CABIN BRASS PVD
PROBABLY THE MOST BEAUTYFUL YACHT LAMP AT SEA

CABIN
DENMARK

The Danish Frigast Cabin light gives your yacht a touch of luxury and old world charm that only meticulous and full attention to detail can convey.
Cabin small is perfect as a reading light by the berth or in the cabin in smaller yachts.
For 30-50 foot yachts the Cabin medium is the better choice – whilst in larger yachts the Cabin large may be preferred.

All lights give exellent reading light with low power consumption.
Colour temperature: 2700k, CRI >85
Multivoltage 10V-30V.

LED models are mounted with one warm white power LED.
HLED lights are mounted with one warm white replaceable CABIN G4 LED.

The lifetime of the LED is more than 50.000h
G4 LED more than 15.000h.

DIMMING LED LIGHTS

CABIN LED lights are dimmable.

CABIN LED lights designed for a specific voltage range can be dimmed.
ea. lights series 5521 - 5581 - 5583 - 5586

Soft start, smooth dimming and memmory function for high lighting comfort.
PWM technology with 750Hz - no flicker.

Our C-LED DIM must be connected between suppley and LED light(s).
A push switch enable you to switch on and off and to dim your lights to the level
you want.

C-LED DIM CV 6A for one channel max. 6A
C-LED DIM CV DIN 4X5A for one to four channels of max. 5A

POWER LINE LED

WORLD CLASS YACHT LIGHTS
SINCE 1977

POWER LINE LED
1070 SERIES

CABIN
DENMARK

This new series of LED lights is designed for general lighting, reading light or cabinet light. Quality light wherever you need it.

The 320mm light give the same warm white light as a 35W halogen bulb. An integrated LED driver regulates voltage fluctation and garanties steady light output.

Power consumption only 5W. The lifetime of the LEDs is more than 50.000h.

The lights are made of aluminum with acrylic lens/cover. The lights are surface mounted and need minimum space. Easy fixing with screws.

Dimension	Switch	Volt	Part. No.
320 x 30 x 12mm	yes	11-16V	1070WWS 320 12V

LINE LED 1070WWS

POWER LINE LED
6020 SERIES

CABIN
DENMARK

This series of lights is designed for general lighting, reading light, cabinet light, mashine room light or light in sail lockers. Quality light wherever you need it.

24 LEDs give the same warm white light as a 20W halogen bulb.
An integrated LED driver regulates voltage fluctation and garanties steady light output.
Power consumption 12V - 2,5W, 24V - 3W. The lifetime of the LEDs is more than 50.000h.

The lights are made of aluminum and anodized, or anodized and white laquered.
IP 65 rating makes these lights ideal for indoor and outdoor use.
The lights are surface mounted and need minimum space. Fixing with two screws.
Dimension 300 x 13 x 8mm. No switch.

BOOM LED
6000 SERIES

CABIN
DENMARK

This series of lights is designed to give cockpit
light from the boom.

24 LEDs give the same warm white light as a
20W halogen bulb. An integrated LED driver
regulates voltage fluctuation and guaranties
steady light output.
Power consumption 12V - 2,5W, 24V - 3W.
Dimmable with PWM dimmer - see page 11.12

The lights are made of aluminum. The surface is
anodized or white lacquered.
The lights are surface mounted and fit into the
gap in smaller booms.
Dimension 300 x 13 x 8mm.
Fixing: M4 screws AISI 316 or rivets.
6000mm PU cable Ø5mm, 2 x 0,34mm
Recommended connector IP68 - see page 11.11
