*Note: Dimensions below exclude clearances. For more information, please ask VEEM Marine for a Product Installation Drawing*

VEEM's Marine's mid frame size gyro stabilizer is a flexible alternative to mutiple smaller gyros in vessels **110' – 165' (33 – 50m)** or can be installed in multiples to suit larger yachts, commercial and boarder protection/law enforcement vessels.

### VEEM MARINE ADVANTAGES INCLUDE

- Up to 95% roll reduction at rest or underway
- Fully maintainable in the vessel (inc. major overhauls)
- Highest stabilizing power per \$ or kg/lb available
- Recirculating forced lubrication for long bearing life
- Epoxy coatings and corrosion resistant components
- Low noise emissions
- Telemetry for remote monitoring, diagnostics & updates
