

OCEANVOLT

Oceanvolt SD 15

Electric propulsion for sailing yachts

AVAILABLE
2012

High efficiency

- Brushless permanent magnet motor
- Saildrive with 1,93:1 reduction

Compact

- Lightweight: Drive and motor only 85 kg
- Minimal space requirements
- Compatible with lithium batteries

User friendly

- Easy installation
- No extra water inlets
- Low maintenance

Closed liquid cooling system

- Combined lubrication and cooling system
- Easy installation – no extra water inlets
- Low maintenance

Reliable

- Proven technology
- Proven reliability

Silent

- Custom spiral bevel gear
- Flexible mounting to hull

PRELIMINARY:
