

Wilks and Flexiteek Launch New CLICK Fendering System

AMSTERDAM – 16th SEPTEMBER 2021 – Wilks, part of the Flexiteek Group are pleased to launch it's new CLICK Fendering system.

CLICK has been developed to provide a quick and simple installation without compromise to impact resistance. The CLICK system consists of a rigid PVC track, and flexible UV stabilised PVC body to provide a quick fit fendering system with hidden fixings.

CLICK is available to buy from our worldwide distributor network and is available in 3 sizes, 38mm, 50mm and 80mm.

CLICK is available to view during METS on stand 03.400 or if you would like a sample, please email sales@wilks.co.uk

About Wilks:

Wilks, part of the Flexiteek Group is proud to be one of the world's leading companies in the manufacture and supply of impact protection and decking systems. Based in Essex in the UK, we produce a wide range of specialist profile goods for use within the marine industry.

Established in 1973, Wilks was acquired in 2019 by Flexiteek and is still a family run company. We specialise in the manufacture and supply of PVC, aluminium and rubber extrusions. Over the years we have established ourselves as one of the leading suppliers of marine profiles worldwide and our reputation of quality together with high levels of customer service are known around the globe.
