Electric boats and vessels
- Electric outboards
- Electric inboard motors
- Lithium batteries
- Solar boats
- Components for electric boats
- Technical consulting

Electric battery-powered motor yachts:
aquawatt 848 and boats with speeds of up
to 28 knots

Cosmo 600 electric wakeboard and water
ski boat

Electric tenders,
working and life guard boats

Electric boats for fishing, fish and mussel
cultivation

Full electric outboard and inboard motors 4 to 50 kW

Lithium ion high energy batteries for electric propulsion and on board supply

We manufacture Li ion batteries to our customers measurements in different sizes. One battery can also be divided into 2 or 3 individual housings.

New diesel solar hybrid technology

Water buses
Hospital boats
Pleasure boats
Research vessels
Ocean cleaning boats

Generally sworn and court-certified expert

Development, manufacturing and sales
