

*Data is the most valuable commodity in the world...*

INNOVATION | DESIGN | MANUFACTURE

# AboutUs

---

Grange Technologies specialise in monitoring compliance to cleaning routines and procedures, auditing and monitoring actions carried out and helping to identify those that need to be carried out, encouraging and inviting customer feedback enabling rapid response to any issues raised.

## INNOVATION

---

We have nearly 20 years experience in this market. Our products are built are Innovative. New ideas and customer input & feedback means we are constantly innovating, improving and developing new products.

## DESIGN

---

All our products are designed with customer requirements in mind. We manage the design process from start to finish so that the end product is the highest possible quality.

## MANUFACTURE

---

All products are assembled in house using the highest quality of manufactured materials from our approved suppliers.

# Hygiene360

FULL CIRCLE MANAGEMENT

## The future of washroom management...

The future of washroom management, Hygiene360 is a revolution in washroom and cleaning management, providing the perfect self-auditing and compliance system for your business.

Hygiene 360 offers REAL-TIME LIVE data enabling you to offer a rapid response to customers needs or feedback.

Easy to use with a simple user friendly cleaner log in area enabling factual Real-Time data to be captured as activities are taking place.

With customer feedback , effectively your facility users become your eyes and ears , informing you of any issues that may need immediate attention, what they like and what they do not like. - With our enhanced customer feedback, we get a far greater understanding as to why the selection has been made, enabling you to be able to react accordingly.

Dynamic routing and footfall counting allows you to streamline your cleaning services to the busiest areas as necessary 24/7.

### Countdown

Countdown to the next cleaning due time.

### Shift management

Set up a shift structure, including breaks.

### Footfall counting

See when your busiest periods are so you can better allocate your resources.

### Real time alerts

So you know exactly when you need to react.

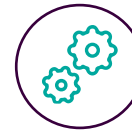

### Dynamic routelist

Sends your cleaners to the next location requiring attention

### Customer feedback

Customers can leave specific feedback when pressing the options

### Maintenance issues

Allow cleaning teams to report issues direct to the maintenance team.

### Checklist

So you can ensure your tasks have been completed.

# Hygiene360Portal

Hygiene360 reduces paper usage and eliminates self-auditing with all data stored in our secure portal for when you need it.

Invaluable data in REAL-TIME, LIVE on your computer 24/7.

**Access a range of reports in our portal** – from a top-level 'dashboard' to detailed downloads.

# Hygiene 360 lite

FULL CIRCLE MANAGEMENT

## Hygiene 360 lite is our latest innovation...

It offers the flexibility of our traditional Hygiene Monitors but with the added benefit of an online data and configuration management portal.

### Contactless smart cards

Provides a simpler operator reset procedure

### Customer feedback

Our customer feedback buttons allow users to rate the condition in which they found your facilities.

### Convenient technology

A web portal with configuration settings and all your data.

### Easy install

Battery operated, connected device, Wifi enabled – you have complete flexibility over the mounting location.

### Footfall counting

Our optional footfall counting system allows you to see when your busiest periods are.

### Fully customisable

Available in a variety of shapes and sizes. Add your own design to the housing for a bespoke look.

NEW

## Be seen **to be clean...**

Our traditional Hygiene Monitors are proving to be just as popular as ever. With no need to connect to any network and their simple battery operation, Hygiene Monitors are perfect for even the most secure environment.

## For those who really care...

Installing a Hygiene Monitor at your premises helps you to manage your cleaning regime by displaying a visual countdown to the next cleaning due time. It is a public display of your commitment to cleanliness and hygiene.

Our simple magnet reset and outright purchase option makes the Hygiene Monitor a cost-effective way to improve hygiene compliance.

# Feedback247

FULLY FOCUSED FEEDBACK

NEW

## Our new kiosk based system for feedback surveys...

Dig deep better understand your customers, because understanding what they do and do not like allows you to react accordingly. Our kiosk stand really draws attention to the feedback unit where a fully customisable survey allows your customers to leave feedback on anything you need to know.

With our real-time  
data portal,  
**you can analyse  
your data  
any time, any place.**

### PERFECT FOR...

Restaurants

Hotels & Spas

Retail Outlets

Motorway  
Service Stations

Airports &  
Train Stations

and anywhere where  
good service matters

# Footfall 247

FOOTFALL COUNTING SOLUTIONS

If you need to track footfall,  
**our simple solution could  
be exactly what you are  
looking for...**

Running over wifi or over a mobile network,  
Footfall247 can alert you when footfall reaches a  
critical level.

Track footfall data over time in our real-time  
data portal.

Download spreadsheets with data by hour  
or by day.
