**REVVYA** 

## FROM PLASTIC TO FABRIC

REVVYA is our new fabric collection made of 100% recycled polyester yarns, made from post-consumer plastic bottles with permanent flame retardant superior properties. REVVYA is 100% recycled & recyclable and can be used for in- & outdoor.

## HOW IT'S MADE

REVVYA is the ultimate fabric, created to improve our lives without threatening our precious planet. REVVYA is produced in Europe with a verified supply chain. Did you know that we can save 94% of water, 64% energy and decrease 32° CO<sub>2</sub> emissions, thanks to its innovative production process.

## THE FACTS

- REVVYA is suitable for in- & outdoor
- REVVYA is flame retardant
- REVVYA is made from post-consumer plastic bottles
- REVVYA has the OEKO-TEX® Standard 100 Certification
- REVVYA has the Global Recycle Standard Certification
