LUMISHORE

eclipse
lighting collection

Lumishore is the World's most trusted name in marine LED lighting

Our vision started in 2008 and was simple: to offer the brightest, high-performance marine lighting systems.

We design and build fully integrated lighting systems for every kind of craft, that create the most beautiful and personalised smart lighting effects, above and below the waterline.

Innovation is key to everything we do

It's what makes us different and keeps us pushing our boundaries and standards even further, year after year.

It all starts with innovation, and with you, our customer, understanding your needs, anticipating how they may change and how we can innovate to stay ahead and exceed your expectations.

Dedication and attention to detail resonates deeply with our world class engineering experts, who ensure that we remain at the forefront of marine lighting innovation.

The ECLIPSE Lighting Collection

The perfect choice for those searching for beautiful connected above water lighting which is simple to install and offers fantastic value for money.

Transform your leisure boat in an instant with single and dual color; Neon flex, Strip Lights, Downlights, Courtesy Lights, Flood and Spotlights. Every light within the collection is dimmable as standard, allowing you to find the perfect brightness for the mood you want to set.

Ingeniously built for boats where interior space is a precious commodity; sport trailers, center consoles, tenders and fishing boats.

ECLIPSE delivers affordable, easy to install lighting control and a level of quality that sets it apart from the competitors. Created with the same passion, dedication and assurance of Lumishore reliability.

***When quality, performance and value count...
ECLIPSE outshines the competition!***

ECLIPSE Neon Flex Lights

The ultimate linear lighting solution, offering beautiful dot-free illumination onboard.

Fully waterproof, IP68 protected and suitable for both indoor and outdoor installation, ECLIPSE Neon Flex is perfect for decorative and accent lighting purposes. It's bend-flex allows it to contour and adjust around curved surfaces - ideal for under gunwales, cabin headliners and T-tops.

Available in single color blue or white, or dual color blue and white and in 3 convenient sizes providing incredible flexibility.

ECLIPSE Neon Flex Lights SNL100	
Colors	Blue White Blue and White
Ingress Protection	IP68
Number of LEDs	60 per meter
Supply Voltage	12 V DC Only (10-15 V DC)
Max Current Draw 12/24V DC	0.5A (6W/m)
Installation location	Exterior/ partially covered areas/ interior/ above water only
Mechanical installation	Cut to length (in 25mm steps) and seal before install. Stainless steel screw clips for mounting.
Lengths available	1m, 2.5m and 5m
Control Options	ON/OFF Switch or ECLIPSE Command Center

ECLIPSE Strip Lights

Perfect for adding subtle decorative effects to any craft and indirectly lighting spaces, while remaining mostly hidden. They can be integrated into gunwales, under furniture, behind ceiling panels and more.

Available in single color blue or white, and dual color blue and white and in 3 convenient sizes, providing incredible flexibility.

Lumishore's high quality, high output, ECLIPSE Strip Lights are fully encapsulated and potted and resistant to water.

ECLIPSE Strip Lights SL100			
Colors	Blue		White Blue and White
Number of LEDs	60 per meter		
Ingress Protection	IP68		
Supply Voltage	12 V DC Only (10-15 V DC)		
Max Current Draw 12/24V DC	0.5A (6W/m)		
Installation location	Exterior/ partially covered areas/ interior/ above water only		
Mechanical installation	Cut to length (in 50mm steps) and seal before install. Stainless steel screw clips for mounting.		
Lengths available	1m, 2.5m and 5m		
Control Options	ON/OFF Switch or ECLIPSE Command Center		

ECLIPSE Downlights

Lumishore's ECLIPSE Downlights provide excellent illumination to enhance a variety of indoor or outdoor overhead spaces onboard.

Constructed of a durable aluminium body with a glass front, completely water sealed and IP67 rated. Simple to install with a 2 wire hookup and a shallow depth profile of only 21mm (0.83").

Available in single color blue or white, or dual color blue white. Choose from a black or white finish to complement your boats aesthetic.

ECLIPSE Downlights DL55	
Colors	Blue White Blue and White
Ingress Protection	IP67
Supply Voltage	12 V DC Only (10-15 V DC)
Max Current Draw 12/24V DC	0.4AA
Installation location	Exterior/ partially covered areas/ interior/ above water only
Mechanical installation	Stainless steel spring clips, marine adhesive (optional)
Control Options	ON/OFF Switch or ECLIPSE Command Center

ECLIPSE Courtesy Lights

Increase onboard passenger safety and improve your overall boating experience. ECLIPSE Courtesy Lights are great for illuminating walkways, stairwells, helm stations and other design elements of a boat.

Constructed of a durable clear acrylic body, completely water sealed and IP67 rated. Available in single color blue or white, and dual color blue and white.

Measuring 33mm (1.3") in diameter, ECLIPSE Courtesy Lights are small, discreet and easy to install with a 2 wire hookup, flush mountable and fit almost anywhere onboard.

ECLIPSE Courtesy Lights CL30	
Colors	Blue White Blue and White
Ingress Protection	IP67
Supply Voltage	10.5 - 31 V DC
Max Current Draw 12/24V DC	0.1A
Installation location	Exterior/ partially covered areas/ interior/ above water only
Mechanical installation	Panel mount (recessed marine adhesive)
Control Options	ON/OFF Switch or ECLIPSE Command Center

ECLIPSE Flood Lights

ECLIPSE Flood Lights generate powerful crisp white light to illuminate the hardest to see places onboard. Ultra-wide reaching oval beams of 70° - 90°, for full coverage and custom diffusion optics.

Perfect for deck, cockpit lighting, or for general security purposes, Lumishore's low profile articulating flood lights are ideal for exterior mounting on cabin tops, T-tops, arches, transoms and radar pedestals. Available in 4" and 18" models.

Designed to withstand the harshest marine environments, with a IP68 rating, and in marine-grade powder coated aluminium housing.

ECLIPSE Flood Lights	
Colors	White
Sizes available	4" 18"
Ingress Protection	IP68
Supply Voltage	10.5 - 31 V DC
Max Current Draw 12/24V DC	4" - 1.7 A/0.9 A 18" - 9.2 A/4.6 A
Beam angle	70° - 90° oval
Fixture lumens	4" - 1,500 18" - 10,000
Case construction	Powder coated marine grade aluminium
Mechanical installation	Stainless Steel Fixing Brackets
Control Options	ON/OFF Switch or ECLIPSE Command Center

ECLIPSE Spotlights

Designed to offer a high-intensity light source, covering a wide spread area. ECLIPSE Spotlights generate powerful crisp, white (5000 K) light to illuminate the hardest to see places. Available in 20", 30", 40" and 50" models, allowing for versatile placement onboard.

Designed to withstand extreme marine environments, completely water tight (IP68 compliant) and constructed with marine-grade powder coated aluminium. These sleek, low profile spotlights enhance your boat's fit-out, even when not in use. Suitable for T-Tops, helm roofs, fishing towers and bow platforms.

ECLIPSE Spotlights	
Colors	White
Ingress Protection	IP68
Sizes available	20" 30" 40" 50"
Max Current Draw 12/24V DC	12.8 A/6.4 A 19.3 A/9.6 A 25.7 A/12.8 A 32 A/16 A
Supply Voltage	10.5 - 31 V DC
Fixture Lumens	15,000 23,760 31,680 39,600
Mechanical Installation	Stainless steel fixing brackets
Control Options	ON/OFF Switch or ECLIPSE Command Center

LUMISHORE

ECLIPSE Command Center

The ECLIPSE Command Center allows seamless integration and control of your ECLIPSE lights via your MFD. This is the World's first ultra-compact box to include built in drivers and zones for multiple types of lights. It delivers cost effective, space saving, easy to install lighting control and a level of quality that sets it apart from the competition.

The Command Center has 3 built-in configurable lighting zones that can each be set up to control your ECLIPSE lights. Expansion modules available to increase that capability to up to 6 zones.

ECLIPSE Expansion Modules

Easily expand your ECLIPSE lighting system with expansion modules. Extending and expanding is as easy as plugging it in and selecting what type of light you would like to control!

With 1 and 2 zone expansion models available, you can have up to 6 zones in your ECLIPSE lighting system:

Expansion Module - 1 Zone

Transom	Gunwales	T-Top Hardtop	Front Cockpit
ZONE 1	ZONE 2	ZONE 3	ZONE 4
Underwater Lights	Courtesy Lights	Neon Flex Lights	Strip Lights
ECLIPSE Command Center			ECLIPSE Expansion Module 1 Zone

Expansion Module - 2 Zones

Transom	Gunwales	T-Top Hardtop	Front Cockpit	T-Top Hardtop
ZONE 1	ZONE 2	ZONE 3	ZONE 4	ZONE 5
Underwater Lights	Courtesy Lights	Neon Flex Lights	Strip Lights	Flood Lights
ECLIPSE Command Center			ECLIPSE Expansion Module 2 Zones	

LUMISHORE

Control your ECLIPSE lights your way

Control your ECLIPSE lighting zones via a simple switch.

The ECLIPSE Command Center features built-in Wi-Fi which allows for direct smart device connectivity. Connect to compatible MFDs* via an ethernet port. Lumishore's intuitive interface makes accessing and managing your lighting zones simple!

GARMIN  Raymarine SIMRAD B&G FURUNO  JOHNSON OUTDOORS LOWRANCE

*Currently compatible with major MFD manufacturers - Garmin, Raymarine, Simrad, B&G, Furuno, Johnson Outdoors and Lowrance. Visit www.lumishore.com for a full list of models.
